

TAKE CONTROL OF YOUR CONTROLLER

PART 6

It's time to turn it down and shut it off.

Now that Fall is in full swing and Winter is approaching, consider the following:

- Turn your sprinklers off for a week after each full day it rains.
- Adjust your controller to a lower setting during the winter.
- Upgrade your landscape to low water use plants, sprinklers and smart controllers.

Locate your controller

- Turn it off on rainy and windy days.
- Cooler temperatures means changing to a fall schedule.

Get familiar with your controller

- Locate your manual and understand your controls.
- Visit www.bewaterwise.com to find a copy of your manual.

PART 1

Know when your soil is thirsty

- Test your soil to see if it's clay, loam, or sandy soil.
- Adjust your controller according to your soil type.

PART 3

Know how to pick and place your plants

- Choose low water use plants for your landscape.
- To help choose plants, visit: www.iegardenfriendly.com.

PART 4

Make your irrigation more efficient

- Consider replacing traditional sprinklers with efficient ones.
- To help improve water efficiency, visit: www.freesprinklernozzles.com.
