**Inland Empire Utilities Agency Launches @IEUAWater Twitter Channel**

**Inland Empire, California** – The Inland Empire Utilities Agency (IEUA) has launched its official Twitter channel- @IEUAWater, the newest way to keep up with the latest information and activities of IEUA. Launching a Twitter feed will complement news and information that is already posted to Facebook and the Agency's website.

Members of the community and media can now follow @IEUAWater on Twitter for information on upcoming events, outreach and educational programs, water-wise tips and facts, videos, press releases, agency news and updates, and news from IEUA's member agencies.

"Our Twitter handle provides us with another tool to educate and engage with the community to share with them helpful information about water and the Agency," stated IEUA Board President, Terry Catlin. "This is another example of the Agency's commitment to remain accessible to the public, especially in times of a drought."

Check our Twitter channel regularly for timely drought updates and conservation tips for inside and outside the home.

The Agency's website, [www.ieua.org](http://www.ieua.org), will remain its primary channel of information and communication. Selected announcements will be tweeted after they are first posted on the website.

Like us on Facebook by clicking here (<https://www.facebook.com/IEUAWater>).

Find us on Twitter [@IEUAWater](https://twitter.com/IEUAWater)

For more information on IEUA go to: <http://www.ieua.org/>

*The Inland Empire Utilities Agency covers 242-square miles, distributes imported water, provides industrial/municipal wastewater collection and treatment services, and other related utility services to more than 830,000 people through its member agencies which include Chino, Chino Hills, Cucamonga Valley Water District, Fontana, Fontana Water Company, Montclair, Monte Vista Water District, Ontario, and Upland.*
