PUBLIC INFORMATION NOTICE #16
FOR THE CONSTRUCTION OF THE
930 ZONE RECYCLED WATER RESERVOIR

TEMPORARY LANE CLOSURE - UPDATE

March 25, 2014

Dear Resident/School:

The Inland Empire Utilities Agency’s (IEUA) current lane closure on Eucalyptus Avenue near the entrance to Chino Hills Community Park is now open. As part of the project construction, IEUA’s contractor will be temporarily closing another portion of Eucalyptus Avenue approximately 500-feet west of Peyton Drive.

DATES: March 25, 2014 through March 31, 2014. Rain delay may occur

WHERE: West bound lane of Eucalyptus Avenue approximately 500-feet west of Peyton Drive

WORK HOURS: Monday - Friday 8:30 am – 4:00 pm

IMPACTS: One lane in each direction will remain open. Expect traffic delays up to 10 minutes.

Benefiting the residents and businesses of Chino Hills and Chino, this project will provide recycled water as an additional source of water for landscape irrigation use and groundwater recharge. This project will save approximately 90 million-gallons per year of drinking water, while helping to drought proof IEUA’s service area, help to keep the cost of water low, and provide a reliable source of alternative water. Funding for this project has been provided in full or in part through an agreement with the State Water Resources Control Board and the Environmental Protection Agency. The contents of this document do not necessarily reflect the views and policies of either the State Water Resources Control Board or the Environmental Protection Agency, nor does mention of trade names or commercial products constitute endorsement or recommendation for use. (Gov. Code § 7550, 40 CFR § 31.20.)

If you have any or wish to receive weekly e-mail updates, please contact Michelle O’Brien at 909-993-1501 or mobrien@ieua.org. For construction updates, please visit www.ieua.org.
