Date: August 6, 2014

To: The Honorable Board of Directors

From: Jean Cihigoyenette, General Counsel

Subject: Bid Protest – Wineville Recycled Water Extension Segment B
Construction Contract

RECOMMENDATION

It is recommended that the Board of Directors deny the Bid Protest submitted by TC Construction Company, Inc. ("TC").

BACKGROUND

INTRODUCTION

This matter calls for the consideration of a Bid Protest filed by Steven E. Boehmer Esq. on behalf of TC Construction Company, Inc. on July 16, 2014. It is asserted therein that the successful bidder Mike Bubalo Construction ("Bubalo") failed to comply with the guidelines for the Clean Water State Revolving Fund Program Disadvantaged Business Enterprise. Specifically, it is asserted that Bubalo failed to comply with section five of the six good faith effort requirements set forth in the State Water Resources Control Board ("State Board") DBE Requirements. A copy of the Bid Protest letter is submitted as Exhibit "A".

On July 22, 2014, General Counsel responded to the Bid Protest, outlining the procedure for reviewing a Bid Protest that would be followed by the Board of Directors and summarizing General Counsel's position with regard to the validity of the Bid Protest. A copy of General Counsel's letter is submitted as Exhibit "B".

FACTS AND TIMELINE

The bid opening for this particular project occurred on April 29, 2014. On May 5, 2014, in an email correspondence to Adham Almasri, Senior Engineer of the Agency, TC first inquired as to whether Bubalo had satisfied the good faith effort requirement discussed above. Additionally, the email correspondence demonstrated TC's understanding that a Bid Protest had to be filed within seven (7) days of the bid opening. A copy of the email correspondence referred to is submitted as Exhibit "C". Additionally, Section C – Bid Forms, Part 2.0, "Conditions" Section 16.0 outlines the procedural requirements for Bid Protests. Included in the requirements is that Bid Protests must be submitted within seven (7) days after bid opening. A copy of the relevant contract provision is submitted as Exhibit "D".

On June 24, 2014, TC submitted a letter to Agency staff alleging that Bubalo had failed to comply with step number five of the good faith effort requirements of the State Board. That letter was supported with exhibits in the form of two search results of companies that posted the required notice. Bubalo was not listed and, therefore, TC presumed that Bubalo had not complied. A copy of the letter and supporting exhibits are submitted as Exhibit "E".

On that same day, June 24, 2014, staff responded to the letter of TC by asserting that Bubalo had in fact complied with all requirements of the bid documents including those promulgated by the State Board. Mr. Almasri indicated that there was more than one way in which Bubalo could comply with the State Board requirements and that they had in fact complied. A copy of said letter is submitted as Exhibit "F".

On June 27, 2014, TC once again directed correspondence to Mr. Almasri, reiterating their position that Bubalo had not complied with step five of the six good faith effort steps. In the letter, TC asserts that they have reviewed the appropriate documentation to come to their conclusion and have determined that the Bubalo bid is nonresponsive. A copy of said letter is submitted as Exhibit "G".

On July 2, 2014, Agency staff, through Mr. Almasri, responded to TC's June 27, 2014, letter. There, Mr. Almasri explains thoroughly the position of Agency staff and submits documentation to support that position. A copy of the July 2, 2014, letter with supporting documentation is submitted as Exhibit "H".

On July 8, 2014, TC, through its agent Carlos Perea reiterated its position that Bubalo has not completed step five of the good faith efforts and that the Agency has assumed that completion of steps one through four constitute a completion of step five as well. It asserts that the Bubalo bid fails to follow the instructions of the State Water Resources Board and that TC is now filing its intent to file a formal Bid Protest. A copy of said email correspondence is submitted as Exhibit "I".

Finally, the guidelines promulgated by the State Board are submitted as Exhibit "J". Please note that TC is alleging that Bubalo failed to comply with section five of the "Six Good Faith Efforts" which can be found on the second page of Exhibit "J".

STANDARD OF REVIEW

Both the award of a contract and the decision to reject a Bid Protest are legislative matters. (*Mike Moore's 24-Hour Towing v. City of San Diego* (1996) 45 Cal.App.4th 1294). The Board of Directors is the legislative body of the Agency and it is therefore incumbent upon the Board of Directors to reach a conclusion with respect to this Bid Protest.

In examining the actions of the Board of Directors ("Agency"), a superior court will determine whether the findings and actions by the Agency are supported by substantial evidence. The court will look to the record to determine whether the Agency's actions were arbitrary, capricious, entirely lacking in evidentiary support, or inconsistent with proper procedure. (*Cypress Security, LLC v. City and County of San Francisco* (2010) 184 Cal.App.4th 1003). There is a presumption that the Agency's actions were supported by substantial evidence and the challenger has the burden of proving otherwise. *Ibid.*

In considering the responsiveness of a bid, the basic rule of competitive bidding is that bids must conform to specifications, and that if the bid does not so conform, it may not be accepted; however, it is further well established that a bid which substantially conforms to a call for bids may, though it is not strictly responsive, be accepted if the variance cannot have affected the amount of the bid or given a bidder an advantage or benefit not allowed other bidders or, in other words, if the variance is inconsequential. (*Bay City's Paving & Grading, Inc. v. City of San Leandro* (2014) 223 Cal.App.4th 1181). Whether a bid varies substantially or only inconsequentially from a call for bids is a question of fact. *Ibid.*

The policy behind competitive bidding statutes is to ensure that tax payers receive the best benefit for their expenditure of monies. Competitive bidding statutes are not in place to protect the bidders but rather the tax payers as well as to prevent collusion and fraud.

As the court in *Bay City's Paving & Grading, Inc.*, supra stated:

The question 'whether in any given case a bid varies substantially or only inconsequentially from the call for bids is a question of fact' (citations) ... 'to be considered inconsequential, a deviation must neither give the bidder an unfair competitive advantage nor otherwise defeat the goals of ensuring economy and preventing corruption in the public contracting process' (citations) 'these considerations must be evaluated from a practical rather than a hypothetical standpoint, with reference to the factual circumstances of the case. They must also be viewed in light of the public interest rather than the private interest of a disappointed bidder.'

'It certainly would amount to a disservice to the public if a losing bidder were to be permitted to comb through the bid proposal or license application of the low bidder after the fact, and cancel the low bid on minor technicalities, with the hope of securing acceptance of his, a higher bid. Such construction would be adverse to the best interests of the public and contrary to public policy' (citations) *Ibid.*

Based upon the authorities, the Board should consider whether the omission complained of by TC resulted in an advantage to Bubalo in securing the contract and whether that advantage impacted the amount of the bid submitted by Bubalo.

GENERAL COUNSEL'S OPINION

It is General Counsel's opinion that the Bid Protest should be denied on several grounds. Initially, the Bid Protest was not filed timely and is not in conformance with the Agency's bid documents. As noted in Exhibit "D", Section C – Bid Forms, Part 2.0, "Conditions" Section 16.0 requires that a Bid Protest in a case such as this must be submitted within seven (7) calendar days after the bid opening. Although TC asserts that the Agency did not timely provide documentation necessary to evaluate the responsiveness of the Bubalo bid, the Exhibits demonstrate that even after those documents were in the possession of TC they did not file a Bid Protest for three weeks.

Exhibit "C" demonstrates that TC was aware of the seven (7) day limitation within which to file its Bid Protest. Moreover, Exhibit "E" shows that on June 24, 2014, TC had sufficient information upon which to submit a Bid Protest. Again, on June 27, 2014, TC reiterated its position that step five (5) of the good faith effort requirement had not been met (Exhibit "G"). It was not until July 16, 2014, that a formal Bid Protest was submitted with the Agency. Giving TC all the benefit of the doubt with respect to the submission of documents, a formal Bid Protest should have been submitted within seven (7) days of the June 24, 2014, correspondence to the Agency. For some reason it was not submitted until July 16, 2014, well beyond the seven (7) day limitation period set forth in the bid documents.

General Counsel further believes that the correspondence of July 2, 2014, sent by Mr. Almasri (Exhibit "H") accurately establishes the basis upon which to deny the Bid Protest. As that letter states, there are several ways that Bubalo could have complied with the bid requirements and in fact the requirements were satisfied by Bubalo. More importantly, and as that letter states, the State Board has agreed with the position taken by the Agency thereby establishing that the requirements of the State Board have been met.

General Counsel can see no basis to support the notion that Bubalo has attained an advantage over TC in the bid process. Likewise, there is no evidence to suggest that the bid amount submitted by Bubalo was in any way affected by the process it employed in satisfying the DBE guidelines and requirements. Put another way, there is no evidence that Bubalo was able to reduce its bid because of the manner in which it recruited disadvantaged business enterprises. Accordingly, any potential deviation is certainly inconsequential and can be waived by the Board of Directors. Moreover, to grant the Bid Protest would result in a disservice to tax payers and rate payers of the Agency in that they would not benefit from the lowest bid submitted for this project.

*Letter to the Honorable Board of Directors
Re: TC Construction Bid Protest
Aug. 6, 2014
Page 5 of 5*

PRIOR BOARD ACTION

On May 21, 2014, the Board of Directors awarded the bid for construction of the Wineville Recycled Water Extension Pipeline Extension Segment B to Bubalo.

IMPACT ON BUDGET

If the Bid Protest is sustained by the Board of Directors, then the Board will have to determine whether to accept the second lowest bid of TC or reject all bids and rebid the project.

Re: Our Client: TC Construction Company, Inc.
Project: Wineville Recycled Water Extension Pipeline Segment B

Dear Mr. Almasri:

The law firm of McDougal, Love, Bekis, Boehmer & Foley has been retained by TC Construction Company, Inc. ("TC") to submit this formal bid protest under the following circumstances:

- (1) The Project was awarded to Mike Bubalo Construction; and
- (2) Mike Bubalo Construction failed to comply with the Guidelines for Clean Water State Revolving Fund ("CWSRF") Program Disadvantaged Business Enterprise ("DBE").

Therefore, if you have any questions, please contact the undersigned or Carlos Pereira at TC.

Pursuant to the instruction to bidders, section 16.0 entitled Bidding Protest procedures, TC formally protests the bid of Mike Bubalo Construction because it failed to comply with the six good faith efforts under the DBE Guidelines and Requirements. Specifically, Mike Bubalo Construction failed to comply with requirement No. 5, which provides as follows:

Use the services and assistance of the SBA and Minority Business Development Agency (MBDA) of the Department of Commerce.

Inland Empire Utilities Agency, a Municipal Water District
Attn: Adham Almasri
July 16, 2014
Page 2

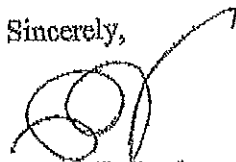

I have reviewed your letter dated June 24, 2014 and the analysis is misplaced. The six good faith efforts under the DBE Requirement are mandatory, not discretionary, and failing to comply with one or more of the six good faith efforts renders the bid unresponsive. This requirement cannot be waived by the Inland Empire Utilities Agency because it is a mandate of the State Water Resources Control Board and funding in connection with the Project.

In light of the above, the Inland Empire Utilities Agency is required to reject the bid of Mike Bubalo Construction and award the Project to TC as the next lowest responsive bidder in connection with the subject project. In the event that the Inland Empire Utilities Agency fails to comply with this reasonable request, I have been instructed to initiate the filing of a writ of mandate, mandating that Inland Empire Utilities Agency award the project to TC. I will also be forced to contact the State Water Resources Control Board and apprise this agency that the DBE Requirements are not being met with this project.

Pursuant to Section 16 cited above, the Inland Empire Utilities Agency has 7 calendar days after receipt of this protest to respond. I look forward to your agreement to award the project to TC.

In the meantime, if you have any questions, please do not hesitate to contact me.

Sincerely,

Steven E. Boehmer

Re: Inland Empire Utilities Agency / TC Construction Company, Inc.
Wineville Recycled Water Extension Pipeline, Segment B

Dear Mr. Boehmer:

This firm serves as General Counsel to the Inland Empire Utilities Agency. We are in receipt of your correspondence dated July 16, 2014, sent on behalf of your client TC Construction Company, Inc., regarding the above-mentioned project.

This letter shall serve as the Agency's response pursuant to Section C-Bid Forms, Part 2.0, "Conditions" 16.0C.

Your correspondence is submitted as a formal bid protest to the bid submitted by Mike Bubalo Construction relative to the above-mentioned project. Please note that the contract was awarded to Mike Bubalo Construction some time ago and, in fact, work has already begun.

As you are no doubt aware, both the award of a contract and the decision to reject a bid protest are legislative matters. (*Mike Moore's 24-Hour Towing v. City of San Diego* (1996) 45 Cal.App.4th 1294). Accordingly, the Board of Directors will consider your bid protest at its next regularly scheduled meeting of August 6, 2014. The meeting will be held at the Agency's headquarters located at 6075 Kimball Avenue, Chino, California 91710. The meeting will begin at 10:00 a.m.

As noted above, this is a legislative matter and not a judicial or quasi-judicial proceeding. Accordingly, it is not an evidentiary hearing and the bid protest will be presented to the Board of Directors based upon the record as it currently stands and any staff report(s) submitted by staff. In addition to your correspondence of July 16, 2014, the Board will review and consider correspondence from your client dated June 24, 2014, and June 27, 2014, together with supporting materials; an email from your client dated July 8, 2014; and an email chain dated May 5, 2014, between Adham Almasri and Carlos Perea.

The Board will also have a June 12, 2014, correspondence from Compliance News; correspondence dated June 24, 2014, and July 2, 2014, from Mr. Adham Almasri, P.E., Project Manager with Inland Empire Utilities Agency, together with supporting documents; and the pertinent section of the contract identified as Section C-Bid Forms, Part 2.0, "Conditions" 16.0 "Bidding Protest Procedures".

Additionally, the Board of Directors will receive a copy of my evaluation and recommendation on the matter which will be to deny the bid protest. My recommendation will be based upon several factors including, but not limited to, the following:

1. TC Construction's bid protest is untimely pursuant to contract Section C-Bid Forms, Part 2.0, "Conditions" 16.0A2 in that it was not submitted within 7 days of the bid opening.
2. The State Water Resources Control Board, which is the governing body in charge of the ultimate determination of good faith efforts, has determined that Mike Bubalo Construction has satisfied all good faith efforts under the DBE Guidelines and Requirements.
3. Mike Bubalo Construction has complied substantially if not completely with the bidding requirements and the specifications, including the good faith effort requirements under DBE Guidelines and Requirements.
4. Assuming, arguendo, a bidding inconsistency did occur, it did not create an advantage for Mike Bubalo Construction as compared to other bidders nor did it affect the bid amount submitted.

It should be noted that TC Construction's bid also contained inconsistencies and was not fully in compliance with the contract documents.

Sincerely,

JEAN CIHIGOYENETCHE, GROSSBERG & CLOUSE

From: Carlos Perea

To: Adham Almasri

Ok, then legally I need to file a protest within 7days of the bid.

If all there documents are in order then I won't have to do that.

I've submitted thousands of bids and allowing the other bidders to review them is standard operating procedure.

Please advise.

Hi Adham,

I see the apparent low bidder results on your web page from the day of the bid.

Has the post bid review changed anything and when/where will we see those results?

thanks

EXHIBIT “D”

D. Debarment

Award shall not be made to firms that are listed on the Federal Debarment List. Furthermore, upon receipt of bids, staff shall verify that the Contractor is not listed on the Federal Debarment List by verifying the information through the Excluded Parties List System at www.epls.gov. By signing this bid, Contractor is certifying that they are not presently debarred, suspended, proposed for debarment or declared ineligible from participation in any federal, state or local contract awards.

16.0 BIDDING PROTEST PROCEDURES

A. Time for Submitting Protests

1. Concerning Bidding Documents: A protest regarding bidding documents shall be submitted in writing, by the protesting bidder to the Agency, so that the protest is received by the Agency 48 (forty-eight) hours before the bid opening.
2. Concerning Bid Opening Procedures, Bids, and Award: A protest regarding the bid opening procedures, the bids, or the award shall be submitted in writing, by the protesting bidder to the Agency, so that the protest is received by the Agency within seven (7) calendar days, after bid opening.

B. Contents of Protest Document

Protests shall include a clear detail of the reason for the protest and the remedies sought by the bidder submitting the protest.

C. Agency's Response

The Agency will issue a written response within seven (7) calendar days after receipt of a protest.

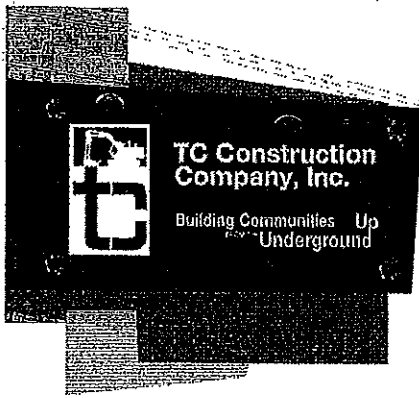

D. Litigation

Litigation regarding protests on bidding documents and other bidding and award procedures shall be commenced only after following the procedures stipulated in this section.

17.0 QUANTITIES OF WORK

The quantities of work or material stated in unit price items of the bid are supplied only to give an indication of the general scope of the work; the Agency does not expressly, or by implication agree that the actual amount of work or material will correspond there with, but reserves the right after award to increase or decrease the amount of any unit price item of the work by an amount up to and including twenty-five (25) percent of any bid item, or to omit portions of such work as may be deemed necessary or expedient by the engineer, without a change in the unit price, and shall

Re: Wineville Segment B – Good Faith Compliance

Gentlemen,

As per the bid documents, the responsive bidder must meet 5 steps of the GFE Efforts prior to bid and submit documentation of these 5 steps with their bid. After review of the bid documents and GFE documents of Mike Bubalo Construction we find no record that step 5 was completed.

Enclosed for your review is the two search results of companies that posted the required notice for sub bids with the SBA. This print out shows the Company Name, Closing Date, Project Name and Sub bids requested. The names of various bidders, including TC Construction, can be found in the records search that we performed from 12/1/2013 to present, but we find no record of Mike Bubalo Construction. A similar log has been requested of the MBDA, which also requires that a notice be posted on their website. Given that Mike Bubalo has not produced a record that they posted either notice, it appears that they did not follow proper procedure.

Due to the time sensitive nature of this situation, we request your prompt review and response to the information provided.

Sincerely,

Carlos Perea
Project Manager

Argonaut
Constructors

2/26/2014
1:00 PM

Argonaut Constructors, (Argonaut) an equal opportunity employer, is requesting qualified minority (DBE/MBE/WBE/SBE) subcontractors and suppliers to submit bids for your trade specialty for the project listed below. Your firm must be currently certified as a DBE/MBE/WBE/SBE firm with an agency acceptable to East Bay Municipal Utility District. PLEASE SUBMIT A COPY OF YOUR CURRENT CERTIFICATION WITH YOUR BID. Argonaut Constructors is requesting quotes from all Minority and Non-Minority Subcontractors and Suppliers including, but not limited to Trenching, excavation, backfill, compacting, asphalt paving, piping system appurtenances (valves, blowoffs, etc.), hydrostatic testing and flushing, pipe suppliers, trucking, construction area signs, traffic control, shoring and bracing, cathodic protection, rock, controlled density fill, construction survey, pipe welding. Requirements: Note: Bids may be faxed to the number listed below. Please make sure that prior to bid time your quotation is received by our company. Scope of Work:

should be submitted the day before the bid date. Bonds may be required for 100% Performance and 100 % Payment for the full amount of subcontractors price. Surety companies will have to be approved by Argonaut Constructors (Argonaut). Argonaut may pay up to 1.5 % of bond premium. Union signatory will be required on this project. Argonaut will offer assistance in obtaining bonding, lines of credit, insurance, equipment or supplies. Argonaut is willing to break down items into economically feasible packages and we are willing to break out any part of work to encourage participation. Argonaut's listing of a subcontractor is not an acceptance of any or all of that subcontractor's conditions, qualifications, exclusions or exceptions included in the subcontractor proposal. Quotations must be valid for the same duration as specified by Owner for Contract Award. Argonaut is relying on the price submitted in the subcontractor's proposal as all-inclusive price for its trade scope, four plans and specifications regardless of any qualifying language in the proposal. Plans may be reviewed at our office in Santa Rosa or they may be obtained through East Bay Municipal Utility District at 375 11th Street, Oakland, CA 94607-4246, local plan rooms, builder's exchanges or trade publications such as Daily Pacific Builder or the North Coast Builder Exchange. Town of Yountville 3/3/2014 11:00 AM

TOWN OF YOUNTVILLE, Yountville, California, Excerpts from the NOTICE CONTRACTORS, FOR CONSTRUCTION OF RECYCLED WATER EXPANSION PROJECT, (CIP Numbers WW-0002). Sealed proposals will be received at the office of the Town Clerk, Town Hall, 6550 Yount Street, Yountville, CA 94599. General Work Description: The work, in general, consists of the furnishing and installation of the recycled water pipeline consisting of 6 and 8 inch PVC pipe along with recycled water appurtenances including upgrades and modifications at the Joint Treatment Plant (JTP) in the Town of Yountville, along with the Supervisory Control and Data Acquisition (SCADA) system controls at the JTP, existing recycled water customers and other work as shown on the plan stated in the specifications. This Contract is partially funded by the California Water State Revolving Fund (CWSRF) and is, therefore, subject to Disadvantaged Business Enterprise (DBE) requirements. The Town encourages all prime contractors to utilize certified DBE sub-contractors on Town Projects. A DBE must be a small business firm defined pursuant to Title X of the Clean Air Act Amendments of 1990 (42 U.S.C. 7601 note statute), and Public Law 102-389 (42 U.S.C. 4370d) (8% statute). All contractors are required to report on DBE usage during the term of the contract per the Guidelines for CWSRF Program DBE Requirements, January 16, 2014. The contractor shall document a good faith effort to use the contract DBE's. The Town has established a DBE goal of 4.72%.

faith efforts shall be documented and verified. The Guideline for mex CWSRF DBE requirement is attached to the contract Documents in S Water Resources Control Section and is also part of the agreement. Number 1, 2, EPA 6100-2, EPA6100-3 and EPA 6100-4 included in tl Guidelines must be submitted with each Bid. The complete Notice to Contractors, Plans, specifications, bid documents and documents are incorporated by reference in these specifications and are available for examination at the office of Public Works Department at Town Hall, Yount Street, Yountville, CA 94599. Bid documents may be viewed or purchased at Blue Print Express Reprographics online at www.blueprintexpress.com/yountville or by calling (707) 745-3593. Electronic and hard copies may be obtained at a non-refundable cost of \$125.00 per set plus shipping and handling. All bidders must purchase a complete bid set from BPXpress Reprographics in order to be considered responsive and to receive addenda notifications. Bids will be received until 11:00 AM on Monday March 3, 2014 at which time they will be publicly opened and read aloud in the Town Council Chambers at Town Hall. Bids will be referred to the Yountville Town Council for consideration. A mandatory Pre-Bid meeting with group tour is scheduled for this project on Thursday February 13, 2014 at 2:00 PM. The meeting will take place at the Town of Yountville Wastewater Treatment Plant located at 7501 Solano Ave, Yountville. The Contractor shall possess a Class A "General Engineer" license at the time this contract is bid. Bids are required for the entire work described herein. This contract is subject to State contract documents. Bidders are responsible to check for any addendums or updates to the contract documents. Bids which do not comply with any addendums or updates will be rejected as non-responsive. Bidders must check directly with the Town of Yountville Public Works Department 707-944-8851 (or the consultant advertising the project to bidders, Blue Print Express Reprographics (707) 745-3593) for the latest addendums and updates.

RE: Bids For The Wineville Recycled Water Extension Pipeline Segment B

Dear Mr. Perea:

The Inland Empire Utilities Agency (IEUA) has received your emailed letter dated June 24, 2014. IEUA is confident that Mike Bubalos' bid received towards the subject Project meets all the requirements set forth in the bid documents including the requirements for the Grants and State Revolving Funds (SRF.)

Mike Bubalos' bid documents demonstrated and documented the good faith efforts in soliciting bids from Disadvantaged, Minority and Small Enterprises (DBE, MBE and SBE). During the bid phase, Mike Bubalo retained the services of a consultant to assist the bidder with his good faith effort. The consultant utilizes various State and Federal databases (Pro-Net/CCR, OSDC, and the CUCP) to obtain, gather and consolidate comprehensive information on DBE/MBW/SBE/etc. Said databases are the primary databases for federal agencies, including the MBDA and SBA. The data extracted allowed Mike Bubalo to reach out to the same DBE/MBE/WBE/DVBE/SBE's available through the MBDA and SBA and ultimately meet the requirements in this bid documents.

Finally, the DBE Specialist with the State Water Resources Control Board has confirmed that Mike Bubalo's bid is in conformance with the requirements set forth relative to the Grants and State Revolving Funds (SRF.)

The Agency appreciates your interest in the project.

Sincerely,

Adham Almasri, P.E.
Project Manager

IEUA
Attn: Adham Almasri

Re: Wineville Segment B – Good Faith Compliance (Response)

Gentlemen,

This letter is response to your letter dated June 24, 2014, wherein IEUA believes that step 5 of the Good Faith Effort has been met. However, in our discussions with the State Water Resources Board/DBE Specialists, they have indicated that step 5 requires proper documentation with the SBA and MBDA to meet the Good Faith Effort.

Due to our past experiences involving GFE documentation with numerous Agencies, we are very concerned that credit is being given for steps 1-4 to achieve step 5. While this may be a reasonable approach, it is not supported by bid documents and is subject to inconsistent application to this and future bids.

As you are aware, the GFE documents were requested within 5 days of the bid (4/29/14) and we have expended a great deal of time and effort to confirm that the GFE of Mike Bubalo was incomplete. Therefore, based on the information provided above, we are quite certain that the documentation submitted by Mike Bubalo constitutes a non-responsive bid.

Due to the time sensitive nature of this matter we would request a meeting with your department.

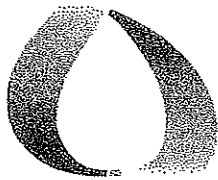

Sincerely,

Carlos Perea
Project Manager

RE: Bids for The Wineville Recycled Water Extension Pipeline Segment B

Dear Mr. Perea:

The Inland Empire Utilities Agency (IEUA) received your second letter dated Jun 27, 2014 questioning the good faith effort done by Mike Bubalo Construction Company (MBCC). Please be aware that the rules, regulations, even the specific language and attached forms to the bid documents are designed by the State Water Resources Control Board (SWRCB) to meet the overall goal of allowing small, disadvantaged and minority businesses the opportunity to provide services under the projects funded by the State Revolving Funds (SRF).

MBCC has submitted a bid that met all the requirements in the bid documents including making the six (6) good faith efforts listed in the bid documents under Attachment I. Specifically, you have been questioning their compliance with Step five (5) which calls for utilizing the services of both the Small Business Administration (SBA) and the Minority Business Development Agency (MBDA). Please understand that according to the bid documents, registering the project on the SBA and MBDA web sites is one way but not the only way of utilizing the services of the SBA and MBDA.

In addition to making documented phone calls (attached) to both the SBA and the MBDA, MBCC on December 17, 2013 also retained services from Compliance News (Consultant) to assist with their Good Faith Effort for the Inland Empire Utilities Agency (IEUA) – Wineville Extension Recycled Water Pipeline: Segment B project.

Compliance News utilizes various State and Federal databases (including Pro-Net/CCR, OSDC, and the CUCP) to collect information on DBE/MBE/WBE/DVBE/SBE/etc. By visiting their online databases and extracting the information they have made available a comprehensive and consolidated list of the type of enterprises listed above. The consultant does have a programmer on board who translates the extracts so the users can search businesses by certification type, trades provided, and proximity to the project location.

The Pro-Net/CCR database is the primary database for federal agencies, including the MBDA and SBA. The data was extracted from https://www.sam.gov/public-extracts/CCR-FOIA/CCR_FOIA_Extract.zip and were made available to MBCC. By using Compliance News Services and making the phone calls, MBCC Inc. was able to reach out to the same DBE/MBE/WBE/DVBE/SBE's available through the MBDA and

SBA, and were able to meet the requirements of making the six (6) good faith efforts listed in the bid documents in addition to reaching out and documenting the outcome of the solicitations from vendors and subcontractors. The back-up documents from Compliance News are attached for your reference.

As stated in our previous correspondence, a DBE Specialist with the SWRCB has confirmed that MBCC's bid is in conformance with the requirements set forth relative to the Grants and SRF particularly in making adequate good faith efforts.

Based on the above (facts and documentations), IEUA is satisfied that MBCC has made the necessary efforts to comply with the bid documents. IEUA has in good faith responded to all of your inquiries and public records' requests.

Sincerely;

A handwritten signature in black ink, appearing to read 'Adham Almasri', is written over a horizontal line.

BUSINESS

Minority-owned firms seeking to penetrate new markets — domestic & global — and growing in size and scale, can access business experts at a MBDA Business Center. Whether it's securing capital, competing for a contract, identifying a strategic partner or becoming export-ready, your success is our priority.

The Centers are located in areas with the largest concentration of minority populations and the largest number of minority businesses. The Centers are staffed by business specialists who have the knowledge and practical experience needed to run successful and profitable businesses. Business referral services are provided free of charge. However, the network generally charges nominal fees for specific management and technical assistance services.

Nationwide Network for Minority Entrepreneurs

"Improving Your Good-Faith Efforts"

June 12, 2014

To Whom It May Concern,

On December 17, 2013 Mike Bubalo Construction Co., Inc. utilized Compliance News to assist with their Good Faith Effort for the Inland Empire Utilities Agency - Wineville Extension Recycled Water Pipeline: Segment B project. We were recently informed that the Inland Empire Utilities Agency has some questions regarding the Federal and State Agencies which were contacted regarding this project. The intent of this letter is to address those questions.

Compliance News utilizes various State and Federal databases (including Pro-Net, OSDC, and the CUCP) to collect information on DBE/MBE/WBE/DVBE/SBE/ etc. We contact the agencies by visiting their online databases and collecting the information that they have made available. We in turn make this data available to our customers so that they can identify and solicit potential subcontractors and suppliers.

Respectfully,

Henry Sprague

LOG

Good Faith Effort for Bid Solicitation EN13045

Project: Inland Empire Utilities Agency - Wineville Extension Recycled Water Pipeline:
Segment B

Important Instructions

NOTE: If your bid-package includes form STD-840, you MUST write "See attached Log sections A, B, & C" on STD-840 and include STD-840 with your GFE documents.

- 1.) Read and complete Section A.
 - 2.) We have completed Section B for you.
 - 3.) Complete Section C by making follow-up phone calls to the firms listed below.
- >For DVBE firms, call at least 3 firms. ->For DBE, MBE, & WBE firms, call all of them.

As of June 1, 2010 Caltrans now requires primes that do not meet their UDBE & DBE goal to do the following:

1.
 - A. Go to the CalTrans project calendar webpage at <http://dap1.dot.ca.gov/hq/esc/oe/calendar> and log-in using your bid package registration and password.
 - B. Hit on the project number your bidding.
 - C. Hit "See Opt-in records".
 - D. Print this page. You must now contact these Opt-in DBE's as part of your search for participation.
2. Now hit your browser back-button and hit "Primes: Advertise for help" Be sure your listed in the CalTrans "Primes Seeking Assistance".

As of Sept. 2010, Caltrans suggests the following further steps to support Good Faith Effort (GFE).

1. Attend networking opportunity events at mandatory Caltrans pre-bids & district meetings. Include with your GFE, information that you attended the meeting along with the event brochure.
2. As you reach the bid opening date, ask yourself how likely you are to meeting the goal. If its apparent you may not, then do another GFE. This should be done 5 days of bid opening.

A. Awarding Department Contact Instructions

Many California Good-Faith Efforts may require the bidding contractor to CALL the awarding department or owner and talk with their Good-Faith representative. SEE YOUR CONTRACT DOCUMENTS FOR THIS TELEPHONE NO. Call it and record the result below.

Awarding Department Contact Action

Mike Bubalo Construction Co., Inc. contacted the awarding department issuing this contract at (tel number) _____ at (time) _____ on (date) _____ and discussed Good-Faith Effort with (Awarding Department Contact) _____.
Remarks:(left message, etc.) _____
Phone call was made by (Prime Rep's do _signature) _____.

B. Federal, State, & Local Agencies Contacted

On 12/17/13, Mike Bubalo Construction Co., Inc. contacted:

1. Federal Agency: Central Contractor Registration (CCR) / PRO-Net at <http://www.bpn.gov/CCRSearch/Search.aspx> at 02:59PM on 12/17/2013
 2. State Agency: Office of Small Business & DVBE Certification (OSDC) <http://www.pd.dgs.ca.gov/smbus> at 02:59PM on 12/17/2013

REQUESTING SUB-BIDS ON BUT NOT LIMITED TO: Paving, Trucking, Traffic Control, Traffic Striping, Survey, Electrical, Pipe Jacking, CCTV/Video Documentation and Construction Materials..

Please indicate if you will be bidding on this project and fax your response to (626) 960-7897.

☐ Yes, we will bid ☐ No, not interested

We are an Equal Opportunity Employer and intend to seriously negotiate with certified and qualified DVBE, DBE, MBE, WBE, SBE, UDBE, OBE subcontractors and/or suppliers for project participation.

All subcontracts will be subject to the terms and conditions of the project specifications. Mike Bubalo Construction is signatory to Union agreements. This project is subject to Federal Funding regulations and State Water Resources Control Board provisions.

Plans and Specs are available for viewing, by appointment, at our office or are also available by downloading the files from <http://www.govbids.com/>

EXHIBIT “I”

Subject: RE: sent of behalf of Adham Almasri

Date: Tuesday, July 8, 2014 at 11:12:04 AM Pacific Daylight Time

From: Carlos Perea

To: Adham Almasri

CC: Austin Cameron

Adham,

Thanks for replying to our request for the justification of Mike Bubalo's GFE documentation.

However, based on the information provided, Mike Bubalo Construction has not completed step 5 of the GFE.

Furthermore, IEUA has assumed that other steps taken by Mike Bubalo Construction are equivalent to step 5 of the GFE.

Therefore, their bid clearly fails to follow the instructions of the State Water Resources Board.

In order to protect our rights as the next responsive bid, this is our notice of intent to file a formal protest.

Sincerely,

Carlos

Estimator

Guidelines for Clean Water State Revolving Fund (CWSRF) Program
Disadvantaged Business Enterprise (DBE)

DBE REQUIREMENTS

The DBE Program is an outreach, education, and goaling program designed to increase the participation of DBEs. The DBE Program encompasses many of the components of the former Minority/Women Owned Business Enterprise (MBE/WBE) Program and includes many new features.

Financial Assistance Recipients should award a "fair share" of sub-agreements to small, MBE/WBE businesses. Since each is a separate entity, the objective is to assure that each of these business entities is given the opportunity to participate in sub-agreement financial assistance agreements. This applies to all sub-agreements for equipment, supplies, construction, and services.

How to Achieve the Purpose of the Program

Recipients of financial agreements are required to seek, and are encouraged to utilize, MBE/WBE businesses for their procurement needs under the financial agreement. The key functional components of the DBE Program are as follows.

- Fair Share Objectives
- Six Good Faith Efforts
- Contract Administration Requirements
- MBE/WBE Reporting
- MBE/WBE Certification

DBEs, MBEs and WBEs

DBEs are:

- entities owned and/or controlled by socially and economically disadvantaged individuals as described by Title X of the Clean Air Act Amendments of 1990 (42 U.S.C. 7601 note) (10% statute), and Public Law 102-389 (42 U.S.C. 4370d) (8% statute), respectively;
- a Small Business Enterprise (SBE);
- a Small Business in a Rural Area (SBRA);
- a Labor Surplus Area Firm (LSAF); or
- an Historically Underutilized Business (HUB) Zone Small Business Concern or a concern under a successor program.

MBEs are:

- entities that are at least 51% owned and/or controlled by a socially and economically disadvantaged individual as described by Title X of the Clean Air Act Amendments of 1990 (42 U.S.C. 7601 note), and Public Law 102-389 (42 U.S.C. 4370d), respectively.

WBEs are:

- entities that are at least 51% owned and/or controlled by women.

Certifying MBE and WBE firms

Under the DBE Program, entities can no longer self-certify. Certifications will be accepted from:

- The Small Business Administration(SBA);
- The Department of Transportation's State implemented DBE Certification Program (with U.S. citizenship);
- Tribal, State and Local governments; and
- Independent private organization certifications.

If an entity holds one of these certifications, it is considered acceptable for establishing MBE or WBE status under the DBE Program.

GOOD FAITH EFFORT (GFE)

The GFE is required for all financial agreement Recipients to ensure that all DBEs have the opportunity to compete for procurements funded by financial assistance dollars.

Six Good Faith Efforts

1. Ensure DBEs are made aware of contracting opportunities to the fullest extent practical through outreach and recruitment activities. For Tribal, State and Local Government Recipients, this will include placing DBEs on solicitation lists and soliciting them whenever they are potential sources.
2. Make information on forthcoming opportunities available to DBEs. Posting solicitations for bids or proposals for a minimum of 30 calendar days before bid opening.
3. Consider in the contracting process whether firms competing for large contracts could subcontract with DBEs.
4. Encourage contracting with a group of DBEs when a contract is too large for one firm to handle individually.
5. Use the services and assistance of the SBA and Minority Business Development Agency (MBDA) of the Department of Commerce.
6. If the prime contractor awards subcontracts, require the subcontractor to take the above steps.

The following forms (attached) are required to be submitted with the GFE:

FORM	REQUIREMENT	PROVIDED BY	COMPLETED BY	SUBMITTED TO
DBE Contractor/Subcontractor Certification	Subcontractor required to provide proof of DBE certification	Recipient	Subcontractor	SWRCB by Recipient
DBE Selected Prime Contractor/Recipient	Prime Contractor list selected DBEs	Recipient	Prime Contractor	SWRCB by Recipient

ADMINISTRATION REQUIREMENTS

- A Recipient must require its prime contractor to pay its subcontractor for satisfactory performance no more than 30 days from the prime contractor's receipt of payment from the Recipient;
- A Recipient must be notified in writing by its prime contractor prior to any termination of a DBE subcontractor by the prime contractor;
- If a DBE subcontractor fails to complete work under the subcontract for any reason, the Recipient must require the prime contractor to employ the six GFEs if soliciting a replacement subcontractor;
- A Recipient must require its prime contractor to employ the six GFEs even if the prime contractor has achieved its fair share objectives; and
- The GFE documentation shall be submitted by the Recipient with the Approval of Award package.

BIDDERS LIST REQUIREMENTS

- A Recipient of a financial agreement to capitalize CWSRF funds also must require entities receiving funds to create and maintain a Bidders List if the Recipient of the financing agreement is subject to, or chooses to follow, competitive bidding requirements;
- The Bidders list must include all firms that bid or quote on prime contracts, or bid or quote on subcontracts, including both MBE/WBEs and non-MBE/WBEs;
- The Bidders List must be kept until the Recipient is no longer receiving funding under the agreement; and
- The Recipient shall include Bidders List as part of the Approval of Award package.

Information Retained on the Bidders List:

- Entity's name with point of contact;
- Entity's mailing address and telephone number;
- The project description on which the entity bid or quoted and when;
- Amount of bid/quote; and
- Entity's status as a MBE/WBE or non-MBE/WBE.

APPROVAL OF AWARD (AOA) REQUIREMENTS

The Disadvantaged Business Enterprise (DBE) Good Faith Effort (GFE) is one element of the AOA process summarized below. The AOA request package submitted to the Division of Financial Assistance (DFA) for approval must contain the following:

1. A completed AOA Request Form (Form 555-1). The form, with original signature, must be signed by the Recipient's Authorized Representative or Designee); and
2. All of the AOA attachments (listed on the back of Form 555-1), in accordance with the AOA instructions, including the DBE Good Faith Effort Certification Form, signed and submitted by the Recipient (Certification form attached), certifying that the Prime Contractor has met the DBE requirements,

The GFE should be submitted with the Bid Proposal. Recipient shall review the successful bidder's documents closely to determine that the GFE was performed. Documentation should indicate that the GFE occurred **prior** to bid opening. Failure of either the bidder or prime contractor/subcontractor to follow the GFE and provide the necessary information could jeopardize funding of the project. The following situations and circumstances require action as indicated:

1. If the apparent successful low bidder was rejected, a complete explanation must be provided;
2. Contractors must provide proof of DBE certification. Self-certification is not acceptable. Contractors must be certified at bid opening; and
3. Failure of the apparent low bidder to **perform** the GFE **prior** to bid opening will result in its bid being declared non-responsive. The construction contract may then be awarded to the next low, responsive, and responsible bidder that meets the requirements or the Recipient may re-advertise the project.
4. If there is a bid dispute, all disputes shall be settled **prior** to submission of the AOA package.

Each procurement contract signed by the Recipient must include the following term and condition:

"The contractor shall not discriminate on the basis of race, color, national origin or sex in their performance of this contract. The contractor shall carry out applicable requirements of 40 CFR Part 33 in the award and administration of contracts awarded under EPA financial assistance agreements. Failure by the contractor to carry out these requirements is a material breach of this contract which may result in the termination of this contract."

Reporting Requirements

For the duration of the construction contract, the Recipient is required to submit to State Water Resources Control Board (SWRCB) reports of progress made in fulfilling the GFE in the Semi-Annual Report submitted by April 10 and October 10 of each fiscal year on the attached Utilization Report form (UR-334). Failure to provide this information as stipulated in the financial agreement language may be cause for withholding disbursements.

**DISADVANTAGED BUSINESS ENTERPRISE (DBE)
GOOD FAITH EFFORT CERTIFICATION BY RECIPIENT**

1. The apparent successful low bidder on Clean Water State Revolving Fund Program funded project number C-06-_____ is _____
(Name of Bidder)

2. Before the State Water Resources Control Board can consider requests for an Approval Of Award (AOA) to any bidder, the Recipient must certify to the following:

DISADVANTAGED BUSINESS ENTERPRISE (DBE)

The bidder has obtained _____% of DBE participation for this contract.

Also submitted are the Contractor/Subcontractor Certification and Selected Prime Contractor/Recipient DBE forms that contain a complete list of those DBE firms subcontracted with or with whom other types of agreements were made. The list includes the names of the firm, address, phone number and dollar amount involved.

The following affirmative steps have been taken:

1. The contractor divided total requirements when economically feasible, into small tasks or quantities to permit maximum participation of DBE businesses.
2. The contractor established delivery schedules, where the requirements of the work permitted, which encouraged participation by DBE businesses.
3. The contractor included qualified DBE businesses on solicitation lists.
4. The contractor assures that DBE businesses were solicited, whenever they were potential sources.
5. The contractor used the services and assistance of the Small Business Administration, the Office of Minority Business Development Agency of the U.S. Department of Commerce, Department of General Services, or the Department of Transportation.

It must be understood that the Recipient in its role as a public trustee assumes primary responsibility to achieve an acceptable level of DBE utilization. This primary responsibility is a basic condition of the award of any Clean Water State Revolving Fund financial agreement. Where a Recipient fails to meet its obligations under these requirements the Recipient may be declared non-responsive and may have funding either annulled, suspended or terminated.

In accepting these responsibilities, I hereby certify to the above.
