

Inland Empire Utilities Agency Water Association Leadership Breakfast

MWD's Capital Improvement Program

Presentation by: Jim Green

Group Manager

Water System Operations

Metropolitan Water District of Southern California

Jim Green will be discussing upcoming MWD shutdowns and the importance of the Metropolitan Water District's Capital Improvement and Maintenance program for regional imported water supplies.

Jim Green is the manager of Water System Operations at the Metropolitan Water District of Southern California. In this capacity, he oversees a staff of 940 employees responsible for operating and maintaining Metropolitan's conveyance, treatment, and distribution facilities; planning and scheduling water deliveries and power operations; ensuring compliance with water quality, safety, and environmental regulations; and, responding to emergencies.
