

## Regional Sewerage Program Technical Committee Meeting

### AGENDA

Thursday, October 29, 2015

4:00 p.m.

#### **Location**

Inland Empire Utilities Agency  
6075 Kimball Avenue  
Chino, CA 91708

---

***Thursday, October 29, 2015***

---

#### **Call to Order and Roll Call**

##### **1. Approval of Minutes**

- A. Minutes of September 24, 2015 Meeting

##### **2. Action Items**

- A. Recycled Water Policy Principles (Written)

##### **3. Informational Items**

- A. Annual Water Use Report (Written/PowerPoint)
- B. 10-Year Growth Forecast (PowerPoint)
- C. Mutual Aid (Oral)
- D. The Energy Network (Oral)
- E. RP-5 Expansion Preliminary Design Report Update (Oral)

##### **4. Receive and File**

- A. Building Activity Report (YTD)
- B. Recycled Water Distribution - Operations Summary
- C. Draft Regional Policy Committee Agenda
- D. 4<sup>th</sup> Quarter Budget Variance Report

##### **5. Other Business**

- A. IEUA General Manager's Update
- B. Committee Member Requested Agenda Items for Next Meeting
- C. Committee Member Comments
- D. Next Meeting – November 19, 2015

##### **6. Adjournment**

**DECLARATION OF POSTING**

---

I, Melinda J. Temblador, Administrative Coordinator of the Inland Empire Utilities Agency, A Municipal Water District, hereby certify that a copy of this agenda has been posted by 5:30 p.m. in the foyer at the Agency's main office, 6075 Kimball Avenue, Building A, Chino, CA on Monday, October 26, 2015.

A handwritten signature in black ink, appearing to read "Melinda J. Temblador", written in a cursive style.

Melinda J. Temblador

**APPROVAL OF  
MINUTES**

**1A**

## Regional Sewerage Program Technical Committee Meeting

### MINUTES OF SEPTEMBER 24, 2015 MEETING

**CALL TO ORDER**

A regular meeting of the IEUA/Regional Sewerage Program – Technical Committee was held on Thursday, September, 24 2015, at the Inland Empire Utilities Agency located at 6075 Kimball Avenue, Chino, California. Ryan Shaw, City of Ontario, called the meeting to order at 4:06 p.m.

**ATTENDANCE**

**Committee Members:**

Jesus Plasencia	City of Chino
Steve Nix	City of Chino Hills
Chuck Hays	City of Fontana
Ryan Shaw	City of Ontario
Rosemary Hoerning	City of Upland
Braden Yu	Cucamonga Valley Water District
P. Joseph Grindstaff	Inland Empire Utilities Agency

**Absent Committee Members:**

Mike Hudson	City of Montclair
-------------	-------------------

**Others Present:**

Jill Kiefer	Inland Empire Utilities Agency
Ernest Yeboah	Inland Empire Utilities Agency
Chris Berch	Inland Empire Utilities Agency
Sylvie Lee	Inland Empire Utilities Agency
Jesse Pompa	Inland Empire Utilities Agency
Andy Campbell	Inland Empire Utilities Agency
Dan Chadwick	City of Fontana
Melinda Temblador	Inland Empire Utilities Agency
Shaun Stone	Inland Empire Utilities Agency
Peter Soelter	Inland Empire Utilities Agency

an overview of the Project Budget and Schedule, including the descriptions, responsible party for funding and estimated costs. Project phases were reviewed beginning with a temporary wastewater system completion in November 2015, permanent wastewater system completion in 2017 and RW system design start also in 2017. Currently, CSI, the Speedway and IEUA have all taken agreements to their Board and have been approved; FWC and City of Fontana will be refining the terms of and finalizing their agreements within the next month.

Jesus Plasencia arrived to the meeting at 4:21 pm.

Ryan Shaw, City of Ontario, asked whether, during times of peak flows when Speedway has race days, whether IEUA will still use the Prologis facility for wastewater flows. Mr. Berch stated that it was considered, but not determined to be operationally necessary.

**B. Recycled Water Semi-Annual Update**

Andy Campbell/IEUA gave a quick overview of the regional distribution system and changes that have been made over the last fiscal year. Some construction projects have included the 930 RW reservoir in Chino Hills, which is online and doing well to help sustain deliveries in the south side of the IEUA service area. The Wineville pipeline extension is currently wrapping up and has begun delivering recycled water to the RP3 basin the past week. Additional projects in the queue are bottlenecking projects beginning the pre-design phases in 2016.

Recycled water deliveries and recharge deliveries are about 13% off from the prior year and direct deliveries were off about 8%. Regarding allocations, JCSD's allocation of 823 AF for last year is based on the existing agreement with IEUA. Mr. Berch also noted that on that agreement there was a limit of 950 AFY and with the startup of the Wineville pipeline, JCSD is more likely to hit the 950 AFY mark.

Rosemary Hoerning, City of Upland asked whether the reduction in RW recharge for last year was impacted by lower amounts of stormwater received during that period. Mr. Campbell explained that large rains were received in December which filled up many of the basins which took them off line beyond December. Joe Grindstaff, IEUA explained that the total amount of recharge was actually the same both years. Ms. Hoerning asked if those were capacity limits at the basins. Mr. Grindstaff responded yes.

**C. Energy Management Program**

Jesse Pompa/IEUA gave an overview of the Energy Management Plan. Staff wanted to benchmark its current performance, peak power independence status, optimize resources, forecast facility demands and mitigate greenhouse gas impacts. Identification of potential energy projects, tracking energy regulations and qualification of state and federal grants were also reviewed. He reviewed the energy benchmarks, peak power benchmarks, as well as GHG benchmarks, facility assessments and short-term goals. Forecasting demands were discussed in relation to short-term and long-term goals, as well current carbon neutrality of 84% and plans to become carbon neutral by 2030.

principle doesn't say you can't use it but that you should be proactive and that they don't prohibit direct use.

Mr. Plasencia believed it does prohibit direct use and that entitlement should be a priority.

Mr. Grindstaff stated that the principle inherently says that yes you can continue direct use but when you go over your entitlement you pay an extra fee which IEUA converts into water or keep as cash which goes to the member agencies which are under their entitlement. Discussion ensued as to equity in recharge entitlement and a surcharge being imposed on it. Ryan Shaw/City of Ontario agreed with Jesus Plasencia that the rate structure should be reviewed and addressed in the Regional Contract.

Sylvie Lee stated that principle #5 addresses a financially viable recycled water rate structure. Any program that would be developed would have to address a viable rate structure to recover costs. Joe Grindstaff stated that they have to keep the surcharge low enough so there is still an incentive to a member agency to connect people to the recycled water system but there has to be equity to other member agencies because they would have otherwise gotten the water in their accounts because we would have recharged it. IEUA is trying to strike a balance and look long-term for the region with the Policy Principles.

Braden Yu/CVWD stated that everyone has to concede a little bit and that CVWD is in support of proposal A, but is not in support of a postage stamp rate. Rosemary Hoerning/City of Upland and Chuck Hays/City of Fontana are also in support of proposal A. Jesus Plasencia/City of Chino is not in support of the policy principles/alternatives. Ryan Shaw/City of Ontario is in support of proposal B with several minor changes to 3.1.4.

Chris Berch suggested that the Technical Committee meet on Tuesday, October 13 (prior to its next regularly scheduled meeting of October 29) to give a last review the revised draft policy principles. IEUA is looking for recommendations that he would hope to be unanimous to take to the Policy Committee meeting for action on November 4. The Committee agreed to meet again on the topic to finalize the principles.

#### **4. RECEIVE AND FILE ITEMS**

##### **A. Building Activity Report (YTD)**

The Building Activity Report (YTD) was received and filed by the Committee.

##### **B. Recycled Water Distribution - Operations Summary**

The Recycled Water Distribution - Operations Summary was received and filed by the Committee.

##### **C. Long Range Plan - Finance**

The Long Range Plan - Finance was received and filed by the Committee.

**ACTION  
ITEM  
2A**

---

Date: October 29, 2015  
To: Regional Technical Committee  
From: Inland Empire Utilities Agency   
Subject: Recycled Water Policy Principles

---

### **RECOMMENDATION**

It is requested that the Regional Technical Committee provide comments and recommendations on the Recycled Water Policy Principles for IEUA Board consideration and approval.

### **BACKGROUND**

The Inland Empire Utilities Agency (IEUA) and its contracting agencies have developed a successful regional Recycled Water Program for both direct use and groundwater recharge. In 2000, the region identified that recycled water use was a critical component in drought-proofing and maintaining its economic growth. With imported water rates increasing and long-term imported supply reliability in decline, the region committed to aggressively and proactively develop local water supplies to offset these impacts. This set the path for the development of a regional recycled water distribution system.

While the foundational commitment to beneficial reuse of recycled water has remained unchanged, some fundamental concepts have been questioned over the past few years. This has resulted in the region working together to develop Recycled Water Policy Principles to address the changes since the inception of the program. The region's goal to maximize the beneficial use of recycled water has not changed. However, the commitment to connect additional recycled water users has stagnated over the past few years. At this time, several contracting agencies are struggling with the inherent conflict between use in excess of "base entitlement" (as defined by the Regional Sewage Service Contract) and the prioritization of direct use over groundwater recharge. The struggle has led some contracting agencies to be concerned about their local benefit and perceived inequities.

In order to move forward together as a region, it is appropriate to reevaluate and affirm the regional Recycled Water (RW) Policy Principles prior to implementing any remaining significant system improvements to the Recycled Water Program and to clarify how these principles will govern the future benefits received by all IEUA contracting agencies.

IEUA has been meeting with the contracting agencies for the last few years to develop modifications to the foundational principles. Subsequent to the Regional Technical Committee Meeting in September, the agencies collectively met at a workshop on October 13, 2015 to finalize recommendations on the RW Policy Principles.

The proposed RW Policy Principles resulting from these discussions are summarized below and provided in the attachment in detail.

### **Recycled Water Policy Principles**

- 1. Maximize the beneficial use of recycled water to enhance local water resource availability and reduce reliance on imported water.**
  1. IEUA will continue the development of the Regional Recycled Water infrastructure by providing equitable access for the contracting agencies to achieve reuse of 50,000 AF/year by 2025.
  2. IEUA will pursue the long term acquisition of recycled water from out of service area sources to supplement the regional supply.
- 2. Promote efficient application and use of recycled water as a reliable and fundamental component of drought-proofing the IEUA service area.**
  1. Ensure efficient use of recycled water at the point of use, consistent with rules and expectations of responsible potable water use.
- 3. The regional recycled water allocation rights will be based on the following:**
  1. Regional discharge obligations (Santa Ana Judgment, environmental obligations, etc.), will be met first from available RW supply
  2. Contracting agency pro-rata entitlement based on available recycled water supply from 3.1. above
  3. Contracting agency use above entitlement requires the acquisition of replacement water
- 4. The regional recycled water system will be operated based on the following priorities for recycled water deliveries:**
  1. Minimal operational discharges (instrumentation, environmental obligations, etc.)
  2. Contracting agency deliveries
  3. Regional groundwater recharge
- 5. Meet peak recycled water direct demands through coordinated demand management of recycled water deliveries.**
  1. Large users will have pressure sustaining valves to ensure that overall regional demands are reliably met.

- 6. Maintain a financially viable recycled water program with rates that incentivize use of all available recycled water and that provides funding to achieve full cost-of-service for the recycled water program.**
  1. Set recycled water rates that cover the full cost of Operations & Maintenance (O&M) and Rehabilitation & Replacement (R&R) for the system.
  
- 7. Maximize the use of recycled water capital investments made by IEUA and its contracting agencies with recycled water use within the region.**
  1. Retail contracting agencies shall substantially fulfill prior recycled water connection commitments for all existing infrastructure.
  2. Firm contracting agency commitments for recycled water use will drive new regional investments.

**ATTACHMENTS: RW Policy Principles**

## RECYCLED WATER POLICY PRINCIPLES

---

### Introduction

The Inland Empire Utilities Agency (IEUA) and its contracting agencies have developed a successful regional Recycled Water Program for both direct use and groundwater recharge. As the Program continues to advance, it is important to summarize the history, operating philosophies, and policy principles on which the Program was founded.

In 2000, the region identified that recycled water use was a critical component in drought-proofing and maintaining its economic growth. With imported water rates increasing and long-term imported supply reliability in decline, the region committed to aggressively and proactively develop local water supplies to offset these impacts. This set the path for the development of a regional recycled water distribution system and a Recycled Water Implementation Plan.

The use of recycled water presented several advantages to the region: it is one of the most significant and underutilized sources of local water supply; it is reliable during drought and climate change conditions; and it requires significantly less energy than imported water to deliver to customers thus reduces greenhouse gas emissions. The development of recycled water is the cornerstone of a larger regional initiative to improve water supply reliability through enhanced local supplies. IEUA, in partnership with its contracting agencies and Chino Basin Watermaster (CBWM), invested over \$600 million over the last fifteen years in water recycling, conservation, recharge improvements, the MWD groundwater storage and recovery project, the Chino Desalter, and other water management programs. These programs collectively reduce the region's need for imported water especially during drought or conditions when imported water supplies are not available. In addition to the region switching large potable water users to recycled water, IEUA and CBWM obtained a landmark permit in 2005 for groundwater recharge using IEUA's high-quality recycled water.

By 2007, Southern California was experiencing one of its driest years with the potential for entering an extended drought period. The State of California subsequently made water recycling an important element of California's water supply policy and adopted a statewide goal of achieving 1,000,000 acre-feet (AF) of reuse by 2010. In response, in November 2007 IEUA and its contracting agencies unanimously adopted and committed to implement the Three Year Recycled Water Business Plan which laid out a focused and cost-effective approach to rapidly expand the availability and use of recycled water within IEUA's service area.

By 2014, over \$250 million has been invested into the implementation of a robust Recycled Water Program. The region has achieved Program success by leveraging heavily on grant funding and loans. With unanimous regional support, annual recycled water use grew from approximately 5,000 AF in FY 04/05 to over 38,500 AF in FY 13/14. Critical to the economical and efficient operation of the system, each contracting agency made commitments to complete initiatives with the goal to increase direct reuse within their service areas. While some contracting agencies accomplished or far exceeded their local goals, some contracting agencies have not been able to fully achieve their original commitments.

The region's goal to maximize the beneficial use of recycled water has not changed. However, the commitment to connect additional recycled water users has stagnated over the past few years. At this time, several contracting agencies are struggling with the inherent conflict between use in excess of "base entitlement" (as defined by the Regional Sewage Service Contract) and the prioritization of direct use over groundwater recharge. The struggle has led some contracting agencies to be concerned about their local benefit and perceived inequities.

In order to move forward together as a region, it is appropriate that we reevaluate and affirm the regional Recycled Water Policy Principles prior to implementing any remaining significant system improvements to the Recycled Water Program and to clarify how these principles will govern the future benefits received by all IEUA contracting agencies.

### **Draft Recycled Water Policy Principles**

1. **Maximize the beneficial use of recycled water to enhance local water resource availability and reduce reliance on imported water.**
  1. IEUA will continue the development of the Regional Recycled Water infrastructure by providing equitable access for the contracting agencies to achieve reuse of 50,000 AF/year by 2025.
  2. IEUA will pursue the long term acquisition of recycled water from out of service area sources to supplement the regional supply.
  3. IEUA will pursue the long term transfer of recycled water from IEUA service area in exchange for supplemental water supply.
2. **Promote efficient application and use of recycled water as a reliable and fundamental component of drought-proofing the IEUA service area.**
  1. Ensure efficient use of recycled water at the point of use, consistent with rules and expectations of responsible potable water use.
3. **The regional recycled water allocation rights will be based on the following:**
  1. Regional discharge obligations (Santa Ana Judgment, environmental obligations, etc.), will be met first from available RW supply
  2. Contracting agency pro-rata entitlement based on available recycled water supply from 3.1 above
  3. Contracting agency use above entitlement requires the acquisition of replacement water.
4. **The regional recycled water system will be operated based on the following priorities for recycled water deliveries:**
  1. Minimal operational discharges (instrumentation, environmental obligations, etc.)
  2. Contracting agency deliveries
  3. Regional groundwater recharge

5. **Meet peak recycled water direct demands through coordinated demand management of recycled water deliveries.**
  1. Large users will have pressure sustaining valves to ensure that overall regional demands are reliably met.
6. **Maintain a financially viable recycled water program with rates that incentivize use of all available recycled water and that provides funding to achieve full cost-of-service for the recycled water program.**
  1. Set recycled water rates that cover the full cost of Operations & Maintenance (O&M) and Rehabilitation & Replacement (R&R) for the system.
7. **Maximize the use of recycled water capital investments made by IEUA and its contracting agencies with recycled water use within the region.**
  1. Retail contracting agencies shall substantially fulfill prior recycled water connection commitments for all existing infrastructure.
  2. Firm contracting agency commitments for recycled water use will drive new regional investments.

General Manager

Chris Berch  
Executive Manager of Engineering/Assistant General Manager

**Submitted by:** Sylvie Lee  
Manager of Planning & Environmental Compliance

**Subject:** Annual Water Use Report for Fiscal Year 2014/15

---

### **RECOMMENDATION**

This is an informational item for the Board of Directors to receive and file.

### **BACKGROUND**

Inland Empire Utilities Agency (IEUA) staff monitors and compiles water use data from each of its retail agencies in the IEUA's service area to track overall water demands and sources of supply. Each year, this data is compiled into an Annual Water Use Report. Data includes monthly water use (by each member agency and by source of supply), a five-year history of water use, and retail agency water usage as a percentage of the total water used in the service area.

In FY 2014/15, Southern California experienced its third year of drought, with over half of the state experiencing "exceptional drought" conditions. Due to the prolonged drought featuring record high temperatures and low rainfall, Governor Brown declared a drought State of Emergency in January 2015 and directed state officials to take all necessary actions to prepare for water shortages.

In May 2015, this was followed by the State Water Board adopting emergency regulations requiring an immediate 25% reduction in residential potable use which went into effect on April 1. The regulation used a sliding scale based on gallons per capita per day and requires monthly reporting from retail agencies to compare monthly usage to 2013 data. Since FY 2013/14 the service area has reduced residential potable water use by 10% (excludes CDA and RW). Per the executive order the Department of Water Resources (DWR) also convened an independent technical panel to review and update the statewide Model Water Efficient Landscape Ordinance (MWELO) with the goal of reducing water used for outdoor irrigation for existing and new construction.

Overall water consumption within the IEUA's service area decreased 11% (~24,217 AF) since FY 2013/14. Chino Desalter Authority (CDA) production decreased slightly by ~250 AF and direct use recycled water decreased by ~1,700 AF.

IEUA anticipates a trend of declining usage as a response to the 'drought in California. Although development is anticipated to continue and growth may rebound at the end of the drought, long-term demands are not expected to greatly increase. This analysis came from demand modeling conducted as part of IEUA's 2015 Integrated Resources Plan (IRP) which found that new developments in the region tends to be more water efficient due to changes in the plumbing code, higher density developments with less landscaping, and compliance with the existing model landscape ordinance requirements set forth in AB1881. In addition, aggressive efforts are being made to diversify and maximize local resource development, expand water use efficiency programs, and assist interested member agencies with the development of budget based rate structures. These efforts have better prepared the service area to cope with future dry years and increase regional resiliency in the face of climate change.

Below is a summary and update on the region's major water supply efforts and programs:

- IEUA and its member agencies have continued work on IRP to adopt an overall strategy for developing water supplies and meeting projected demands within the IEUA service area in a cost-effective manner. The plan developed an updated demand model based on new regional development trends of high density, efficient indoor devices, and low outdoor water use plants per state legislation. IRP completion is anticipated for winter 2015.
- The 2015 Water Use Efficiency Business Plan is under development, which will be completed by winter 2015.
- IEUA completed the 2015 Recycled Water Program Strategy, which will further implement the Recycled Water Business Plan to expand its connected demand and maximize recycled water deliveries for both direct use and groundwater recharge. In FY 2014/15 member agency direct recycled water use was 20,515 AF.
- IEUA and its member agencies are continuing to work towards completing the Phase III expansion of the Chino Desalters, which will increase capacity from 24,600 AFY to 40,000 AFY. In FY 2014/15, the Chino Desalters production yielded approximately 14,500 AF.
- IEUA and its member agencies continue to implement the water use efficiency programs outlined in the long term Regional Water Use Efficiency Business Plan completed in September 2010. This document serves as the blueprint for the Agency's existing regional programs while providing the guidance for developing new cost-effective initiatives. The plan is also being updated as part of the IRP process. Future conservation targets are anticipated to be much more aggressive as

a result of the IRP. In FY 2014/15, the regional water use efficiency programs doubled savings from FY 2013/14 reaching a record high of approximately 1,033 AF, and an estimated lifetime savings of 8,852 AF.

Development of the Annual Water Report is consistent with the IEUA business goal of *Water Reliability*, namely tracking of water usage to support planning for the development of new water supplies, recycled water and groundwater recharge.

**PRIOR BOARD ACTION**

None.

**IMPACT ON BUDGET**

None.

## Preface

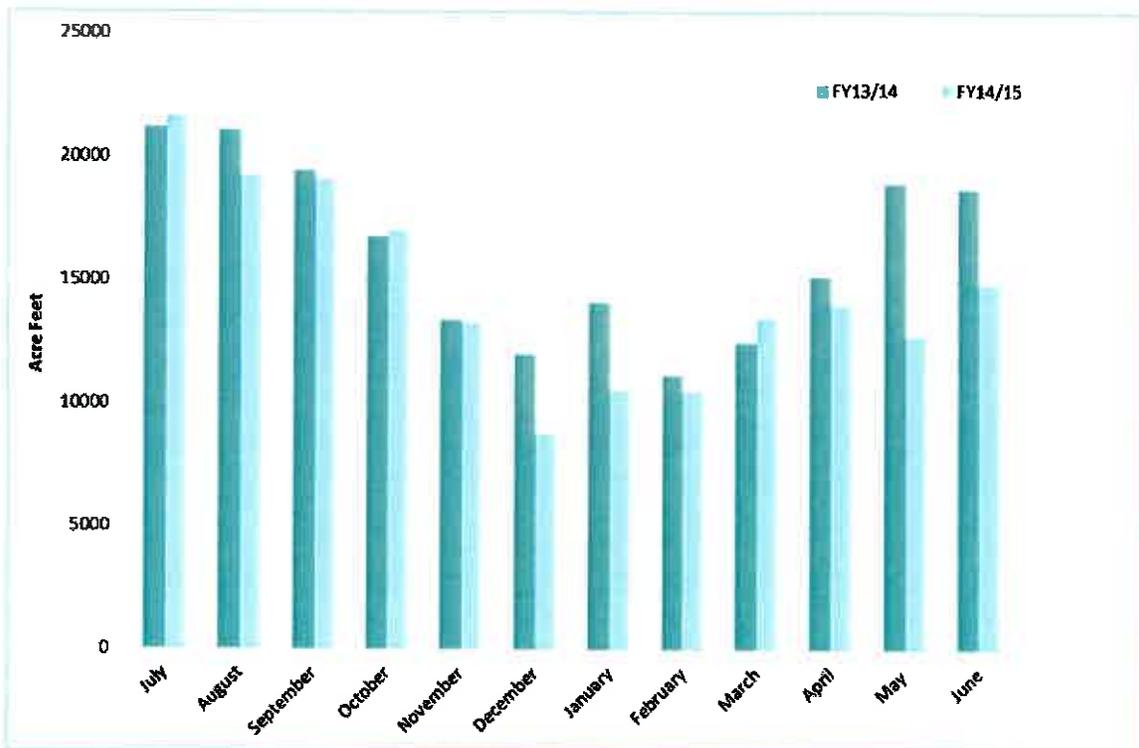

### FY 2014-15 Water Use Summary Report

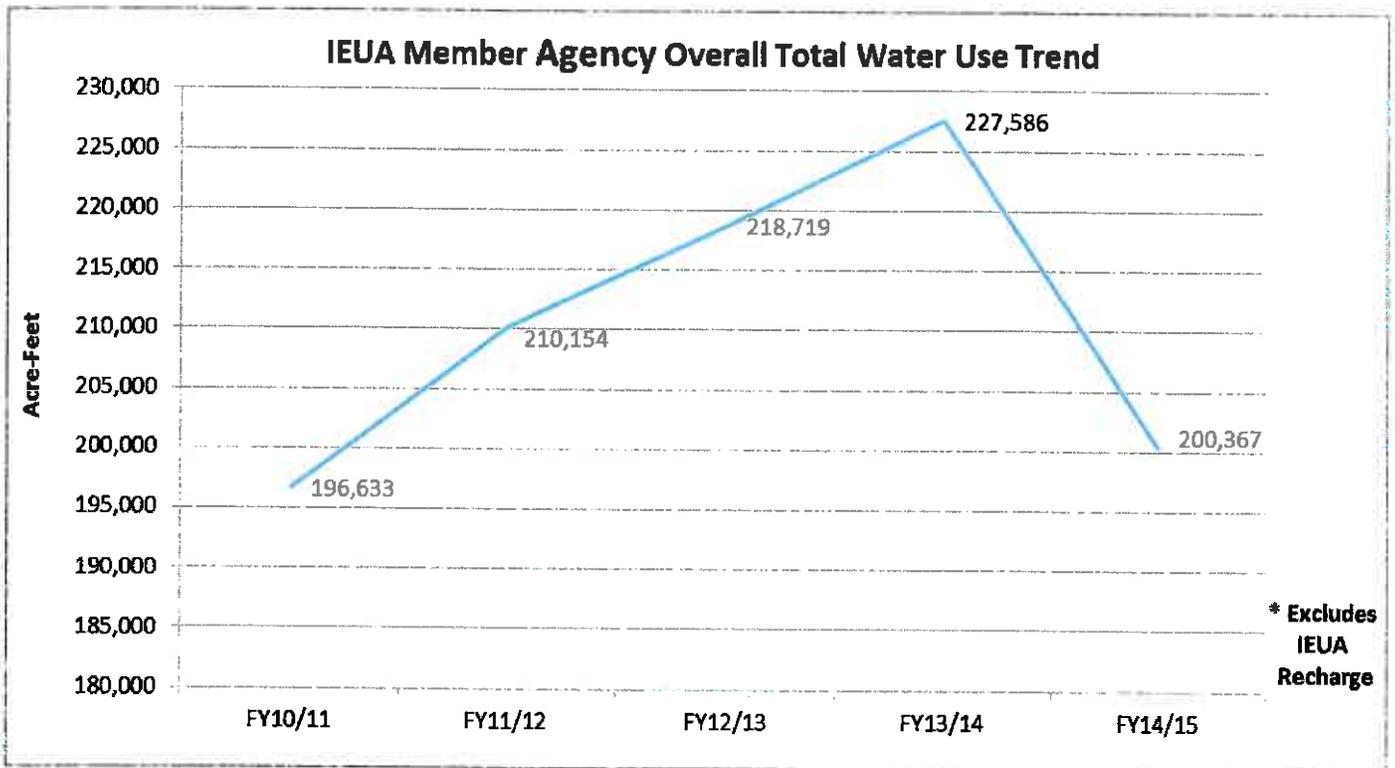

Inland Empire Utilities Agency (IEUA) staff monitors and compiles water use data from each of its retail agencies in the IEUA's service area to track overall water demands and sources of supply. Each year, this data is compiled into an Annual Water Use Report. Data includes monthly water use (by each member agency and by source of supply), a five-year history of water use, and retail agency water usage as a percentage of the total water used in the service area.

In FY 2014/15, Southern California experienced its third year of drought, with over half of the state experiencing "exceptional drought" conditions. Due to the prolonged drought featuring record high - temperatures and low rainfall, Governor Brown declared a drought State of Emergency in January 2015 and directed state officials to take all necessary actions to prepare for water shortages.

In May 2015, this was followed by the State Water Board adopting emergency regulation requiring an immediate 25% reduction in overall potable use which went into effect on April 1. The regulation used a sliding scale based on residential gallons per capita per day and requires monthly reporting from retail agencies to compare monthly usage to 2013 data. Since FY 2013/14, the service area has reduced residential potable water use by 10% (excludes CDA and RW). Per the executive order the Department of Water Resources (DWR) also convened an independent technical panel to review and update the statewide Model Water Efficient Landscape Ordinance (MWELo) with the goal of reducing water used for outdoor irrigation for existing and new construction.

Regional Monthly Total Water Usage FY 14/15 Comparison to FY13/14

Overall water consumption within the IEUA’s service area decreased 11% (~24,217AF) since FY 2013/14. Chino Desalter Authority (CDA) production decreased slightly by ~250 AF and direct use recycled water decreased by ~1,700 AF.

IEUA anticipates a trend of declining usage as a response to the drought in California. Although development is anticipated to continue and growth may rebound at the end of the drought, long-term demands are not expected to greatly increase. This analysis came from demand modeling conducted as part of IEUA’s 2015 Integrated Resources Plan (IRP) which found that new developments in the region tends to be more water efficient due to changes in the plumbing code, higher density developments with less landscaping, and compliance with the existing model landscape ordinance requirements set forth in AB1881.

In addition, aggressive efforts are being made to diversify and maximize local resource development, expand water use efficiency programs, and assist interested member agencies with the development of budget based rate structures. These efforts have better prepared the service area to cope with future dry years and increase regional resiliency in the face of climate change.

Below is a summary and update on the region’s major water supply efforts and programs:

- IEUA and its member agencies have continued work on IRP to adopt an overall strategy for developing water supplies and meeting projected demands within the IEUA service area in a cost-effective manner. The plan developed an updated demand model based on new regional development trends of high density, efficient indoor devices, and low outdoor water use plants per state legislation. IRP completion is anticipated for winter 2015.

- IEUA completed the 2015 Recycled Water Program Strategy, which will further implement the Recycled Water Business Plan to expand its connected demand and maximize recycled water deliveries for both direct use and groundwater recharge. In FY 2014/15 member agency direct recycled water use was 20,515 AF.
- IEUA and its member agencies are continuing to work towards completing the Phase III expansion of the Chino Desalters, which will increase capacity from 24,600 AFY to 40,000 AFY. In FY 2014/15, the Chino Desalters production yielded approximately 14,500 AF.
- IEUA and its member agencies continue to implement the water use efficiency programs outlined in the long term Regional Water Use Efficiency Business Plan completed in September 2010. This document serves as the blueprint for the Agency's existing regional programs while providing the guidance for developing new cost-effective initiatives. The plan is also being updated as part of the IRP process. Future conservation targets are anticipated to be much more aggressive as a result of the IRP. In FY 2014/15, the regional water use efficiency programs doubled savings from FY13/14 reaching a record high of approximately 1,033 AF, and an estimated lifetime savings of 8,852 AF.
- The 2015 Water Use Efficiency Business Plan is under development, which will be completed by winter 2015.

*IEUA would like to thank its member agencies for their assistance in compiling the data contained in this report.*

## **APPENDIX B**

### **Definitions**

**Chino Basin Groundwater** – Water pumped from the Chino Basin Aquifer and treated by retail water agencies for all potable uses within the IEUA service area.

**Desalter Water** – Water pumped from Chino Basin Desalter I owned and operated by the Chino Basin Desalter Authority (CDA). Groundwater, with high levels of dissolved solids, is treated and distributed to several retail agencies within the IEUA’s service area for potable uses.

**Imported Water (MWD)** – Water from Northern California and supplied by the Metropolitan Water District of Southern California (MWD), and water transferred from other groundwater basins to retail water agencies operating within the IEUA service area. All Tier I and Tier II deliveries are included in this category.

**Other Groundwater** – Water produced from other local groundwater basins to retail water agencies operating within IEUA’s service area.

**Surface Water** – Water collected by retail water agencies from mountain runoff and storm flows, which is collected and treated for potable use.

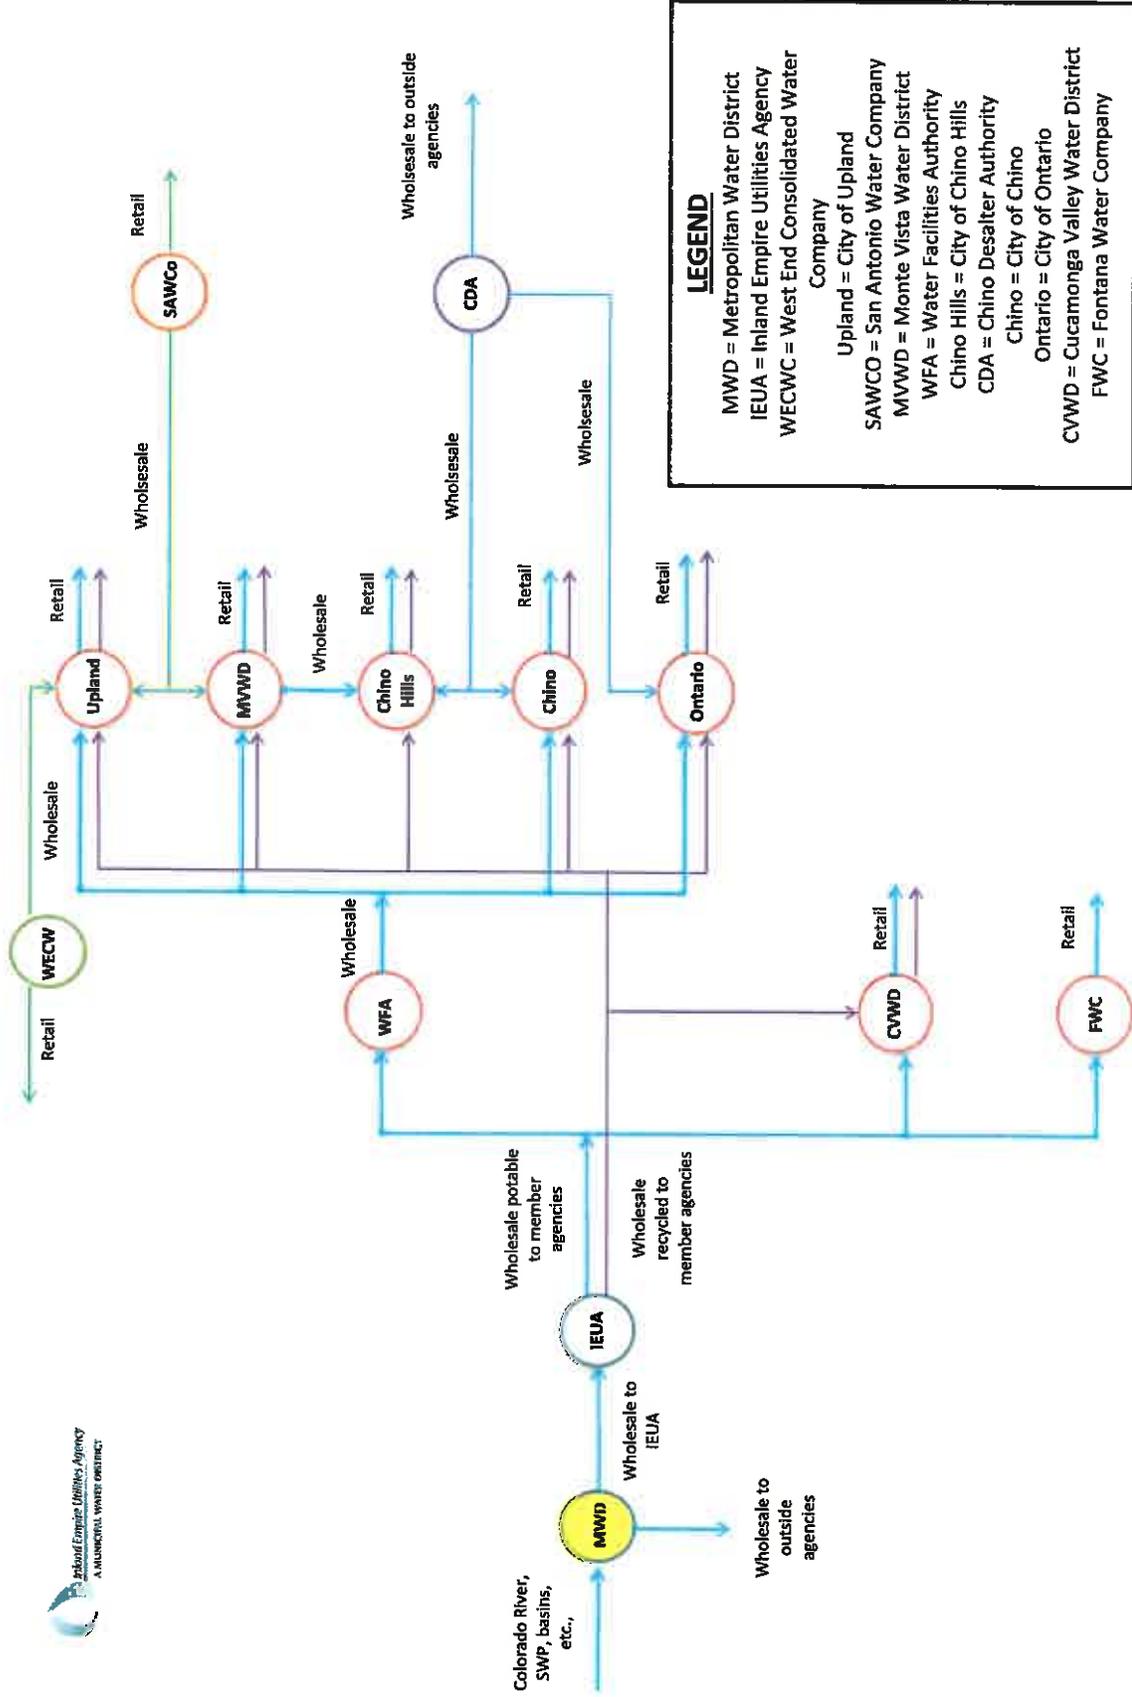

**Recycled Water** – Title 22 recycled water produced by the IEUA at its water recycling plants for distribution through separate pipelines to retail water agency customers for all non-potable uses.

**WECWC**– West End Consolidated Water Company supplies some water to the City of Upland.

**WVWD** – West Valley Water District

---

**RECOMMENDATION**

This is an information item for the Regional Committees to review.

**BACKGROUND**

The item was presented as an informational item at the IEUA Board of Directors meeting on October 14, 2015.

# FY14/15 Building Activity Summary Ten-Year Growth Survey

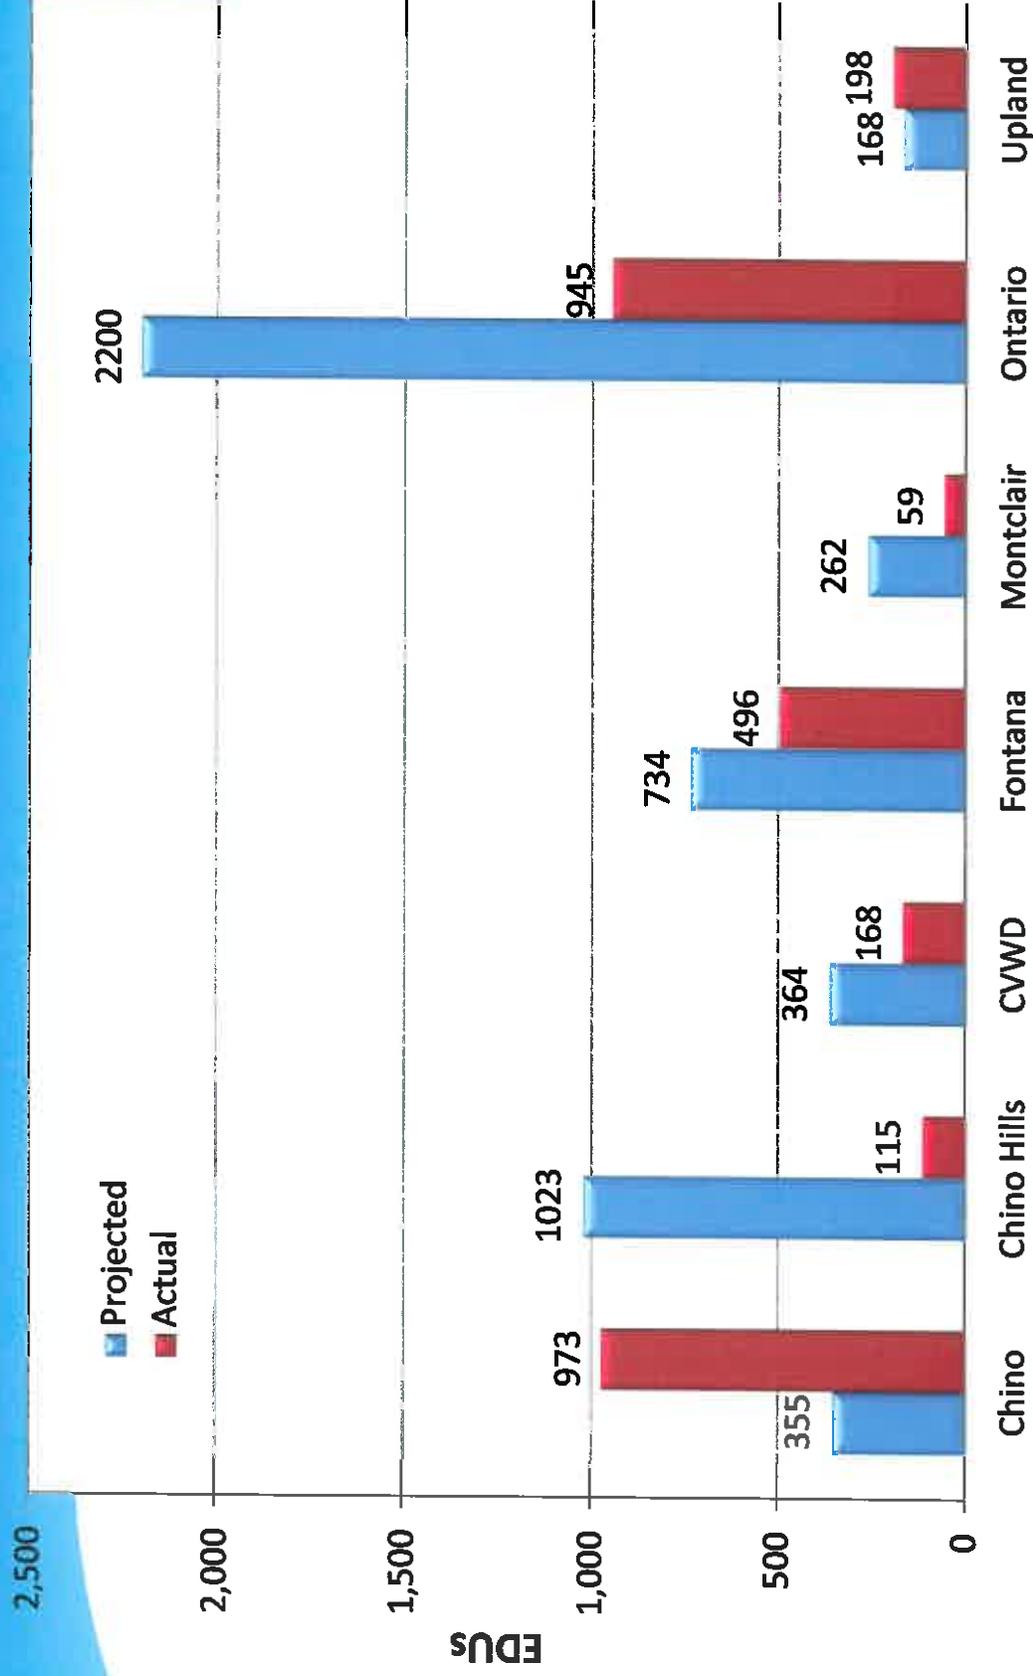

October 2015

## Summary: FY14/15 Building Activity

- IEUA Member Agency Forecast = 5,106 EDUs
- IEUA Budgeted Forecast = 3,000 EDUs
- Fiscal Year Building Activity = 2,953 EDUs
- Fiscal Year Building Activity at 58% of IEUA's

Member Agency Forecasts

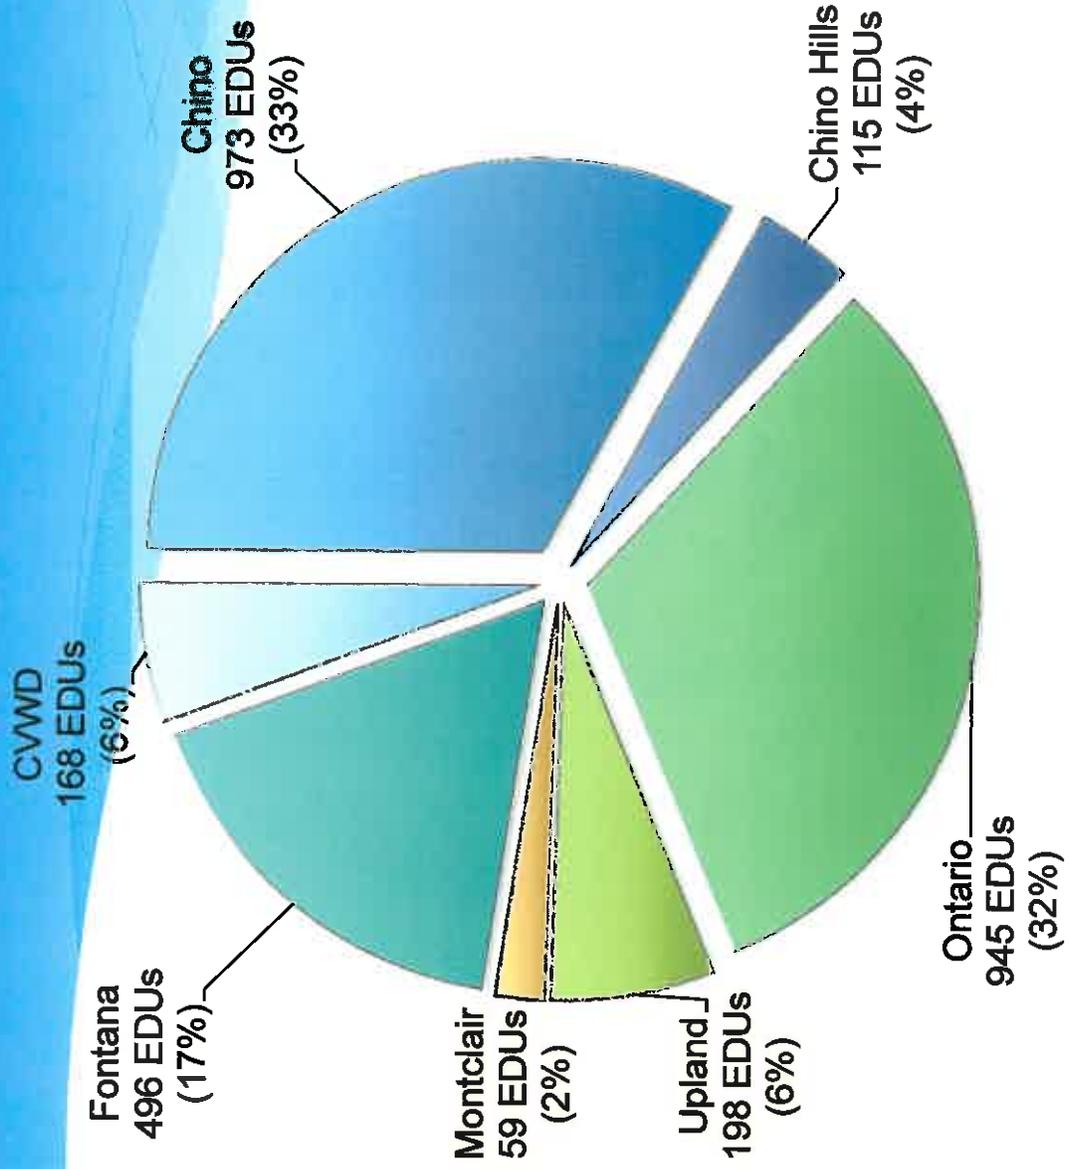

# FY14/15 Distribution of Growth

Partial EDU rounded to the nearest whole number

# FY14/15 Building Activity

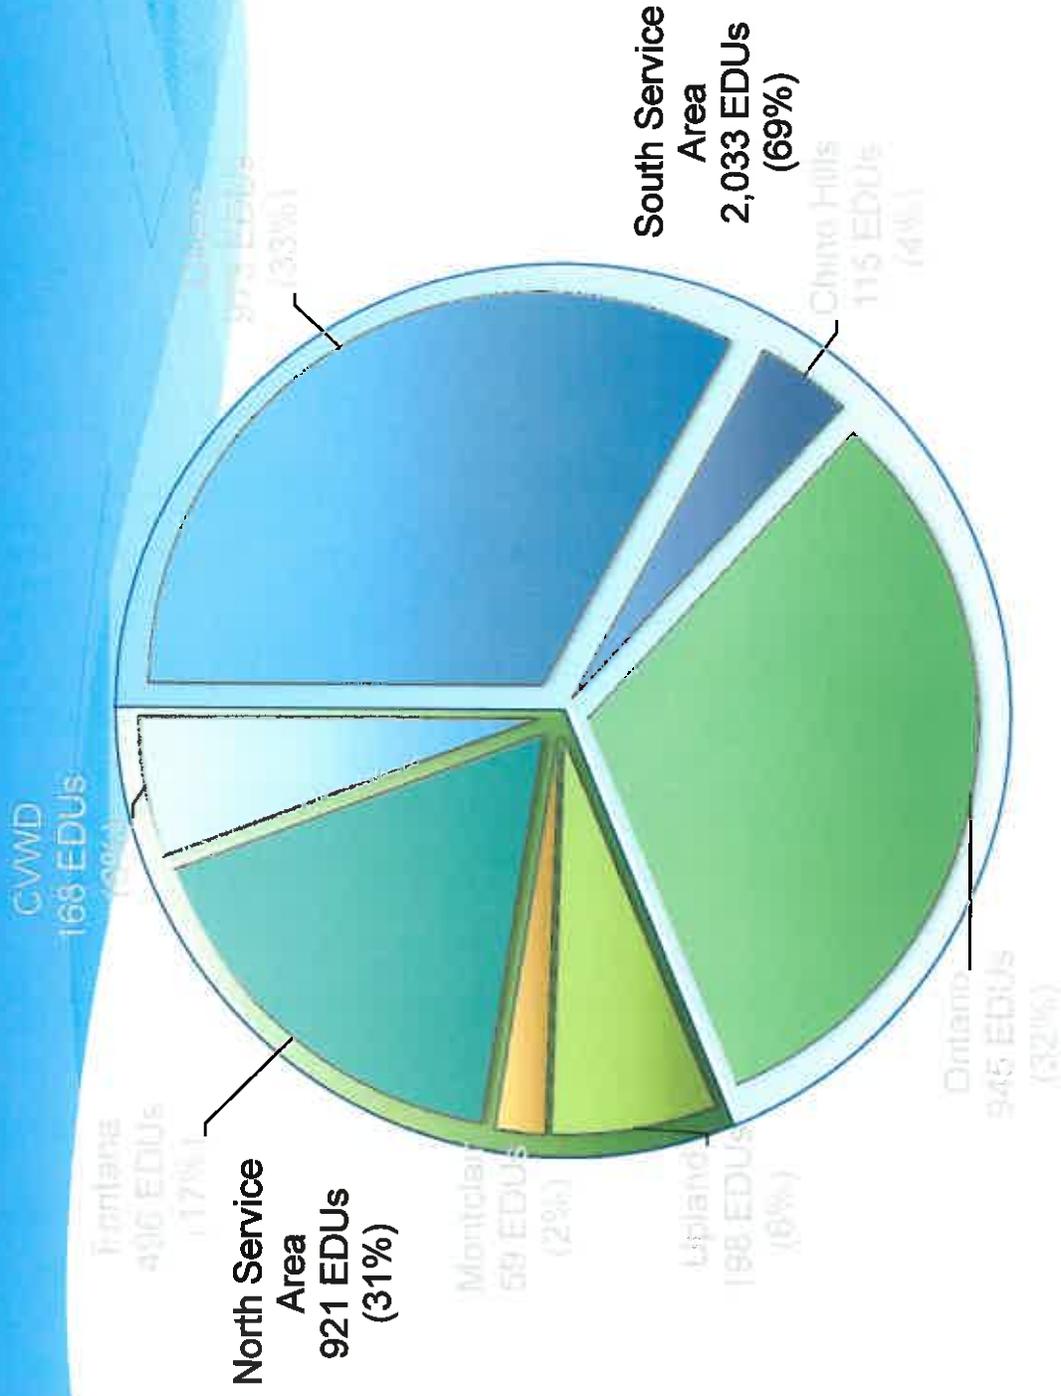

2,953 EDUs Resulted in \$15.08M in CCRA Funding

*Inland Empire Utilities Agency*  
A MUNICIPAL WATER DISTRICT

---

Date: October 29, 2015/November 4, 2015  
To: Regional Committees  
From: Inland Empire Utilities Agency   
Subject: Fourth Quarter Budget Variance Report

---

**RECOMMENDATION**

This is an information item for the Regional Committees to review.

**BACKGROUND**

The item was presented as an informational item at the IEUA Board of Directors meeting on October 14, 2015.

Date: October 14, 2015 (Special Board Meeting)

To: The Honorable Board of Directors

From: P. Joseph Grindstaff  
General Manager

Submitted by: Christina Valencia  
Chief Financial Officer/Assistant General Manager

Javier Chagoyen-Lazaro  
Manager of Finance and Accounting

Subject: FY 2014/15 Fourth Quarter Budget Variance, Performance Goals Updates,  
and Budget Transfer

---

### **RECOMMENDATION**

This is an informational item for the Board of Directors to receive and file.

### **BACKGROUND**

The Budget Variance report presents the Agency's financial performance through fourth quarter ending June 30, 2015. Exhibit A provides a comparison of actual revenues and expenses against the FY 2014/15 amended budget including a discussion of major categories with the most significant variances. Exhibit B provides a progress status of Division and Department Goals and Objectives as established in FY 2014/15 adopted budget. Exhibit C-1 presents a summary of Operations and Maintenance (O&M) budget transfers approved by management for the fourth quarter, Exhibit C-2 presents a summary of the GM contingency account activity, and Exhibit D lists Board approved budget amendments and management approved budget transfers for capital and O&M projects. Attachment A provides the FY 2014/15 financial overview of each of the Agency's programs.

### **TOTAL REVENUES AND OTHER FUNDING SOURCES**

Overall, the Agency received total revenues and other funding sources at the end of the FY 2014/15 were \$199.8 million, or 101.2% of the amended budget (Exhibit A detail). The major change in the amended budget of \$197.4 million compared to the adopted budget of \$153.4 million was the inclusion of \$34.1 million pass-through MWD imported water sales and corresponding purchases recorded in the Water Resources (WW) Fund.

The following section highlights key variances:

- **User Charges** – User charges were \$62.9 million or 101.8% of amended budget. This category includes \$46.7 million from EDU volumetric, \$10.1 million for non-reclaimable wastewater fees, \$4.9 million for water meter service charges, and \$0.8 million for imported potable water surcharge. EDU volumetric fees were slightly over budget due to higher volume reported by the city of Fontana and Cucamonga Valley Water District, 3.1% and 6.2% respectively.
- **Connection Fees** – Member agencies reported a total of 2,953 Equivalent Dwelling Units (EDU) new connections, approximately 98.4% of the budgeted 3,000 EDUs which is equivalent to \$15.1 million of the budgeted \$15.3 million.
- **Recycled Water Sales** – Recycled water sales at the end of the fiscal year were \$10.0 million, or 104.9% of amended budget. Direct delivery was 22,580 acre feet (AF), \$6.3 million, and groundwater recharge was 10,840 AF, \$3.7 million. Total year to date deliveries of 34,419 AF compared favorably to the 32,000 AF budgeted for the fiscal year.
- **MWD Imported Water Sales** – Total MWD pass-through imported water revenue were \$34.1 million for 58,905 AF compared to amended budget of 65,000 AF. The addition of MWD imported pass-through water sales and purchases accounts for the major change in the amended budget for this category.
- **MWD LPP Rebate** – Direct recycled water sales in excess of 3,500 AF and up to 17,000 AF are eligible for the Metropolitan Water District (MWD) Local Project Program (LPP) at a rate of \$154/AF, for a maximum amount of \$2.1 million per fiscal year. By the end of the fourth quarter, the total maximum allowable rebate of \$2.1 million was achieved for 17,000 AF of credit or 100.0% of total budget.
- **Property Taxes** – Tax receipts at the end of the fiscal year were \$40.9 million or 101.8% of the amended budget. General ad-valorem property taxes received from the San Bernardino County Tax Assessor (County) were \$28.9 million and “pass through” incremental tax receipts were \$12 million. Actual property tax growth for FY 2014/15 was 5% compared to the budgeted 3%.
- **Grants & Loans** – Total amount invoiced for grants and loans was \$26.0 million or 115.4% of the amended budget comprised of; \$2.3 million in grants and \$20.2 million in SRF loan proceeds for the Southern and Central/Wineville Area projects. The surplus in SRF loan receipts are related to the change orders for the Southern Area projects resulting in additional costs.

- **Cost Reimbursements** – Total cost reimbursements were \$5.8 million or 99.1% of the amended budget. Reimbursements include \$3.4 million from the Inland Empire Regional Composting Authority (IERCA), \$1.2 million from Chino Basin Desalter Authority (CDA), and \$1.2 million from Chino Basin Watermaster (CBWM).
- **Other Revenues** – Total other revenues were \$2.4 million or 48% of the amended budget. Other revenues include \$1.2 million for the recovery of the deferred 4R capital charges from Non-Reclaimable Wastewater (NC) fund, \$0.7 million from lease revenue for the RP-5 Solids Handling Facility, \$0.3 million in project reimbursements. Delays in the reimbursable projects from Recycled Water and Water Resources Programs accounted for the lower revenue.

### TOTAL EXPENSES AND USES OF FUNDS

The Agency's total expenses through the end of FY 2014/15 were \$210.8 million, or 88.9% of the amended budget.

The increase of \$74.8 million between the adopted budget of \$162.3 million and the amended budget of \$237.1 million is accounted by the inclusion of \$34.1 million of MWD imported water purchases, \$16.8 million of encumbrances carried forward from FY 2013/14 (*net of \$2.5 million returned to FY 2013/14*), and \$22.5 million in budget amendments for various projects: \$15.0 million for Wineville Extension Recycled Water Pipeline Segments A & B; \$4.0 million for 930 Zone Recycled Water Pipeline Project; and \$3.2 million for RP-1 Outfall Relocation.

Key highlights of expenses are:

- **Employment Expenses** – Employment expenses through the end of the fiscal year were \$40.3 million or 91.0% of amended budget. The favorable variance was due to a higher than anticipated vacancy factor. A total of 17 positions were vacant and an additional 15 were on hold at the end of the quarter, equivalent to a 12.0% vacancy factor which exceeds the Agency's budgeted rate of 5.0%.
- **Professional Fees & Services** – This category expenses were \$7.0 million, or 87.1% of the amended budget. The positive variance is attributed to the timing of services, planned work or services were not being performed, or work started in this fiscal year and is expected to be completed in the following fiscal year. For example, maintenance and housekeeping tasks such as rebuilding of primary effluent pumps, submersible pumps, air conditioning duct cleaning were not executed at RP-2, RP-5, and Carbon Canyon, and HQ-A restroom hardware upgrades. As a result, \$1.1 million of the amended budget was carried forward to the next fiscal year.
- **Chemicals** – Total chemical expenses were \$4.2 million or 91.9% of amended budget. Favorable variance was due to effective process optimization, suspension of chemical use

during primary clarifier maintenance and decreased plant influent flow enabled operations and maintenance to maintain lower expenditures while maintaining permit compliance parameter, solids capture, and recycled water quality at reduced costs.

- **Operating Fees** – Operating expenses at the end of the fiscal year were \$12.5 million or 93.7% of the amended budget. The favorable variance can be attributed to lower strength and imbalance charges (pass through) in the Non-Reclaimable Waste (NRW) system and lower than budgeted waste permit reviews.
- **Utilities** – This category expenses were \$9.1 million or 90.7% of the amended budget.
  - Electricity cost was slightly higher due to additional imported kWh to compensate for the low fuel cell production at RP-1, and higher actual average rate of \$0.125/kWh compared to the budgeted rate of \$0.120/kWh.
  - Natural gas was favorable due to lower gas rate averaging \$0.41/therm compared to the budgeted rate of \$0.80/therm.
  - Power generated from solar panels was lower in FY 2014/15 compared to FY 2013/14, which was served as the baseline for the FY 2014/15 budget. Electricity generated from the solar power is directly related to the amount of sunlight experienced this year.
- **MWD Imported Water Purchases** – Total MWD pass-through imported water purchases were \$34.1 million for 58,905 AF compared to the amended budget of 65,000 AF. The inclusion of MWD imported water purchases accounts for one of the major changes in the overall amended budget.
- **Special and Reimbursable Projects** – O&M project expenditures were \$4.2 million or 39.6% of the amended budget. The favorable variance is due to the delay of water resources related projects. As a result, \$5.8 million of the FY 2014/15 amended budget has been carried forward to FY 2015/16.
- **Capital Projects**–Total capital project expenditures were \$54.8 million or 84.4% of the amended budget inclusive of \$8.3 million carried forward from the prior fiscal year. Recycled water projects accounted for approximately 65% of total capital project costs through the end of the fiscal year, and 10% was related to Regional Wastewater projects.
- **Debt Service** – Total principal, interest and financial expenses were \$36.1 million or 97.7% of the amended budget. This amount includes: \$14.7 million payment for the early redemption of the 2005A Revenue Bonds in November 2014. The 2008B Variable Rate Demands Bonds interest rate continues to stay below the budgeted 1% rate, with the actual rate averaging 0.049% for the fiscal year.

More detailed explanations of significant revenue and expenses are included in the attached Exhibit A.

**FUND BALANCES AND RESERVES**

Based on the preliminary unaudited year-end results, fiscal year 2014/15 presents a net shortfall in total sources of funds over total uses of funds of \$11.0 million primarily due to the early redemption of the 2005A Revenue bonds. The consolidated ending fund balance is estimated at \$140.1 million. Included in both revenue and expense categories is the “pass-through” sale and purchase of MWD imported potable water deliveries for \$34.1 million corresponding to 58,906 AF.

The operating activities indicated a net decrease of \$0.8 million compared to the amended budget. Lower employment expenses (vacancy factor) and delay in special (O&M) project spending accounted for the lower than budget. Approximately \$5.8 million of water conservation and water quality related projects were carried forward to the FY 2015/16.

The non-operating activities show a net decrease of \$10.2 million. The non-operating expenses comprised of debt service and capital improvement plan (CIP) expenditures. The significant decrease compared to the amended budget was due to delay in capital project execution. As a result, approximately \$8.3 million of regional wastewater and recycled water related projects were carried forward to the FY 2015/16.

**Comparative of Total Revenues, Total Expenses, and Fund Balance (\$Millions)**

	FY 2014/15 Amended Budget	Fiscal Year Ended 6/30/15	Actual % of Amended
<b>Operating</b>			
Operating Revenue	\$117.6	\$118.7	100.9 %
Operating Expense	\$134.7	\$119.5	88.7%
<b>Operating Net Increase/(Decrease)</b>	<b>(\$17.1)</b>	<b>(\$0.8)</b>	
<b>Non- Operating</b>			
Non-Operating Revenue	\$79.8	\$81.1	101.6%
Non-Operating Expense	\$102.3	\$91.3	89.2%
<b>Non-Operating Net Increase/(Decrease)</b>	<b>(\$22.5)</b>	<b>(\$10.2)</b>	
<b>Consolidated</b>			
Total Sources of Funds	\$197.4	\$199.8	101.2%
Total Uses of Funds	\$237.0	\$210.8	88.9%
<b>Total Net Increase/(Decrease)</b>	<b>(\$39.6)</b>	<b>(\$11.0)</b>	
Beginning Fund Balance	\$151.1	\$151.1	
<b>Ending Fund Balance</b>	<b>\$111.5</b>	<b>\$140.1</b>	

## **GOALS AND OBJECTIVES**

Exhibit B provides information on division and related department goals and objectives and the status of each through the end of the fiscal year. The goals and objectives indicators are measures used to track the volume and complexity of work by type and to track the effort invested to accomplish that work. Staff will use the indicators to justify current resource allocations, requests for additional resources or re-allocation of staff and to track productivity.

## **BUDGET TRANSFERS AND AMENDMENTS**

O&M budget transfers for this quarter accounted for \$0.8 million as detailed in Exhibit C-1.

Additionally, FY 2014/15 adopted budget included \$400,000 of General Manager (GM) Contingency Account in the RO Fund and \$100,000 in the GG Fund. At the end of the fiscal year, \$375,150 from RO Fund and \$100,000 from GG Fund were utilized to support unexpected and necessary expenses as listed in Exhibit C-2.

Capital and O&M projects budget transfers accounted for \$0.5 million as approved by management during the fourth quarter and are listed in Exhibit D.

The budget variance analysis report is consistent with the Agency's business goal of Fiscal Responsibility: to demonstrate the Agency appropriately funded operational, maintenance, and capital costs.

## **PRIOR BOARD ACTION**

The Board reviewed the Agency's variance report for FY 2014/15 third quarter ending March 31, 2015, on June 17, 2015.

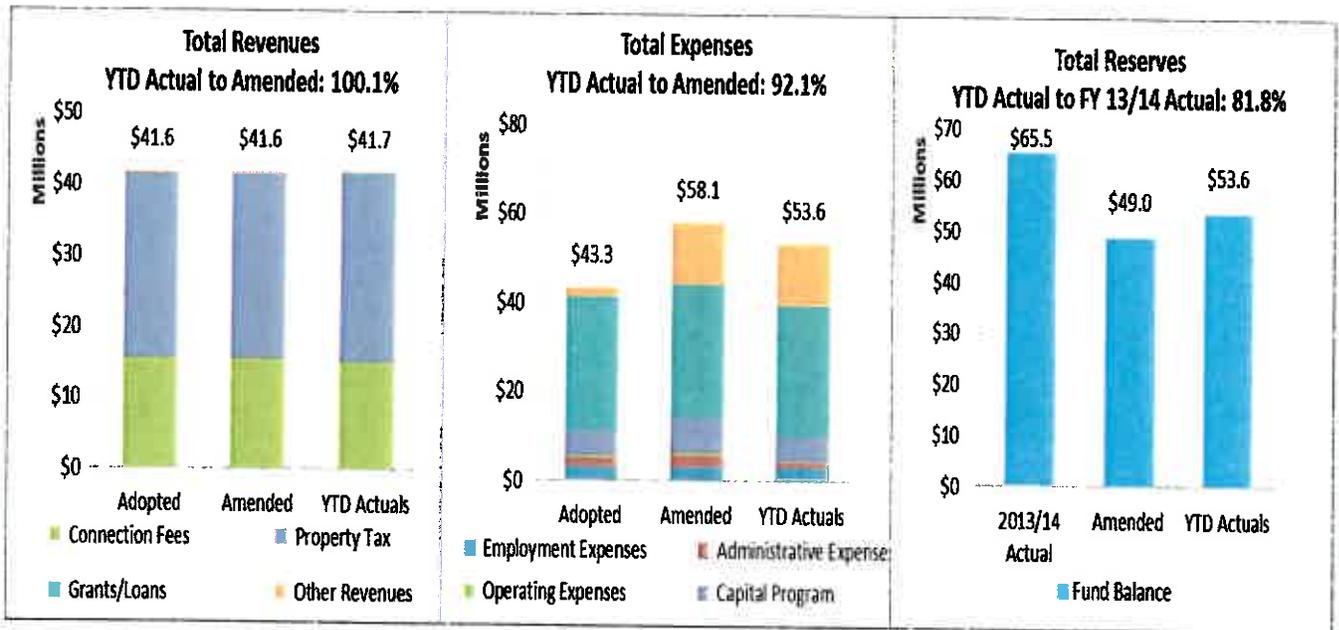

## **IMPACT ON BUDGET**

The net shortfall in total revenues over total expenses in the amount of \$11.0 million resulted in a total estimated fund balance of \$140.1 million for the fiscal year ended June 30, 2015.

**Attachment A**  
**FY 2014/15 Financial Overview of Agency's Programs**  
**Total Revenues, Expenses, and Fund Balance**

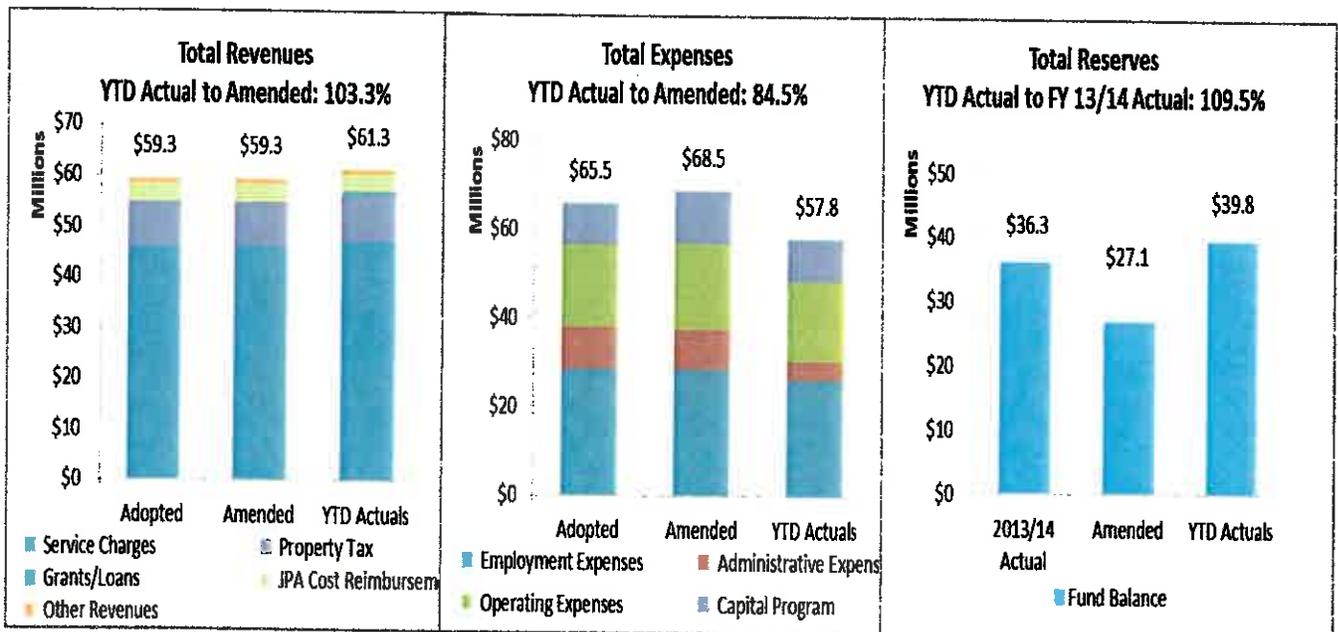

***Regional Wastewater Capital Improvement (RC) Fund***

- The unaudited ending fund balance indicated a decrease of \$11.9 million compared to the FY 2013/14 ending fund balance primarily due to the early retirement of the 2005A Revenue Bond in November 2014, and an inter-fund loan of \$10.5 million provided for Recycled Water (WC) fund.

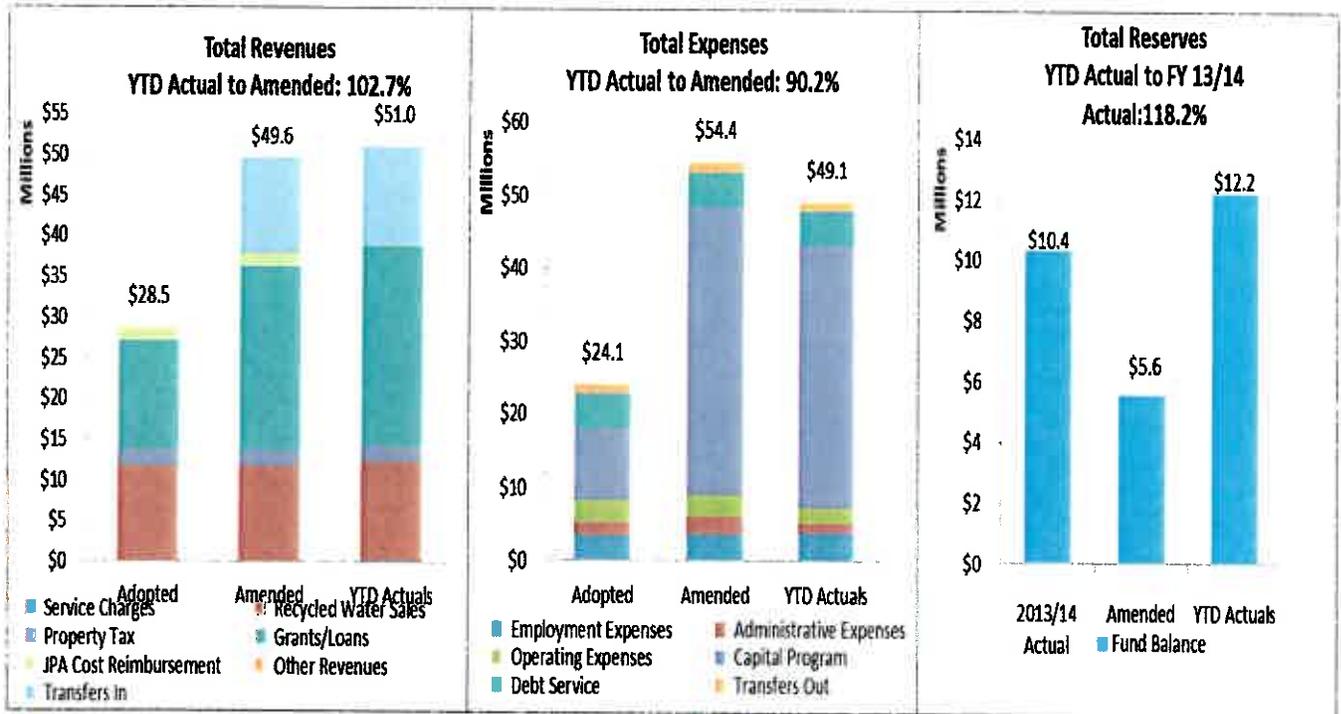

***Regional Wastewater Operations and Maintenance (RO) Fund***

- The unaudited ending fund balance indicated an increase of \$3.5 million compared to the FY 2013/14 ending fund balance can be attributed by delayed execution of capital replacement and rehabilitation and O&M projects. Also timing in the procurement of administrative/operating supplies, as a result a total of \$0.8million O&M budget was carried forward to FY 2015/16.

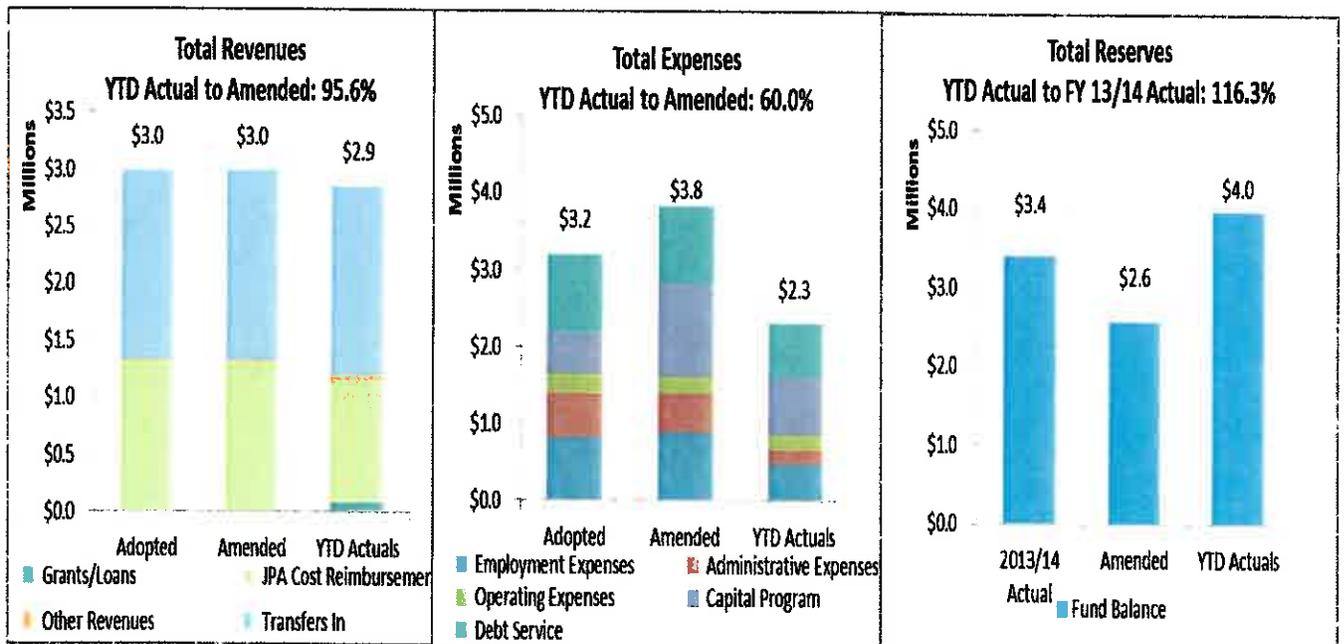

**Recycled Water (WC) Fund**

- The unaudited ending fund balance indicated an increase of \$1.8 million compared to the FY 2013/14 ending fund balance primarily due to Inter-fund loan from RC fund for \$10.5 million to support the capital expenditures.

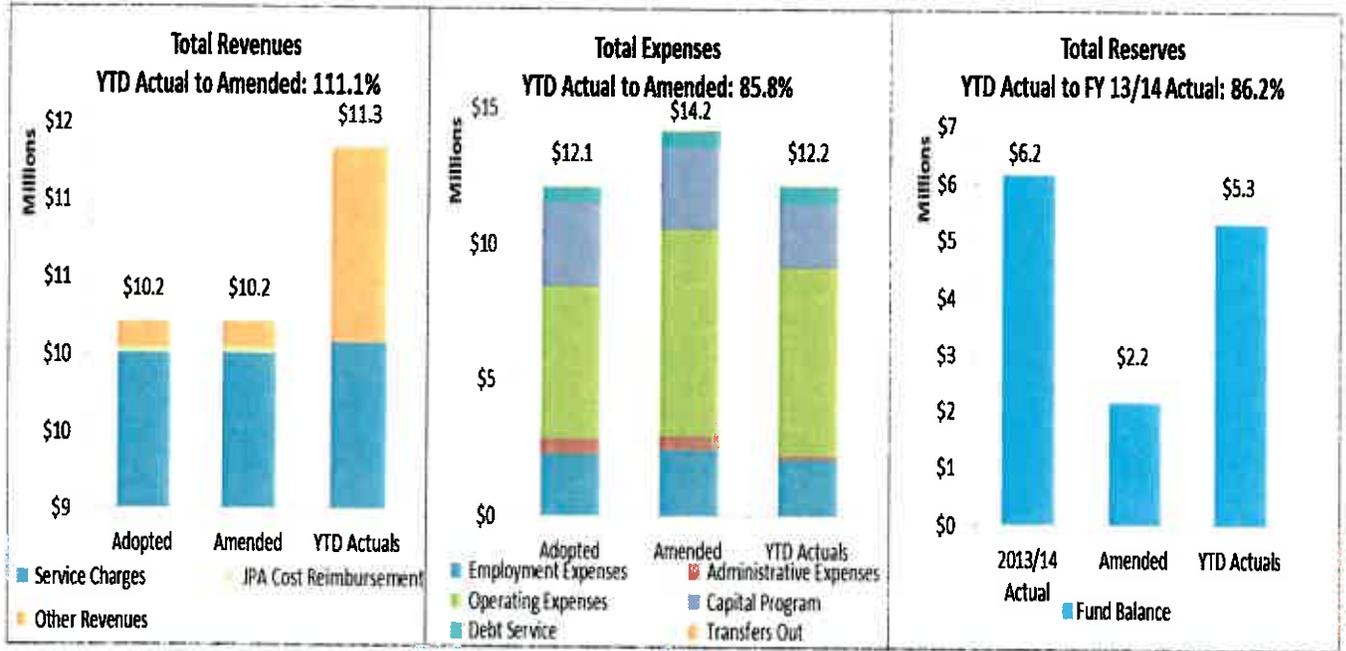

**Recharge Water (RW) Fund**

- The unaudited ending fund balance presented an increase of \$0.6 million compared to the FY 2013/14 ending fund balance due to lower capital and administrative costs.

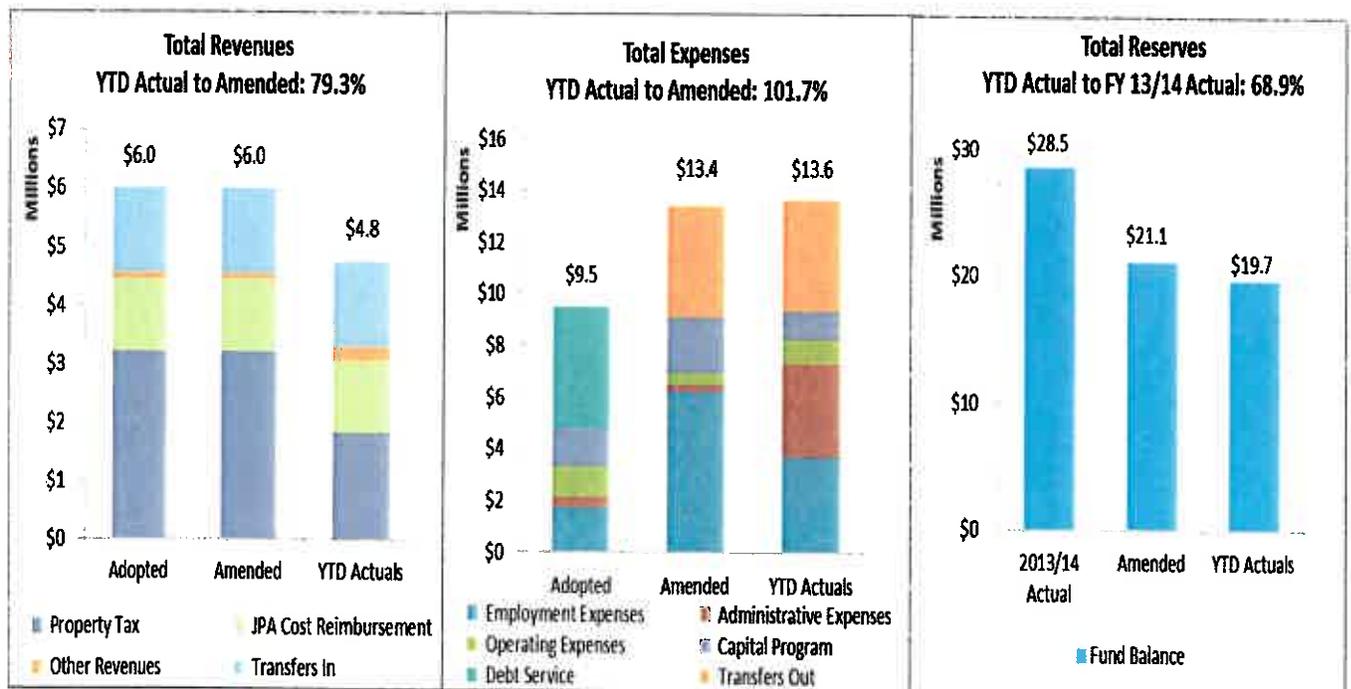

**Non-Reclaimable Wastewater (NC) Fund**

- The unaudited ending fund balance resulted in a decrease of \$0.9 million compared to the FY 2013/14 ending fund balance was primarily due to higher operating expenses.

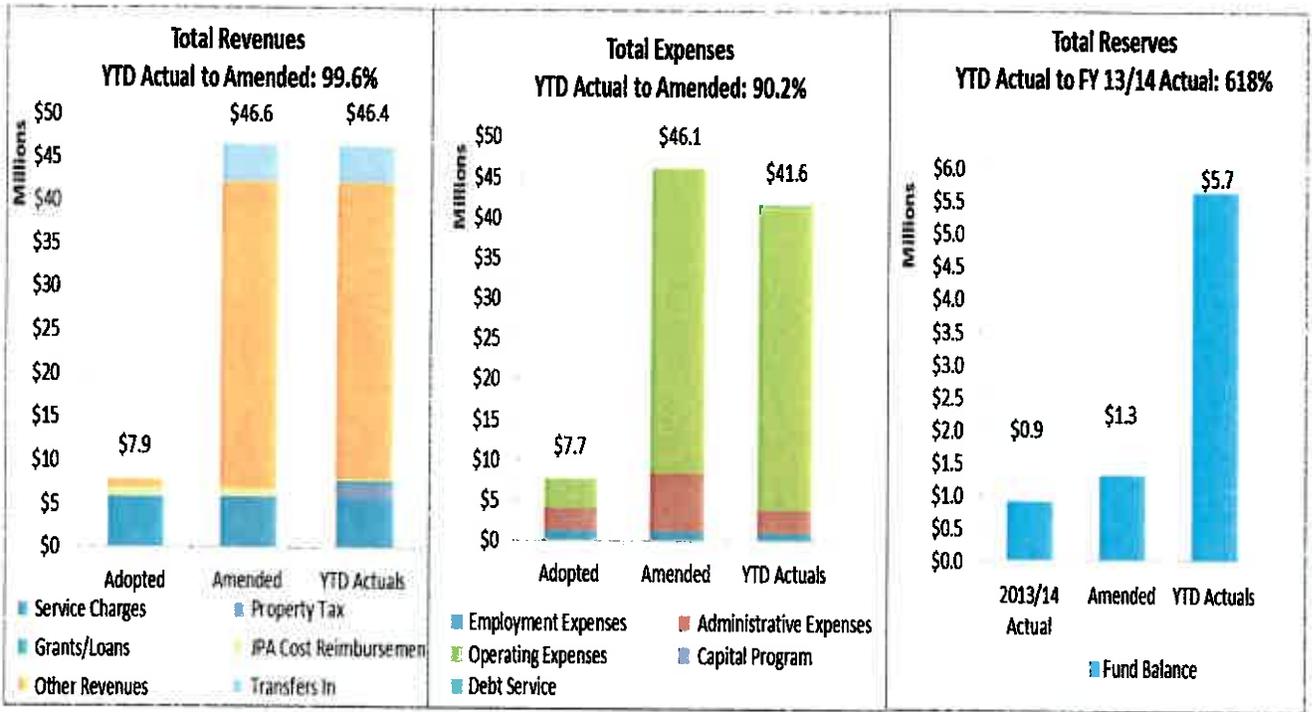

**Administrative Services (GG) Fund**

- The unaudited ending fund balance indicated a decrease of \$8.8 million compared to the FY 2013/14 ending fund balance, which can be attributed to the shift of \$1.5 million property tax receipts, \$4.3 million of inter-fund loan to the Water Resources (WW) fund, and OPEB liability \$3.5 million.

**Water Resources (WW) Fund**

- The unaudited ending fund balance increase of \$4.8 million compared to the FY 2013/14 ending fund balance was primarily due to shift of \$1.5 million property tax receipts and \$4.3 million of inter-fund loan from the GG fund to support program cost and conservation programs.

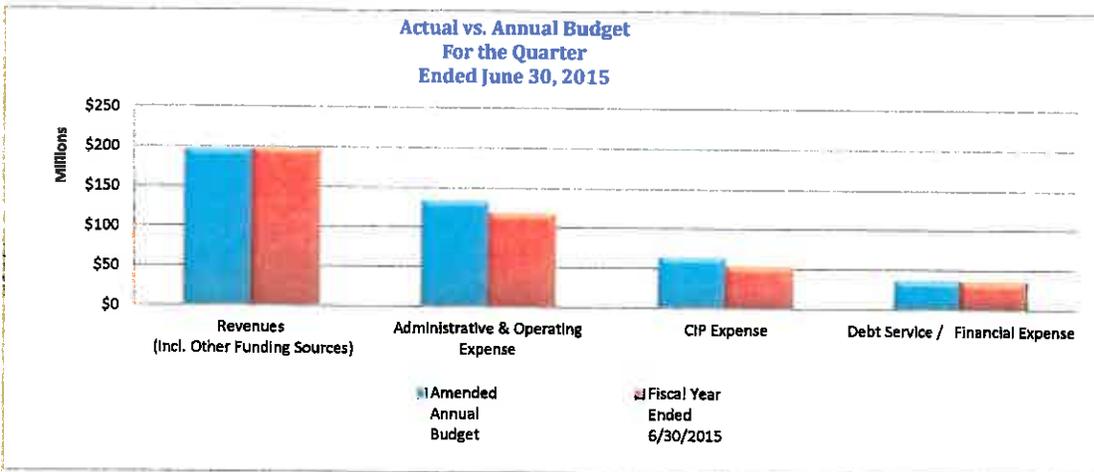

I. Actual vs. Budget Summary:

Fiscal Year Ended June 30, 2015

% of the Year  
Elapsed: 100%

	Adopted Annual Budget	Amended Annual Budget	Fiscal Year Ended 6/30/2015	Amended vs. Actual	% of Amended Budget
Operating Revenues	\$82,996,623	\$117,575,298	\$118,694,653	\$1,119,355	101.0%
Non-Operating (Other Sources of Fund)	70,436,544	79,819,510	81,154,822	1,335,312	101.7%
<b>TOTAL FUNDING SOURCES</b>	<b>153,433,167</b>	<b>197,394,808</b>	<b>199,849,475</b>	<b>2,454,667</b>	<b>101.2%</b>
Administrative & Operating Expense	(91,015,073)	(134,716,795)	(119,504,802)	15,211,993	88.7%
CIP Expense	(29,314,800)	(64,976,475)	(54,833,894)	10,142,581	84.4%
Debt Service / Financial Expense	(41,966,339)	(37,358,791)	(36,487,209)	871,582	97.7%
<b>TOTAL USES OF FUNDS</b>	<b>(162,296,212)</b>	<b>(237,052,061)</b>	<b>(210,825,905)</b>	<b>26,226,156</b>	<b>88.9%</b>
Surplus/(Deficit)	(\$8,863,045)	(\$39,657,253)	(\$10,976,430)	\$28,680,823	27.7%

2. Actual Revenue vs. Budget:

% of the Year  
Elapsed: 100%

	Adopted Annual Budget	Amended Annual Budget	Fiscal Year Ended 6/30/2015	Amended vs. Actual	% of Amended Budget
<b>Operating Revenues:</b>					
User Charges	\$61,812,614	\$61,812,614	\$62,943,912	\$1,131,298	101.8%
Recycled Water Sales	9,502,500	9,502,502	9,968,164	465,662	104.9%
MWD Water Sales	0	34,146,923	34,146,923	0	100.0%
MWD LPP Rebate	2,079,000	2,079,000	2,079,000	0	100.0%
Property Tax - O&M	3,216,278	3,216,278	3,275,680	59,402	101.8%
Cost Reimbursement	5,437,786	5,869,536	5,815,974	(53,562)	99.1%
Interest	948,445	948,445	465,000	(483,445)	49.0%
<b>OPERATING REVENUES</b>	<b>82,996,623</b>	<b>117,575,298</b>	<b>118,694,653</b>	<b>1,119,355</b>	<b>101.0%</b>
<b>Non-Operating Revenues:</b>					
Property Tax - Debt, Capital, Reserves	\$36,987,196	\$36,987,196	\$37,670,323	683,127	101.8%
Connection Fees	\$15,321,000	\$15,320,999	\$15,073,882	(247,117)	98.4%
Grants & Loans	13,394,355	22,562,575	26,043,199	3,480,624	115.4%
Other Revenue	4,733,993	4,948,740	2,367,419	(2,581,321)	47.8%
<b>NON-OPERATING REVENUES</b>	<b>70,436,544</b>	<b>79,819,510</b>	<b>81,154,823</b>	<b>1,335,313</b>	<b>101.7%</b>
<b>Total Revenues</b>	<b>\$153,433,167</b>	<b>\$197,394,808</b>	<b>\$199,849,476</b>	<b>\$2,454,668</b>	<b>101.2%</b>

<b>User Charges</b>	User charges were \$62.9 million, or 102% of the Amended Budget. This category includes EDU volumetric fees of \$46.7 million, \$10.1 million Non-Reclaimable wastewater fees paid by industrial and commercial users connected to the brine line system; \$4.9 million for water meter service charge to meet our Readiness-to-Serve obligation from MWD and water use efficiency programs; and \$0.8 million for imported potable water surcharge. EDU volumetric fees were slightly over budget due to higher volume reported by the city of Fontana and Cucamonga Valley Water District, 3.1% and 6.2% respectively.
<b>Property Tax/ AdValorem</b>	The \$40.9 million in property tax receipts included \$28.9 million of general ad-valorem tax from the San Bernardino County and \$12.0 million in "pass-through" incremental taxes (RDA) taxes received. The tax receipts indicated a 5% growth compared to the budgeted 3%.
<b>Recycled Water Sales</b>	Recycled water actual direct and groundwater recharge sales were \$6.3 million (23,579 AF) and \$3.7 million (10,840 AF) respectively, for a combined total \$10.0 million or 105% of the budget. Total deliveries of 34,419 AF compared favorably to the direct and recharge recycled water budget of 32,000 AF due to dry winter along with optimum basin availability for additional groundwater recharge.
<b>Interest Income</b>	Interest Income is approximately 49% of the annual budget. Lower interest rate due to current financial market condition, with an average rate of the sweep account and LAIF pooled investments at 0.26% compared to the budgeted interest rate of 0.50%.
<b>MWD Water Sales</b>	Total MWD pass-through imported water revenue were \$34.1 million for 58,905 AF compared to amended budget of 65,000 AF. The addition of MWD imported pass-through water sales and purchases accounts for the major change in the amended budget for this category.
<b>MWD LPP Rebates</b>	MWD LPP rebate for direct recycled water sales in excess of 3,500 AF and up to 17,000 AF are eligible for the Metropolitan Water District (MWD) Local Project Program (LPP) at a rate of \$154/AF, for a maximum amount of \$2.1 million per fiscal year. By the end of the fourth quarter, the total maximum allowable rebate of \$2.1 million was achieved for 17,000 AF of credit or 100.0% of total budget.
<b>Connection Fees</b>	Member agencies reported \$15.1 million or 98% of the annual budget. A total of 2,953 new connections were reported through June 2015 compared to annual budget of 3,000 new EDU connections.
<b>Grants and Loans</b>	Total amount invoiced for grants and loans was \$26.0 million or 115.4% of the amended budget comprised of: \$2.3 million in grants and \$20.2 million in SRF loan proceeds for the Southern and Central/Wineville Area projects. The surplus in SRF loan receipts are related to the change orders for the Southern Area projects resulting in additional costs.
<b>Cost Reimbursements JPA</b>	Total cost reimbursements were \$5.8 million or 99% in line with the amended budget. Category actual includes reimbursements of \$3.4 million from the Inland Empire Regional Composting Authority (IERCA), \$1.2 million from Chino Basin Desalter Authority (CDA), and \$1.2 million from Chino Basin Watermaster (CBWM). Total cost reimbursement budget of \$5.4 million, includes \$1.2 million from CDA, \$3.5 million from IERCA, and \$0.7 million from CBWM.

**Other Revenues** Total other revenues were \$2.4 million or 48% of the amended budget. Revenues include \$1.2 million for the recovery of the deferred 4R capital charges from Non-Reclaimable (NC) fund, \$0.7 million from lease revenue for the RP-5 Solids Handling Facility, \$0.3 million in project reimbursements. Delays in the reimbursable projects from Recycled Water and Water Resources Programs accounted for the lower revenue.

**3. Actual Operating and Capital Expense vs. Budget:**

**% of the Year  
Elapsed: 100%**

	Adopted Annual Budget	Amended Annual Budget	Fiscal Year Ended 6/30/2015	Amended vs. Actual	% of Amended Budget
<b>Operating Expenses:</b>					
Employment	\$40,890,683	\$44,259,740	\$40,272,807	\$3,986,933	91.0%
Admin & Operating	50,124,390	90,457,055	79,231,995	\$11,225,060	87.6%
<b>OPERATING EXPENSES</b>	<b>\$91,015,073</b>	<b>\$134,716,795</b>	<b>\$119,504,802</b>	<b>\$15,211,993</b>	<b>88.7%</b>
<b>Non-Operating Expenses:</b>					
Capital	29,314,800	64,976,475	54,833,894	\$10,142,581	84.4%
Debt Service and All Other Expenses	41,966,339	37,358,791	36,487,209	\$871,582	97.7%
<b>NON-OPERATING EXPENSES</b>	<b>\$71,281,139</b>	<b>\$102,335,266</b>	<b>\$91,321,103</b>	<b>\$11,014,163</b>	<b>89.2%</b>
<b>Total Expenses</b>	<b>\$162,296,212</b>	<b>\$237,052,061</b>	<b>\$210,825,905</b>	<b>\$26,226,156</b>	<b>88.9%</b>

**Employment Expense** *Employment - 91%*  
 This category includes both wages and benefits. Employment expenses were \$40.3 million or approximately 91.0% of the Amended Budget. The slightly favorable variance was due to a higher than anticipated vacancy factor. A total of 17 positions were vacant and an additional 15 positions were on hold at the end of the fiscal year, equivalent to a 12% vacancy factor which exceeded the Agency's budgeted vacancy rate of 5.0%

**Administrative & Operating Expense** *Office and Administrative - 65.7%*  
 The favorable variance were mainly due to reduction in office supply expense, avoided election expenses, training and travel related expense. Other items such as contributions and sponsorships and educational reimbursements were also lower than anticipated.

*Insurance Expenses - 88.2%*  
 The favorable variance can be attributed to less occurrences related to general, automobile and casualty liability and property loss or damage which resulted to lower deductible claimed.

*Professional Fees & Services - 87.1%*  
 Timing of services; planned work or services were not being performed, or work started in this fiscal year expected to complete in the following fiscal year attributed to the favorable variance. For example, maintenance and housekeeping tasks were not executed at RP-2, RP-5, and Carbon Canyon such as rebuilding of primary effluent pumps, submersible pumps, air conditioning duct cleaning, and HQ-A restroom hardware upgrades. As a result, \$1.1 million of the Amended budget was carried forward to the next fiscal year.

*Materials & Supplies/Leases/Contribution - 77.9%*  
 The favorable variance was mainly due minimal needs for items such as: fleet parts, equipment tools, laboratory supplies, and operations and maintenance supplies. Also, timing of replacement parts and routine consumables for plant maintenance, as a result, \$146 thousand of the amended budget was carried forward to the next fiscal year.

*Biosolids Recycling - 95.6%*  
 Utilization of the new solar pad to help dry biosolids to significantly reduced hauling costs resulted in a favorable variance. Overall tonnage removal was 60,354 at \$54 per ton.

*Chemicals - 91.9%*  
 Total chemical expenses were \$4.2 million or 91.9% of amended budget. Favorable variance was due to effective process optimization, suspension of chemical use during primary clarifier maintenance and decreased plant influent flow enabled operations and maintenance to maintain lower expenditures while maintaining permit compliance parameter, solids capture, and recycled water quality at reduced costs.

*MWD Water Purchases - 100%*  
 Total MWD pass-through imported water purchases were \$34.1 million for 58,905 AF compared to the amended budget of 65,000 AF. The inclusion of MWD imported water purchases accounts for the major change in the amended budget for this category.

**Utilities - 90.7%**

Electricity was slightly higher due to low production from Fuel Cell at RP-1. Low utilization from fuel cell was subsidized by importing at higher electricity costs. Average rate was \$0.125 versus \$0.120/kWh budgeted rate. Natural gas was favorable due to lower gas rate averaging \$0.41/therm compared to the budgeted rate of \$0.80/therm. Fuel Cell experienced some reliability issues resulted in lower than the expected electricity production. Solar panels was lower in FY 2014/15 compared to FY 2013/14, which was used as a baseline for the FY 2014/15 budget. Electricity generated from the solar power is directly related to the amount of sunlight experienced this year.

**Special and Reimbursable Projects - 34.7% and 67.2%**

The combined special and reimbursable project expenditures were \$4.2 million or 39.6% of the Amended Budget. The favorable variance is mainly due to the delay of water resource related projects. An estimated budget of \$5.8 million or 54.2% of the FY 2014/15 amended special projects has been carried forward to FY 2015/16. The table below provides a summary of the major projects and current status.

**Financial Expenses****Financial Expense - 98%**

Total financial and other non-operating expenses were \$36.5 million through the end of fiscal year. This amount includes: \$14.7 million payment for the early redemption of the 2005A Revenue Bonds in November 2014. The 2008B Variable Rate Demands Bonds interest rate continues to stay below the budgeted 1% rate, with the actual rate averaging 0.049% for the fiscal year.

**Capital Expense****Capital Costs - 84.4%**

Capital actual expenditures through the end of fiscal year were \$54.8 million compared to the amended budget of \$65.0 million. An estimated budget of \$8.3 million or 14.5% of the FY 2014/15 CIP amended budget has been carried forward to FY 2015/16. Actual cost related to Recycled Water projects was \$35.8 million or 65% of the the total costs and \$5.5 million or 10% were related to Regional Wastewater projects. Listed below is a brief status report on some of the major projects currently under construction.

**Summary of major capital and special project expenses and status as of June 30, 2015**

Capital Project		Amended FY 2014/15	YTD Expenditure	Budgeted Amount Remaining
<b>EN13023</b>	<b>930 Zone Recycled Water Reservoir</b>	<b>7,928,744</b>	<b>7,846,550</b>	<b>82,194</b>
	Project is complete with expenditures totaling 99% of the budget. The purpose of the project is to provide storage in the Southern Service Area and increase pump station capacities. Currently the project is in construction. Last month sewer repair, appurtenances, and street resurfacing on Foxglove were completed.			
<b>EN13038</b>	<b>RP-1 Outfall Relocation &amp; Upsizing</b>	<b>5,200,000</b>	<b>3,926,543</b>	<b>1,273,457</b>
	Project is complete with 100% of the budget to be expended. Notice of completion was filed June 5, 2015, final invoices received and paid in September. The project includes the relocation of an existing 30-inch RP-1 Outfall recycled water pipeline outside of its easement into public right-of-way. Due to increasing capacity demand from the City of Ontario, the pipeline will be upgraded to a 72-inch pipeline.			
<b>EN06025</b>	<b>Wineville Extension Recycled Water Pipeline</b>	<b>11,336,749</b>	<b>11,101,395</b>	<b>235,355</b>
	98% of the budget was expended by the end of the fourth quarter with completion estimated in July 2015. The project consists of approximately 24,000 lineal feet of pipe and will serve recycled water customers as well as provide recycled water for ground water recharge at the RP-3 and Declez Basins.			
<b>EN13045</b>	<b>Wineville Extension Recycled Water Pipeline Segment B</b>	<b>9,900,000</b>	<b>8,993,744</b>	<b>906,256</b>
	91% of the budget was expended by the end of the fourth quarter, project is estimated to be complete by September of 2015. The project involves the installation of 2.8 miles of 30" recycled water pipeline in addition to the associated appurtenances. This project is in conjunction with EN06025. Currently permitting and construction are in progress.			
<b>EN13054</b>	<b>Montclair Lift Station Upgrades</b>	<b>2,535,631</b>	<b>2,192,588</b>	<b>343,243</b>
	Project is complete and 86% of the budget was expended by the end of the fiscal year. The project will work to eliminate the ragging problem at the Montclair Pump Station that arose due to additional flow diverted to RP-1. The project is currently in the construction phase. HVAC redesign has been completed and the complete bypass and outage plan is being finalized.			
<b>EN11035</b>	<b>Philadelphia Pump Station Upgrades</b>	<b>1,410,742</b>	<b>1,592,150</b>	<b>(181,408)</b>
	Project is completed and over the fiscal year budget at 113%, but within the total project budget. The project mitigated problems at the pump station including walls and floor surfaces were recoated with a strong resin.			
<b>EN14012</b>	<b>RP-2 Drying Beds Rehabilitation</b>	<b>1,278,279</b>	<b>916,455</b>	<b>361,824</b>
	Project was complete at 72% of the budgeted expense. The project includes the design, procurement, and installation of drying bed improvements and temporary provisions for dewatering. The project is currently in construction and recent activities include grading of the west side drying beds.			

O&M & Reimbursable Projects		Amended FY 2014/15	YTD Expenditure	Budgeted Amount Remaining
WR15022	<b>Water Use Assessments</b> This project was originally established to cover expenses associated with drought response activities. Based on the establishment of the Governor's statewide mandatory water use reductions that were issued on April 1, 2015, staff worked with the Agency's member agencies to develop several drought response activities that would support them in meeting their statewide targets. Those activities include contracting with Omni-Earth to develop agency specific technology based software, development of a regional drought campaign theme, URL, and roll-out, and the creation and printing of signage. Meetings took place in April, May, and June 2015 to launch the activities. Expenses are now being received in 1st and 2nd quarter FY 15-16 for the launch of those activities.	800,000	-	800,000
PA15001	<b>Underground Piping Rehabilitation</b> 24% of the budget was expended by the end of the fourth quarter. This project is an annual appropriation for the rehabilitation or repair of the Agency's underground assets. This includes pipes vaults, channels, and process galleries. All contracts related to this project have been completed.	220,000	51,980	168,020
EP15001	<b>RP-1/RP-2 Digester Cleaning Project</b> 9% of the budget was expended and the cleaning effort for the RP-2 Digester No. 2 is complete. The project involves the removal of solids from Wastewater Treatment Facility Digesters to allow for better processing, a reduction of equipment failures, and improvement in process performance. The digester will be put back in service after the condition assessment.	730,000	17,888	712,112
WR15005	<b>Residential Landscape Device Retrofit</b> This is a 3-year DWR Grant Funded Proposition 84 Project. The Project has been set-up on an annual basis but the total project budget is \$1 million. The Project began in FY 14-15 and for the fiscal year, has expended 53% of the budget. The Agency relies on the member agencies to market, outreach and identify eligible customers for participation in the Project. Through June 30, 2015, there have been 232 sites retrofitted with 355 weather-based irrigation controllers and 4,964 high efficiency nozzles installed. The Residential Landscape Device Retrofit Program will continue through FY 2016/17 or until the \$1 million budget has been	400,000	211,275	188,725

**Business Goals & Objectives Report By Department**  
**FY 2014/15 4th Quarter ended June 30, 2015**

**Exhibit B**

Goal ID	FY Start	Reporting Required	Division	Bus. Goal	Work Plan	Department Goal	Time Line	KPI	Assigned To	Note Month	Note Year	Status	Complete	Notes
<b>Agency Management</b>														
60	FY 2014/15	Quarterly	Agency Management	C	Continue to apply Lean management principles to streamline current business processes and systems and eliminate waste and redundancies	Develop and implement a standardized procedure for writing and processing committee/Board Letters	Completed by June 30, 2015	Implement two per quarter until completed	April Woodruff	June	2015	On Schedule	No	Put on hold until the department is fully staffed and trained.
61	FY 2014/15	Quarterly	Agency Management	C	Continue to apply Lean management principles to streamline current business processes and systems and eliminate waste and redundancies	Develop standard operating procedure handbook for the Executive Management Department area	Completed by June 30, 2015	Implement two per quarter until completed	April Woodruff	June	2015	On Schedule	No	Put on hold until the department is fully staffed and trained.
62	FY 2014/15	Quarterly	Agency Management	C	Continue to apply Lean management principles to streamline current business processes and systems and eliminate waste and redundancies	Update and maintain "Duties and Annual calendar of responsibilities" manual for the Board Secretary position	Completed by June 30, 2015	Implement two per quarter until completed	April Woodruff	June	2015	On Schedule	No	Put on hold until the department is fully staffed and trained.
63	FY 2014/15	Quarterly	Agency Management	C	Continue to apply Lean management principles to streamline current business processes and systems and eliminate waste and redundancies	Increase the efficiency of the executive administrative group through streamlining processes	Completed by June 30, 2015	Implement two per quarter until completed	April Woodruff	June	2015	On Schedule	No	Put on hold until the department is fully staffed and trained.
<b>Business Information Services</b>														
109	FY 2014/15	Quarterly	Finance and Administration	C	Determine the scope for Geographic Information Systems online applications to share information with member agencies by September 2014	Develop web-based GIS applications that are free to use and are relevant to Agency's customers. Intended for information sharing, transparency and education purposes	July-2015	Two applications on-line	Kenas Pantayathwong	July	2015	On Schedule	No	Although there was no new applications deployed in Q4, new contents were updated (e.g. CCTV, photos, BAR data). UtiliQuest, Dig-Alert contractor, is now using Agency's mapping application instead of their own proprietary application, enabling faster and more accurate data of Agency's facilities over previous process.
110	FY 2014/15	Quarterly	Finance and Administration	C	Continue to apply Lean management principles to streamline current business processes and systems and eliminate waste and redundancies	Determine Procurement to Payment master content	9/30/2014	Design supports functional	Kenas Pantayathwong	July	2015	On Schedule	No	The original goal of updating material masters was collectively deferred. Instead, the focus was placed on improving the procurement process, where automation of converting PR to PO and ability to send PO as PDF, and was rolled out in June.
111	FY 2014/15	Quarterly	Finance and Administration	C	Continue to apply Lean management principles to streamline current business processes and systems and eliminate waste and redundancies	Implement the use of electronic signatures for invoicing on emergency contracts	April-2015	Electronic signature capability for and approvers	Kenas Pantayathwong	July	2015	Behind Schedule	No	BIS investigated several possibilities for implementing electronic signature - certificate in Adobe Acrobat, workflow in SharePoint, third-party solution. The solution is scheduled to be implemented in August for EE&CM pay estimate.

**Business Goals & Objectives Report By Department  
FY 2014/15 4th Quarter ended June 30, 2015**

**Exhibit B**

Goal FY ID	Reporting Required	Division	Bus. Goal	Work Plan	Department Goal	Time Line	KPI	Assigned To	Note Month Year	Status	Complete	Notes
5	Quarterly	Finance and Administration	A	Integrate projects identified in the long range financial planning documents, such as the Facilities Wastewater Master Plan, Technology Master Plan, Energy Plan, and the Integrated Resources Plan, into the operating and capital budget by July 2016	Complete the development of the Technology Master Plan (TMP) by 6/30/2014	12/31/2014	Award TMP contract by 5/31/2014	Kanes Panlayathiwong	July 2015	On Schedule	Yes	This goal has been met.
13	Quarterly	Finance and Administration	A	Advocate for continued receipt of property taxes and optimize grants and other funding sources to support Agency and regional investments	Determine requirements for new SAP enhancement that automates cost tracking for projects with multiple grants	July-2015	System go-live by 12/31/2015 >= 10% reduction in process time for grants analyst after implementation	Kanes Panlayathiwong	July 2015	Behind Schedule	No	This goal was not accomplished in FY2015.
11	Quarterly	Finance and Administration	A	Continue commitment to cost containment for operating and capital costs	Maintain cost of external SAP support to be within contracted amounts for all vendors	Quarterly	Actuals <= quarterly average of the contracted amounts	Kanes Panlayathiwong	July 2015	On Schedule	Yes	Actual spending during Q4/2015 is \$17,565 or 121% of quarterly target. However, \$8,327 was spent on pilot projects to enhance the SAP usability - Single-Sign-On (SSO) and Personas (screen customization). Without this enhancement costs, the quarterly spending on support is 65%, which is within the target.
23	Quarterly	Finance and Administration	A	Integrate projects identified in the long range financial planning documents, such as the Facilities Wastewater Master Plan, Technology Master Plan, Energy Plan, and the Integrated Resources Plan, into the operating and capital budget by July 2016	Assess challenges with Agency's financial processes: increase speed of processing reports	Quarterly	15% increase in report response time	Kanes Panlayathiwong	July 2015	Behind Schedule	No	There are two dashboard projects in progress during Q4. Unfortunately, both were not completed. The dashboard for labor data is 90% complete and should be deployed in July or early August. Content for this report was not available prior to the development. The dashboard for procurement group will be completed in July and will contain KPIs that are not available with standard reports.
30	Quarterly	Finance and Administration	B	Ensure staff understands and upholds their role in achieving the Agency's Mission, Vision, and Values	Provide staff with opportunities for technical and professional training classes. Release new enhancements to Agency's various software applications at fixed intervals (every 4 months)	Every January 15, may 15 and September 15	50% or more of staff receiving training class per year. 100% of enhancements released plus or minus two calendar weeks from scheduled release date	Kanes Panlayathiwong	July 2015	On Schedule	Yes	This goal has been met.

**Business Goals & Objectives Report By Department**  
**FY 2014/15 4th Quarter ended June 30, 2015**

**Exhibit B**

Goal FY ID Start	Reporting Required	Division	Bus. Goal	Work Plan	Department Goal	Time Line	KPI	Assigned To	Note Month Year	Status	Complete	Notes
45	FY 2014/15 Quarterly	Finance and Administration	C	Develop a program that annually measures the effectiveness and efficiency of Agency core services based on stakeholder feedback on "quality, cost and value"	Develop at least one dashboard-like reporting tool for key metrics determined by the process owners	Quarterly	Project time / available time >= 50%	Kanes Pantayathwong	July 2015	Behind Schedule	No	There are two dashboard projects in progress during Q4. Unfortunately, both were not completed. The dashboard for labor data is 90% complete and should be deployed in July or early August. Content for this report was not available prior to the development. The dashboard for procurement group will be completed in July and will contain KPIs that are not available with standard reports.
46	FY 2014/15 Quarterly	Finance and Administration	C	Develop a program that annually measures the effectiveness and efficiency of Agency core services based on stakeholder feedback on "quality, cost and value"	Allocate at least 50% of staff time towards projects and research & development work, aside from break-fixes, maintenance tasks (e.g., upgrades) and administrative tasks	Quarterly	Project time / available time >= 50%	Kanes Pantayathwong	July 2015	On Schedule	No	48% spent on projects between PP03 - PP14 of FY2015. Staff time spent on projects was 2,108 hrs and total staff time was 4,437 hrs. (excluded manager's hours). This quarter was below target due to slightly higher activities related to SAP GUI updates.
47	FY 2014/15 Quarterly	Finance and Administration	C	Continue to apply Lean management principles to streamline current business processes and systems and eliminate waste and redundancies	Provide initial Lean training to all managers	6/30/2015	100% of managers trained	Kanes Pantayathwong	July 2015	On Schedule	No	No new update. Note: This goal should be removed or revised since it cannot be measured properly.
48	FY 2014/15 Quarterly	Finance and Administration	C	Continue to apply Lean management principles to streamline current business processes and systems and eliminate waste and redundancies	Train all Lean team members	At start of each project	100% of team trained	Kanes Pantayathwong	July 2015	Behind Schedule	No	The Biosolids project will be completed in late July due to the need for several months data. Another project was assessing whether or not a lean project is appropriate. Lastly, the team has been compiling the potential projects derived from the ECM assessment.
49	FY 2014/15 Quarterly	Finance and Administration	C	Provide timely updates to the Regional Committees and the IEUA Board on long term planning needs	Release new enhancements to Agency's various software applications at fixed intervals (every 4 months)	Continuous	Number of enhancements released. ROI of each enhancement when applicable	Kanes Pantayathwong	July 2015	Behind Schedule	No	The rollout of automatic PR to PO was deployed in June. Additional enhancements to user interface (Single Sign-On and Personas) were not completed in Q4 due to licensing issue and technical limitation by SAP native software (SAP is addressing it).
42	FY 2014/15 Quarterly	Finance and Administration	C	Replace the legacy Document Management System to ensure it meets Agency-wide and regulatory public records requirements and eliminates redundant archiving systems by December 2015	Determine business requirements incorporating an updated taxonomy	April-2015	System on-line by December 2015	Kanes Pantayathwong	July 2015	On Schedule	Yes	The final workshop on taxonomy, lead by consultant, was held in late May. The draft report was received in late June. Information from this report will help Records Management in developing the requirements for the RFP for ECM software solution.

Goal ID	FY Start	Reporting Required	Division	Bus. Goal	Work Plan	Department Goal	Time Line	KPI	Assigned To	Note Month	Note Year	Status	Complete	Notes
151	FY 2014/15	Once Complete	Agency Management	D	Complete update of the Water Use Efficiency Business Plan by December 2014, the Integrated Resources Plan by October 2014, and the Urban Water Management Plan by June 2016	Create a library of documents to guide the Agency in water-use efficiency, planning and regional development.	Ongoing	Complete documents according to the schedule	Kathryn Besser	July	2015	On Schedule	No	The Integrated Resources Plan completion date has been extended to November 2015 due to additional water supply modeling. The Water Use Efficiency Business Plan cannot be completed until the IRP is done so completion date has been extended to December 31, 2015. The Urban Water Management Plan is on-schedule.
152	FY 2014/15	Once Complete	Agency Management	D	Complete water softener ordinance by December 2014 and continue to reduce salinity and nutrients in recycled water.	Work with the remaining cities to pass the water softener ordinance.	December-2014	Remaining Cities pass ordinances by December 2014	Kathryn Besser	June	2015	Behind Schedule	No	Ended FY14/15 without the remaining three cities passing the water softener ordinance. Will continue working with city staff in FY15/16.
127	FY 2014/15	Annual	Agency Management	B	Ensure staff understands and upholds their role in achieving the Agency's Mission, Vision, and Values	Incorporate the Agency's Mission, Vision and Values into all that we do including: collateral materials, employee newsletter, and creating a document that features the Mission, Vision and Values, posting on the IEUA Website, speaking at an all hands meeting and working with HR to help educate all new staff	Completed by FY 14/15 and Ongoing as new staff come on board.	Create a pre and post survey and send out to staff. This would be done at the end of FY 14/15	Kathryn Besser	June	2015	Behind Schedule	No	Due to staffing challenges, the department has not sent out pre and post surveys to staff. We began the process of updating the poster boards in all Agency facilities and SAWPA to accurately reflect the Agency's Mission, Vision and Values.
138	FY 2014/15	Annual	Agency Management	C	Meet annually with the region's congressional and state delegations to advance key legislation	Build stronger relationships with the local agencies and elected officials here and in DC/Sacramento.	Travel to D.C and Sacramento during FY 14/15	Hold two Lobby Days: Sacramento and D.C.	Kathryn Besser	June	2015	On Schedule	Yes	Lobby Days were held in Sacramento and DC during FY14/15. In addition, two members of Congress took tours and a third hosted a drought workshop in the Event Room; and five members of the Assembly and State Senate went on tours.
141	FY 2014/15	Annual	Agency Management	F	Support legislation to reduce drugs in waterways through take back programs	Support the National Drug Take Back initiatives through various outreach avenues. Work with the Pretreatment and Source Control division on new legislative initiatives that support reducing the amount of pharmaceuticals in the water supply.	Ongoing	Continue to place "No Drugs Down the Drain" ads in local newspapers and on social networking sites; present campaign initiatives at community functions.	Kathryn Besser	June	2015	On Schedule	No	No legislation was introduced during FY14/15 relate to No Drugs Down the Drain; however will continue to work with Source Control and our state and federal delegations to affect change when possible.

44	FY 2014/15 Quarterly	Agency Management	B	Uphold a strong internal control environment by conducting independent objective internal and external audits of Agency finances and operations	Per direction or approval by the Audit Committee and Board, and through coordination with senior management, Internal Audit would identify areas "program audits" or areas for audit where the goal and scope are to measure the performance of a program, a process, or a service or compare results to program goals and identify areas for improvement, and make recommendations to improve efficiencies.	Ongoing and through approved audits as approved through the Annual Audit Plan.	Completed audits and feedback from stakeholders.	Teresa Velarde	July	2015	On Schedule	Yes	Each year, the Manager of Internal Audit is required to complete an Annual Audit Plan, a plan of proposed audit projects. The audit plan is determined based on a Risk Assessment completed using auditor professional judgment and discussions with various Agency key members. The Annual Audit Plan is reviewed and approved by Executive Management, the Audit Committee and the Board of Directors prior to the projects commencing. Projects are determined based on items identified through the Risk Assessment as well as requests from the Board and Executive Management. The most recent Annual Audit Plan was completed and is ready for Board of Directors approval through the Audit Committee in September of 2015.	
	FY 2014/15 Quarterly	Agency Management	B	Develop a plan to conduct a feedback study to measure employee satisfaction by December 2014	Perform a survey of auditee/customer satisfaction at the conclusion of each audit project to gather information about auditor involvement, professionalism, knowledge and ability to communicate to gain information on continuous improvement.	After each completed audit/project.	Feedback from customers.	Teresa Velarde	July	2015	On Schedule	Yes	Completed after each audit. At the conclusion of each audit, IA will perform a survey of auditee/customer satisfaction to gather information about the auditors and the audit process. Additionally, during the course of the audit, IA meets several times with the auditee to maintain the relationship and ensure audit objectives are on track and address any questions or concerns on time.

FY 2014/15 4th Quarter ended June 30, 2015

Goal ID	FY Start	Reporting Required	Division	Bus. Goal	Work Plan	Department Goal	Time Line	KPI	Assigned To	Note Month	Note Year	Status	Complete	Notes
34	FY 2014/15	Quarterly	Agency Management	B	Ensure staff understands and upholds their role in achieving the Agency's Mission, Vision, and Values	<p>Promote a strong control environment by conducting independent, objective audits of Agency operations where the scope of the audits incorporate evaluating that Agency processes and systems comply with the Agency's Mission, Vision, Values, best practice operations, processes and programs, as well as senior management input, as the criteria against which to measure performance and results. Internal Audits are to provide an independent and objective opinion, and feedback on how closely the criteria, Agency policies, procedures, including Mission, Vision and Values are met, followed or understood. Provide recommendations to the appropriate personnel where to address gaps identified. According to the Board-approved Internal Audit Department Charter, Internal auditors must engage in continuing professional education, maintain a very professional judgement in appearance and in fact, uphold the values and requirements set forth by the Institute of Internal Auditors and the International Professional Practices Framework. Internal auditors are required to act with confidentiality, and assist the Agency in meeting its organizational goals through independent assessments. All auditors are working to earn the globally-recognized designation of Certified Internal Auditor.</p>	<p>On-going. Through the audits approved by the Audit Committee and the Board</p>	<p>Feedback from auditees, senior/Executive Management, the Audit Committee Advisor, and the Audit Committee and/or Board of Directors.</p>	Teresa Valardo	July	2015	On Schedule	Yes	Completed and On Going. IA has 3 professional senior-level internal auditors that uphold the values of the Institute of Internal Auditors and the values of IEUA. Internal Audits are to provide an independent and objective opinion, and feedback on how closely the criteria, Agency policies, procedures, including Mission, Vision and Values are met, followed or understood. Provide recommendations to the appropriate personnel where to address gaps identified. According to the Board-approved Internal Audit Department Charter, Internal auditors must engage in continuing professional education, maintain a very professional judgement in appearance and in fact, uphold the values and requirements set forth by the Institute of Internal Auditors and the International Professional Practices Framework. Internal auditors are required to act with confidentiality, and assist the Agency in meeting its organizational goals through independent assessments. All auditors are working to earn the globally-recognized designation of Certified Internal Auditor.
35	FY 2014/15	Quarterly	Agency Management	B	Ensure staff understands and upholds their role in achieving the Agency's Mission, Vision, and Values	<p>Consult and assist all levels of staff, management and Executive Management by providing audit recommendations to improve efficiencies and comply with Agency policies and procedures, as well as for improvement of practices, to strengthen controls, and incorporate best practices. Assist in providing training or coordinating roundtable discussions with the necessary levels of staff.</p>	<p>On-going. Through the audits approved by the Audit Committee and the Board</p>	<p>Feedback from auditees, senior/Executive Management, the Audit Committee Advisor, and the Audit Committee and/or Board of Directors.</p>	Teresa Valardo	July	2015	On Schedule	No	On Going. IA is composed of 3 high-level, professional auditors. According to the Board-approved Internal Audit Department Charter, internal auditors must engage in continuing professional education, maintain a very professional judgement uphold the values and requirements set forth by the Institute of Internal Auditors and the International Professional Practices Framework. Internal auditors are required to act with confidentiality, and assist the Agency in meeting its organizational goals through independent assessments. As part of various audits, IA leads, coordinates and/or facilitates meetings and discussions with several key players in the organization related to an audit issue identified for the purpose of finding resolution or identifying the root cause of any issue. This is done through audit discussions, etc. Auditors are required to attend professional development annually. Training was attended in June.

Goal FY ID	Reporting Required	Division	Bus. Goal	Work Plan	Department Goal	Time Line	KPI	Assigned To	Note Month	Note Year	Status	Complete	Notes
<b>Laboratory</b>													
147	FY 2014/15	Engineering, Planning and Science	B	Promote a safer work environment by administering and monitoring required safety and regulatory trainings	Meet the bi-weekly safety tailgate meeting requirement.	All required topics completed by each December.	Document training	Nel Groenewald	June	2015	On Schedule	Yes	Safety meetings are on track to meet the annual requirement.
<b>Maintenance</b>													
93	FY 2014/15	Operations	E	Ensure reliability of Agency assets by annually implementing the asset management monitoring and assessment program (Asset Management Plan)	Conduct major condition assessments annually	Complete condition n process piping at RP-1 by end of FY14/15 Complete RP-1 headworks condition assessment by end of the second quarter FY14/15	Complete at least five major condition assessments	Francis Concaimino	June	2015	On Schedule	No	Condition assessment of the RP-1 Headworks was completed before end of June 2015.
<b>Operations</b>													
98	FY 2014/15	Operations	F	Strive for 100% use of Agency bi-products by 2021	Ensure all treatment standards are met to maximize availability of recycled water	FY 2014/15	Attain 100% NPDES Compliance	Mat. Melendrez	July	2015	On Schedule	Yes	Based on the Engineering, Planning and Science Department's 2015 Environmental Compliance Incident Report all Operations facilities achieved 100% NPDES Compliance and AQMD Compliance for the 4th Quarter of FY 2014/15.
99	FY 2014/15	Operations	F	Strive for 100% use of Agency bi-products by 2021	Maximize use of biosolids by sending 90% of organics to IERCF	FY 2014/15	Send 90% of organics to IERCF	Mat. Melendrez	July	2015	On Schedule	Yes	Greater than 90% of RP-1 and RP-2 Biosolid loads were sent to IERCF during the 4th Quarter of FY 2014/15.
116	FY 2014/15	Operations	E	Develop a Biosolids Capacity Marketing Plan maximizing material input and output by June 2017	Establish competitive rate to attract at least 10,000 outside tons at fair market value.	Establish rate and obtain Board approval by June 2015	Add >10,000 wet tons per FY beginning FY-15/16	Jeff Ziegenbein	June	2015	On Schedule	Yes	The IERCA board approved a plan and rate to market biosolids and staff executed a contract with OCSO for 13,000 wet tons per year.
101	FY 2014/15	Operations	F	Annually review and update Key Performance Indicators (KPI's) to monitor and comply with all regulatory requirements	Review and update all facility KPI's	FY 2014/15	1 Facility per Quarter	Chander Letulle	July	2015	On Schedule	Yes	Operations KPI's for all facilities were reviewed, standardized and updated. All Operations facility KPI's are monitored daily and reviewed monthly to ensure compliance with regulatory requirements and optimization goals.

Business Goals & Objectives Report By Department

FY 2014/15 4th Quarter ended June 30, 2015

Goal ID	FY Start	Reporting Required	Division	Bus. Goal	Work Plan	Department Goal	Time Line	KPI	Assigned To	Note Month	Note Year	Status	Complete	Notes
102	FY 2014/15	Quarterly	Operations	F	Annually review and update the Emergency Response and Operational Plans for all facilities.	Support Human Resources and Safety Department in the review and update of the Emergency Response and Operational Plans for all facilities.	FY 2014/15	1 Facility per Quarter	Chandler Letulle	July	2015	On Schedule	No	The first Operations Emergency Response plan was completed in June 2015 for RP-1. Operations Emergency Response Plans for the remaining facilities will be completed during FY15/16.
84	FY 2014/15	Quarterly	Operations	D	Develop and implement Recycled Water Peak Demand Management Plan to optimize efficient use of recycled water by June 2015	Develop written RW storage and delivery strategies to meet department forecasts of diurnally variable RW supplies and seasonally variable RW demands.	November-2014	Written strategies and forecasts developed by RW and GWR staff by December 1, 2014	Jason Marsailles	June	2015	Behind Schedule	No	Operational strategies have been implemented to maximize RW delivery from CCWRF to 930 reservoir. Peak RW demand at RP-1 was not experienced until July 2015 where past years this occurred during the month of May. More RW was available during the months of May and June due to more supply created by the expansion of the CCWRF RWPS and the 930 reservoir.
85	FY 2014/15	Quarterly	Operations	D	Develop and implement Recycled Water Peak Demand Management Plan to optimize efficient use of recycled water by June 2015	Develop RW GWR SCADA improvements that implement the storage and delivery strategies by working the DCS Department	May-2015	System Improvement request to DCS Department by March 15, 2015	Jason Marsailles	June	2015	Behind Schedule	No	Work notification has been entered to automate controls between CCWRF 930 RWPS and RP-1 930 RWPS.
86	FY 2014/15	Quarterly	Operations	D	Develop and implement Recycled Water Peak Demand Management Plan to optimize efficient use of recycled water by June 2015	Continue weekly Peak Demand Management Meetings with key operations staff for start of CY2015 Peak Demand season	June 30, 2015	Demand Management meetings scheduled in March 2015	Jason Marsailles	June	2015	On Schedule	No	Weekly meetings are scheduled to review current operations and RW demand patterns. Meetings will continue through the peak season.
78	FY 2014/15	Quarterly	Operations	D	Optimize IEUA's use of potable and recycled water by July 2015	Establish potable and recycled water baseline monitoring plan for all Agency facilities.	FY 2014/15	One facility per quarter	Matt Melendrez	June	2015	On Schedule	No	All regional plants are collecting potable water usage data. The data will be reviewed, charted and regularly updated. Recycled water usage is being monitored at Southern area facilities. Capital improvement projects are on the TYCIP to install flow metering capabilities at RP-1 and RP-4.
78	FY 2014/15	Quarterly	Operations	D	Optimize IEUA's use of potable and recycled water by July 2015	Establish potable and recycled water baseline monitoring plan for all Agency facilities.	FY 2014/15	One facility per quarter	Matt Melendrez	July	2015	On Schedule	No	All regional plants are collecting potable water usage data. The data will be reviewed, charted and regularly updated. Recycled water usage is being monitored at Southern area facilities. Capital improvement projects are on the TYCIP to install flow metering capabilities at RP-1 and RP-4.

# **FY 2014/15 4<sup>th</sup> Quarter Budget Variance Report**

**Board of Directors**

**October 14, 2015  
(Special Board Meeting)**

# Revenue Highlights Actual vs. Amended Budget

## GOOD NEWS...

- ❖ **User Charges** – \$62.9M, 102% of amended budget
  - \$46.7M EDU volumetric fees, 2.3% in EDU growth vs. budgeted 0.25%
- ❖ **Recycled Water Sales** – \$10.0M, 105% of amended budget
  - 34,419 AFY actual vs. 32,000 AFY amended budget
- ❖ **New EDU Connection Fees** - \$15.1M, 98% of amended budget
  - 2,953 new connections compared to budgeted 3,000 units.
- ❖ **Property Tax** – \$40.9M, 102% of amended budget,
  - 5% tax growth vs. budgeted 3% growth
- ❖ **Grants and Loans** - \$26.0M, 115% of amended budget

# Expense Highlights Actual vs. Amended Budget

## GOOD NEWS...

- ❖ **Employment** - \$40.3M, 91% of amended budget
  - Weighted average vacancy factor of 12%, or 32 FTE's, far above the 5% budgeted rate.
- ❖ **Utilities** - \$9.1M, 91% of amended budget
  - *Electricity* higher average rate of \$0.125/kWh vs. \$0.120/kWh budgeted rates, offset by lower consumption
  - *Natural gas* \$0.41/therm vs. \$0.80/therm budgeted rates

# Expense Highlights Actual vs. Amended Budget

- ❖ **Capital Projects** - \$54.8 million, 84% of amended budget
  - Recycled Water projects: \$35.8 million or 65% of the total capital costs
  - Wastewater projects: \$5.5 million or 10%
  - \$8.3 million or 14.5% of the FY 2014/15 CIP amended budget has been carried forward to FY 2015/16
- ❖ **Debt Service** - \$36.1 million, 98% of amended budget
  - \$14.7 million, early redemption of 2005A Revenue Bonds
  - Actual average interest rate for the 2008B Variable Rate Demands was 0.049%, well below the budgeted 1% rate

# FY 2014/15 Q4 Operating & Non-Operating Net Increase/(Decrease) in Millions

	FY 2014/15 Amended Budget	Fiscal Year Ended 6/30/15	Actual % of Amended
<b>Operating</b>			
Operating Revenue	\$117.6	\$118.7	100.9%
Operating Expense	\$134.7	\$119.5	88.7%
<b>Operating Net Increase (Decrease)</b>	<b>(\$17.1)</b>	<b>(\$0.8)</b>	
<b>Non-Operating</b>			
Non-Operating Revenue	\$79.8	\$81.1	101.6%
Non-Operating Expense	\$102.3	\$91.3	89.2%
<b>Non-Operating Net Increase (Decrease)</b>	<b>(\$22.5)</b>	<b>(\$10.2)</b>	

# FY 2014/15 Q4 Ending Fund Balance (\$Millions)

Fund Balance	Amended Annual Budget	Fiscal Year Ended 6/30/15	Actual % of Amended
Total Sources of Funds	\$197.4	\$199.8	101.2%
Total Uses of Funds	\$237.0	\$210.8	88.9%
<b>Total Net Increase/(Decrease)</b>	<b>(\$39.6)</b>	<b>(\$11.0)</b>
