

# Microscopic Pond Life Study

**4th-12th Grade**

*Activity Fact Sheet*

## **Objective**

To introduce students to scientific observation by utilizing microscopes and analyzing microscopic pond life.

## **Overview**

Following an introduction and discussion on pond life, students will use microscopes to view pond samples. Students will obtain and assemble their own specimens and slides. Another discussion on findings will follow.

## **Length of Time**

30-40 minutes

*Water Discovery Field Trip Program*
