Subject: RP-1 and RP-4 Generator Retrofits Construction Contract Change Order

Executive Summary:
Regional Plant No. 4 is equipped with a 2,000 kW diesel generator. The generator provides emergency power to the plant in case of a power failure. Big Sky Electric is under contract to upgrade the obsolete Emergency Modular Control Panel (EMCP). During a site walk with the contractor, the generator breaker was found in the failed position with no alarms in Supervisory Control and Data Acquisition System (SCADA) to notify Operations. If there was a power failure at this time, the generator would not provide power to the facility. Also, during the site walk the power cables from the generator, which power the facility in an emergency, were found to be compromised and must be replaced.

Staff negotiated a change order with Big Sky Electric for the not-to-exceed amount of $158,000, to be tracked on time and material. If the entire NTE amount is added to the construction contract, the contract will increase from $175,840 to $333,840 (90% increase). The change order includes replacing the generator power cables, testing of the generator breaker, and renting a temporary backup generator system for an additional two weeks during installation and testing. In addition, a task order, in the amount of $32,000, will be issued to Technical Systems, Inc. (TSI), through IEUA’s Programming Master Services Agreements, to provide Operations the generator’s status on SCADA. These changes will address the safety concern.

Staff's Recommendation:
1. Approve the construction contract change order for the RP-1 and RP-4 Generator Retrofits, Project No. EN22034, to Big Sky Electric, for an additional amount of $158,000, increasing the contract amount to $333,100 (90%);
2. Approve a total project budget augmentation in the amount of $200,000 to the RP-1 and RP-4 Generator Retrofits, Project No. EN22034, increasing the budget from $240,000 to $440,000 in the Regional Operations and Maintenance (10800) Fund; and
3. Authorize the General Manager to execute the change order and total project budget increase, subject to non-substantive changes.

Budget Impact  
Account/Project Name: EN22034 RP-1 and RP-4 Generator Retrofits

If approved, a total project budget augmentation in the amount of $200,000 will increase the RP-1 and RP-4 Generator Retrofits, Project No. EN22034, from $240,000 to $440,000 in the RO (10800) Fund.
Prior Board Action:
On May 18, 2022, the Board of Directors awarded Construction services for RP-1 RP-4 Generator Retrofits, Project No. EN22034, to Big Sky Electric for the not-to-exceed amount of $175,100.

Subject: Preserve Lift Station Improvements Construction Contract Award

Executive Summary:

The Preserve Lift Station was constructed in 2017 by a developer on behalf of the City of Chino to pump wastewater from a new residential tract of homes to the existing Chino Interceptor Sewer in Kimball Avenue. The facility is owned by the City of Chino and operated by Inland Empire Utilities Agency (IEUA) under contract with the City.

The lift station consists of two pumps operated through variable frequency drives (VFDs) and is designed for four pumps at full build-out. Flow rates are anticipated to increase with the construction of proposed developments in the area. This project will install a chopper pump as the station's third pump with a goal of providing increased capacity, redundancy reliability, and reducing rag build-up. The project scope also includes installing a third VFD, programming the existing PLC to accommodate three pumps, and installing air conditioning units for the VFD cabinets.

On November 17, 2022, IEUA received three contractor bids from pre-qualified contractors on the under $2 million list. Tharsos Inc. was the lowest, responsive, responsible bidder with a bid of $781,000. The bid was below the engineer's estimate of $790,000.

Staff's Recommendation:

1. Award a construction contract for the Preserve Lift Station Improvements, Project No. EN23066, to Tharsos Inc., for the amount of $781,000;

2. Approve a total project and FY 22/23 project budget augmentation in the amount of $595,000 to Project No. EN23066 increasing the budget from $455,000 to $1,050,000 in the Regional Operations and Maintenance (10800) Fund; and

Subject: BSS and RSS Manhole Upgrades FY22/23 Construction Contract Award

Executive Summary:
Inland Empire Utilities Agency (IEUA) is responsible for operating and maintaining the Brine Sewer System (BSS) and Regional Sewer System (RSS) throughout the cities of Fontana, Rancho Cucamonga, Ontario, and Chino as well as the unincorporated areas of San Bernardino County. IEUA's collection crews are routinely tasked with maintaining the existing systems, and in doing so, they are required to access numerous manholes that have been in service for many years. Many of the existing manholes are showing signs of deterioration and sulfide damage. To address the deterioration, IEUA implemented a manhole upgrade program that has spanned several fiscal years and is anticipated to continue until all IEUA manholes have been inspected and upgraded, if required.

This project will install 68 pre-purchased manhole frames and covers at various locations within the cities of Chino, Ontario, Rancho Cucamonga, Fontana, and unincorporated San Bernardino County. Four manhole shafts will be relined. All project design was completed in-house. On December 1, 2022, IEUA received three construction bids from pre-qualified contractors on the under $2 million list. Norstar Plumbing and Engineering was deemed the lowest responsible and responsive bidder with a bid price of $413,000. The engineer's estimate was $359,000.

Staff's Recommendation:
1. Award a construction contract for the BSS Manhole Upgrades FY22/23 and RSS Manhole Upgrades FY22/23, Project No's. EN23014 and EN23015, to Norstar Plumbing and Engineering in the amount of $413,000; and
2. Authorize the General Manager to execute the contract, subject to non-substantive changes.

Proposed Means Consulting LLC
Scope of Work for Continued CBP Support Services

This Scope of Work is for an 18-month duration beginning January 2023 and concluding at the end of the 23-24 fiscal year.

**Task 1.0 – CBP Project Meeting Support**

The CBP has an established series of weekly project meetings that Means Consulting LLC is prepared to continue to support through development of agendas, facilitation where appropriate, and meeting follow-up. These meetings include a WSIP team meeting that brings together appropriate IEUA staff, IEUA consultants, and Metropolitan Water District of Southern California staff to coordinate project activities and weekly “check-in” meeting with IEUA staff.

**Task 1.1 - WSIP Team weekly meeting prep, facilitation, and follow-up**

Means Consulting LLC will take primary responsibility for the organization and conduct of these weekly sessions including helping establish agendas, facilitate discussion during the session, and capture/distribute meeting action items at the conclusion of each session. The budget assumes weekly 3-hr meetings (including preparation and follow-up) comprising 26 meetings in the last half of FY 22-23 and 52 meetings in FY 23-24.

**Task 1.2 - WSIP Team check-in call prep, facilitation, and follow-up**

As a prelude to the weekly WSIP Team meeting, there is a “check-in” call conducted between Means Consulting LLC and key IEUA staff to frame agenda items for the full call, strategize where appropriate, and flag any areas requiring follow-on meetings or focused sessions to explore. Means Consulting LLC will take primary responsibility for the organization and conduct of these weekly sessions including helping establish agendas and capture/distribute meeting action items at the conclusion of each session. The budget assumes 1.25-hour meetings (including preparation and follow-up) comprising 26 meetings in the last half of FY 22-23 and 52 meetings in FY 23-24.

**Task 1.3 - CBP general support, meeting planning, and attendance**

During the course of the CBP to date, the need for special meetings has arisen on numerous occasions. These meetings have included focused meetings on outreach, technical matters, project coordination, project strategy, etc. It is anticipated that the need for such periodic meetings will continue. This task item provides the resources to allow Means Consulting LLC to participate in these sessions. Nine such sessions are presumed. The budget assumes 16-hour meetings (including detailed preparation and follow-up) comprising 3 meetings in the last half of FY 22-23 and 6 such meetings in FY 23-24.
Task 2.0 – Draft Agreement Development Support

In order to implement the CBP, numerous agreements will be required stipulating the institutional, governance, engineering, operations, and financial commitments of the parties to the CBP. Means Consulting LLC will have primary responsibility for the completion of technical components of four of the key draft agreements as described in the sub-tasks below. Mr. Means will work collaboratively with IEUA staff and others as appropriate to ensure the project information and intent is accurately reflected in the draft agreements. Means Consulting anticipates that legal staff from the parties will have responsibility for the legal aspects of the agreement. Means Consulting LLC will be available to provide governing body approval support as required.

Task 2.1 - CVWD and FWC draft Term Sheet completion
This task will focus on the completion of draft “Term Sheets”. The Term Sheets are intended to capture the intent of the parties and key points of agreement as a basis for developing detailed and binding agreements. Means Consulting LLC will help organize and prepare for joint meetings with CVWD and FWC. Mr. Means will prepare for the negotiation sessions, provide facilitation services for the session, and provide required follow-up from each session. It is unclear the specific number of meetings that will be required but the budget assumes 12 hours to prepare, facilitate, and follow-up for four joint meetings.

Task 2.2 – Draft CVWD Agreement negotiation sessions prep, facilitation, and follow-up
Means Consulting LLC will help organize and prepare for CVWD detailed agreement meetings. Mr. Means will prepare for the negotiation sessions, provide facilitation services for the session, and provide required follow-up from each session. It is unclear the specific number of meetings that will be required but the budget assumes 12 hours to prepare, facilitate, and follow-up for two meetings in FY 22-23 and three meeting in FY23-24.

Task 2.3 - FWC Agreement negotiation sessions prep, facilitation, and follow-up
Means Consulting LLC will help organize and prepare for FWC detailed agreement meetings. Mr. Means will prepare for the negotiation sessions, provide facilitation services for the session, and provide required follow-up from each session. It is unclear the specific number of meetings that will be required but the budget assumes 10 hours to prepare, facilitate, and follow-up for two meetings in FY 22-23 and three meeting in FY23-24 (it is thought that working through the CVWD detailed agreement first should expedite completion of the FWC agreement).

Task 2.4 - Metropolitan Operating Agreement negotiation sessions prep, facilitation, and follow-up
Means Consulting LLC will help organize and prepare for Metropolitan/IEUA detailed operating agreement meetings. Mr. Means will prepare for the negotiation sessions, provide facilitation services for the session, and provide required follow-up from each session. It is unclear the specific number of meetings that will be required but the budget assumes 16 hours to prepare, facilitate, and follow-up for four meetings in FY 22-23 and two meetings in FY23-24.
Task 3.0 - Project Management

Task 1 – Project Management and Meetings
With any project, effective communication and project management are essential to project success and client satisfaction. Mr. Means is an experienced project manager having managed many dozens of projects over his 42-year career. Mr. Means has a proven track record of consistently delivering projects on time and on budget and is familiar with the expectations and administrative requirements of the Agency.

Throughout the duration of the project, Means Consulting LLC will conduct periodic project meetings or conference calls with Agency staff. He will work with IEUA staff to define the specific topics for each meeting. In general, the meetings will be used to coordinate and guide upcoming activities, to outline activities completed to date and to identify any items that may need to be resolved.

Means Consulting LLC will provide monthly invoices including a description of project activities and provide the needed backup information IEUA may require. Means Consulting LLC is familiar with the IEUA’s accounting and invoicing requirements.

Means Consulting LLC will be responsible for quality review of all deliverables including technical accuracy, consistency, style, grammar and spelling. He will work with IEUA staff to establish the format and style of the deliverables.

Proposed Budget and Schedule

Continued Means Consulting LLC support services for the CBP as outlined in this Scope of work is budgeted at $262,488 including $2,000 of estimated direct costs (see Table 1 below). The services are proposed to begin on January 1, 2023, and conclude on July 1, 2024.

Subject: Centrifuge Service Contract Amendment

Executive Summary:
The Maintenance Unit is responsible for the maintenance, repairs, and reliability of four centrifuges located at Regional Water Recycling Plant No. 1. These centrifuges are highly complex industrial units that require periodic preventive, predictive, and corrective maintenance services. During the solids treatment process, the centrifuges are required daily to dewater the sludge producing reliable, compliant, and cost-effective Class B biosolids. Due to the criticality of these centrifuges, the Maintenance Unit is requesting a longer-term contract.

On February 3, 2021, a Request for Proposal (RFP) RFP-GD-20-005 was posted publicly on PlanetBids for Centrifuge Services and received five RFP bid responses. All bid responses were evaluated, and based on the evaluation, Sentrimax was awarded the contract on April 15, 2021, with a not-to-exceed amount of $90,000. The current contract amount will not be adequate to complete necessary repairs discovered during the course of inspections.

Staff recommends amending the current contract for three, one-year extensions beyond May 1, 2024, and the contract value to be increased by $510,000, increasing the contract value to a not-to-exceed amount of $600,000.

Staff’s Recommendation:
1. Approve a contract amendment for centrifuge services with Sentrimax Centrifuge Inc. for three, one-year extensions in the amount of $510,000, increasing the contract from $90,000 to a not-to-exceed amount of $600,000; and

2. Authorize the General Manager to execute the contract amendment, subject to non-substantive changes.

The Work shall be carried out in accordance with the Contract Documents in a diligent and workman-like manner, utilizing qualified personnel and good and sufficient materials and equipment. Further, Contractor shall perform only those work assignments authorized by Task Orders issued in conjunction with this Contract.

   A. **Ordering Provisions and Understandings:**

   1. **Negotiation of Task Orders:** Agency and Contractor each reserve and retain the right to negotiate the Work, price, and term of any specific Task Order. However, both parties agree that the various proposed labor and expense rates used to develop each Task Order's price shall be consistent with those specified within the Schedule of Rates.

   3. **Task Order Format:** Each Task Order issued under this Master Services Contract shall be of similar form to the Sample Task Order contained in Exhibit C attached hereto – Sample Task Order.

   4. **Task Order Assignment Method:** As the need for work arises, specific Statements of Work will be forwarded to the Contractor in possession of the Master Services Contract. If the Contractor desires to propose for award of the work, the Contractor shall respond no-later-than the specified proposal submittal
date/time, (which shall be not less than 5 working days after solicitation issuance unless the task order is issued as emergency work per section 5 – On Call/Time and Material Protocol/Emergency Task Orders) with submittal of a price and technical proposal (if applicable) to perform the requested services. Each Task Order will designate a specific scope of work, schedule, firm-fixed or not-to-exceed compensation, and other specifications and terms particular to the Work. Upon agreement and execution by both parties, the Task Order will be released, a written notice-to-proceed order will be issued, and the Contractor may then begin performance of the Work provided for under the executed Task Order. Conversely, multiple Task Orders may be issued requiring work in support of concurrent projects.

For any directed, on-call/emergency work, IEUA will direct the Contractor to proceed on time and material at a not-to-exceed cost. Upon completion of work, Contractor will submit all billing at which point, IEUA will prepare a Task Order for the specific cost and work performed. A fully executed Task Order will be required to finalize payment for all on-call/Emergency Task Orders. The Contractor shall be reimbursed the hourly rates as shown in the Proposal Rate/Fee Schedule to perform services awarded under this solicitation.

6. **Completion Timeframe:** Any Task Order executed during the term of this Contract, and not completed within the term of this Contract, shall nevertheless be completed within the time specified in the Task Order. This Contract shall govern the rights and obligations of the parties with respect to that Task Order to the same extend as if it were being completed within the Contract’s term.

7. **Execution:** Each Task Order executed hereunder, including any changes to or terminations of such Task Orders, shall be automatically incorporated into this Contract, and therefore shall be subject to the terms and conditions of this Contract.

As compensation for the Work satisfactorily performed against Task Order releases under this Contract, Agency shall pay Contractor in accordance with Contractor’s approved rate schedule for task orders or, alternately, the established lump-sum or fixed price milestones in the case of firm, fixed price Task Orders. Any additional services/costs must be approved in advance by the Agency’s Contract Administrator and a subsequent Task Order, or Task Order Change Order, for the additional work must be issued and bi-laterally executed. Throughout the term of this Contract, Contractor’s invoices issued in conjunction with Task Orders may be submitted monthly and shall be calculated in accordance with the labor and expense rates specified within Contractor’s Schedule of Rates. Unless a given Task Order establishes its own milestone payment schedule, invoices in conjunction with “firm fixed price” Task Orders shall be submitted upon completion of all Task Order scope requirements as one-time, “lump sum” invoices valued at the total price established for that Task Order.

Agency shall pay the full/approved invoice amount within thirty (30) days following receipt of the invoice. Payment shall be withheld for any service which does not meet the requirements of this Contract or the associated Task Order, until such service is revised, the invoice resubmitted, and accepted by the Project Manager. ACTION ITEM 2C
In August 2022, a Request for Qualifications (RFQ-GD-22-011) was posted to PlanetBids soliciting responses for Groundwater Recharge Master Services contracts. Three proposals were received, and three master service contracts are being requested for a range of Contractor-provided services that are needed to support the physical assets within the 17 groundwater recharge sites and 33 individual groundwater recharge basins within the IEUA service area. Contractors will provide support services at the Agency’s groundwater recharge facilities, on an as-needed basis, that may encompass a wide range of capabilities, such as: trenching, dozer ripping and blading services, earth/soil/silt material windrowing, loading, hauling and disposal, basin floor grading/contouring, concrete services, dewatering/water pumping, abatement/screening, riprap placement/rehabilitation, along with trash management, and other as needed services. Awarding a two-year contract to each of the respondents will help eliminate delays in performing critical and urgent repairs while streamlining the process of initiating planned maintenance activities and basin infiltration restoration projects.

There is no direct impact on IEUA's fiscal year budget as a result of this action. This contract is for work which will be required on various previously-budgeted projects. As such, no separate funding is needed for this contract.
Prior Board Action:

None.

Environmental Determination:
Statutory Exemption

CEQA exempts a variety of projects from compliance with the statute. This project qualifies for a Statutory Exemption as defined in Section 15262 of the State CEQA Guidelines. Future projects implemented under the Master Service Contracts will be subject to environmental evaluation.

   E. Exhibit A - Contractor's Proposal and Standard Hourly Rate Schedule dated September 19, 2022

2. **SCOPE OF WORK AND SERVICES**: Contractor services and responsibilities shall be in accordance with the Agency’s scope of work and services which is attached hereto as Exhibit B and Contractor’s proposal attached as Exhibit A. Contractor shall provide all labor, materials, tools, machinery, equipment, and other items and services necessary to properly perform the work (hereinafter referred to as the “Work”) as set for in each individual Task Order agreed to and released under this Master Services Contract, including exhibits and amendments hereto. The Work shall be carried out in accordance with the Contract Documents in a diligent and workman-like manner, utilizing qualified personnel and good and sufficient materials and equipment. Further, Contractor shall perform only those work assignments authorized by Task Orders issued in conjunction with this Contract.

   A. **Ordering Provisions and Understandings**: 

      1. **Negotiation of Task Orders**: Agency and Contractor each reserve and retain the right to negotiate the Work, price, and term of any specific Task Order. However, both parties agree that the various proposed labor and expense rates used to develop each Task Order’s price shall be consistent with those specified within the Schedule of Rates.

      3. **Task Order Format**: Each Task Order issued under this Master Services Contract shall be of similar form to the Sample Task Order contained in Exhibit C attached hereto – Sample Task Order.

      4. **Task Order Assignment Method**: As the need for work arises, specific Statements of Work will be forwarded to the Contractor in possession of the Master Services Contract. This proposal will be reviewed and, if selected by the Agency, negotiated (if required) to develop mutually-agreed-upon Task Order content and price. Each Task Order will designate a specific scope of work, schedule, firm-fixed or not-to-exceed compensation, and other specifications and terms particular to the Work. Upon agreement and execution by both parties, the Task Order will be released, a written notice-to-proceed order will be issued, and the Contractor may then begin performance of the Work provided for under the executed Task Order. There is neither a maximum nor minimum number of Task Orders that may be issued under this Contract. Further, there is no guarantee that any Task Orders will be released against this Contract. Conversely, multiple Task Orders may be issued requiring work in support of concurrent projects.

5. **On-Call/Emergency Task Orders Protocol**: In some cases, on-call/emergency services may be requested by IEUA. For any directed, on-call/emergency work, IEUA will direct the Contractor to proceed on time and material at a not-to-exceed cost. Upon completion of work, Contractor will submit all billing at which point, IEUA will prepare a Task Order for the specific cost and work performed. A fully executed Task Order will be required to finalize payment for all on-call/Emergency Task Orders. The Contractor shall be reimbursed the hourly rates as shown in the Proposal Rate/Fee Schedule to perform services awarded under this solicitation.

6. **Completion Timeframe**: Any Task Order executed during the term of this Contract, and not completed within the term of this Contract, shall nevertheless be completed within the time specified in the Task Order. This Contract shall govern the rights and obligations of the parties with respect to that Task Order to the same extend as if it were being completed within the Contract’s term.

7. **Execution**: Each Task Order executed hereunder, including any changes to or terminations of such Task Orders, shall be automatically incorporated into this Contract, and therefore shall be subject to the terms and conditions of this Contract.

3. **METHOD OF INSPECTION**: Work performed under this Contract may be required to undergo monthly, weekly, or daily inspections. The Project Manager will be responsible for performance of the inspections. If Contractor fails an inspection, the Project Manager will be responsible for providing a written notice to the Contractor explaining the error and a determination of the urgency for the correction of the error (herein referred to as a “Cure Notice”).
A. Cure Procedure:

1. For a Cure Notice deemed by the Agency to be urgent, Contractor shall correct any error of the Work within three (03) calendar days after Contractor’s receipt of a Cure Notice, as directed by the Project Manager.

If the Project Manager rejects all, or any part of, the Work as unacceptable and agreement to correct such Work cannot be reached without modification to the Contract, Contractor shall notify the Project Manager, in writing, detailing the dispute and the reason(s) for the Contractor’s position. Any dispute that cannot be resolved between the Project Manager and Contractor shall be resolved in accordance with the provisions of this Contract.

B. The Agency may, at any time, make changes to this Contract’s Scope of Work; including additions, reductions, and other alterations to any or all of the Work. However, such changes shall only be made via written amendment to this Contract. The Contract compensation and Schedule of Work and Services shall be equitably adjusted, if required, to account for such changes and shall be set forth within the mutually approved Contract Amendment.

4. **TERM:** The term of this Contract shall extend from the date of the contract execution and terminate on December 31, 2023, unless agreed to by both parties, reduced to writing, and formally incorporated as an amendment to this Contract. Agency hereby reserves the right to exercise two (2) one-year optional extensions to the Contract term. In the event the Agency desires to exercise the Contract extension option provided for in this Section, the Agency shall provide written notice to the Contractor, prior to the expiration of the original Contract term. If such option is exercised, the rates established within the fee schedule shall cease to be effective as of the first day of the “option” term.

5. **SCHEDULE:** Contractor shall complete the Work specified by each Task Order in accordance with the schedule established within said Task Order. All Work shall be fully finished no later than the date specified in said Task Order, unless terminated sooner or extended as provided for herein.

Agency may, at any time, make changes to any Task Order Scope of Work, including additions, reductions, and changes to any or all of the Work, as directed in writing via a Task Order Amendment issued by Agency and executed by both Parties. The Task Order Amendment shall, if warranted, convey any associated change to the established Task Order price and/or schedule.

As compensation for the Work satisfactorily performed against Task Order releases under this Contract, Agency shall pay Contractor in accordance with Contractor’s approved rate schedule for task orders or, alternately, the established lump-sum or fixed price milestones in the case of firm, fixed price Task Orders. Any additional services/costs must be approved in advance by the Agency’s Contract Administrator and a subsequent Task Order, or Task Order Change Order, for the additional work must be issued and bi-laterally executed. Throughout the term of this Contract, Contractor’s invoices issued in conjunction with Task Orders may be submitted monthly and shall be calculated in accordance with the labor and expense rates specified within Contractor’s Schedule of Rates. Unless a given Task Order establishes its own milestone payment schedule, invoices in conjunction with “firm fixed price” Task Orders shall be submitted upon completion of all Task Order scope requirements as one-time, “lump sum” invoices valued at the total price established for that Task Order.

Agency shall pay the full/approved invoice amount within thirty (30) days following receipt of the invoice. Payment shall be withheld for any service which does not meet the requirements of this Contract or the associated Task Order, until such service is revised, the invoice resubmitted, and accepted by the Project Manager. Contractor’s invoices shall include reference to “Contract Number 4600003196” and the associated Task Order Number. G. **Liens:** Contractor shall pay all sums of money that become due from any labor, services, materials or equipment furnished to Contractor on account of said services to be rendered or said materials to be furnished under this Contract and that may be secured by any lien against Agency. Contractor shall fully discharge each such lien at the time performance of the obligation secured matures and becomes due.

H. **Indemnification, Contractor:** Contractor shall indemnify the IEUA, its directors, employees and assigns, and shall defend and hold them harmless from all liabilities, demands, actions, claims, losses and expenses, including reasonable attorneys’ fees, which arise out of or are related to the negligence, recklessness or willful misconduct of the Contractor, its directors, employees, agents and assigns, in the performance of work under this contract.

**Indemnification, Design Professional:** Contractor's Design Professional agrees to indemnify, including the cost to defend, entity and its officers, officials, employees, and volunteers from and against any and all claims, demands, costs, or liability that arise out of, or pertain to, or relate to the negligence, recklessness, or willful misconduct of Design Professional (Contractor) and its employees or agents in the performance of services under this contract, but this indemnity does not apply to liability for damages arising from the sole negligence, active negligence, or willful acts of the IEUA; and does not apply to any passive negligence of the IEUA unless caused at least in part by the Design Professional (Contractor).

I. **Conflict of Interest:** No official of Agency who is authorized in such capacity and on behalf of Agency to negotiate, make, accept or approve, or to take part in negotiating, making, accepting or approving this Contract, or any subcontract relating to services or tasks to be performed pursuant to this Contract, shall become directly or indirectly personally interested in this Contract.

J. **Equal Opportunity:** During the performance of this Contract, Contractor shall not unlawfully discriminate against any employee or employment applicant because of race, color, religion, sex, age, marital status, ancestry, physical or mental disability, sexual orientation, veteran status or national origin.
K. **Extra Work:** If at any time during the Task Order assignment, Contractor receives a direction which Contractor feels is outside the Task Order's Scope of Work, Contractor shall immediately notify Agency’s Project Manager and obtain written direction. The Contractor shall receive no extra compensation for extra work unless Agency receives timely notification of Contractor's opinion that the work is outside of the contracted scope. If the nature of the direction is such that an investigation is required to determine if the work is outside Contractor’s agreed upon scope, Contractor must immediately notify Agency’s Project Manager that the directed work appears to be outside the scope. Contractor shall not receive extra compensation for extra work performed. Extra work performed without authorization shall be at Contractor’s sole cost.

L. **Non-Conforming Work:** Contractor represents that the Work and Documentation shall meet the standard of care of Contractor's profession. For a period of not less than one (1) year after acceptance of the completed Work, Contractor shall, at no additional cost to Agency, correct any and all agreed-to errors in the Work or Documentation, regardless of whether any such errors are brought to the attention of Contractor by Agency, or any other person or entity. Contractor shall within three (3) calendar days, correct any error that renders the Work or Documentation dysfunctional or unusable and shall correct other errors within thirty (30) calendar days after Contractor’s receipt of notice of the error. If the Construction Manager rejects all or any part of the Work or Documentation as unacceptable and agreement to correct such Work or Documentation cannot be reached without modification to the Contract, Contractor shall notify the Construction Manager, in writing, detailing the dispute and reason for Contractor’s position. Any dispute that cannot be resolved between the Construction Manager and Contractor shall be resolved in accordance with the provisions of this Contract.

M. Disputes:

1. All disputes arising out of or in relation to this Contract shall be determined in accordance with this section. Contractor shall pursue the work to completion in accordance with the instruction of Agency’s Construction Manager notwithstanding the existence of dispute. By entering into this Contract, both parties are obligated, and hereby agree, to submit all disputes arising under or relating to the Contract which remain unresolved after the exhaustion of the procedures provided herein, to mediation.

2. Any and all disputes during the pendency of the work shall be subject to resolution by Agency Construction Manager and Contractor shall comply, pursuant to Agency Construction Manager instructions. If Contractor is not satisfied with any such resolution by Agency Project Manager, they may file a written protest with Agency Construction Manager within seven (7) calendar days after receiving written notice of Agency’s decision. Failure by Contractor to file a written protest within seven (7) calendar days shall constitute waiver of protest, and acceptance of Agency Construction Manager’s resolution. Agency’s Construction Manager shall submit Contractor’s written protests to the General Manager, together with a copy of Agency Construction Manager’s written decision, for his or her consideration within seven (7) calendar days after receipt of said protest(s). The General Manager shall make his or her determination with respect to each protest filed with Agency Construction Manager within ten (10) calendar days after receipt of said protest(s). If Contractor is not satisfied with any such resolution by the General Manager, they may file a written request for mediation with the Project Manager within seven (7) calendar days after receiving written notice of the General Manager’s decision.

3. In the event of mediation, the parties hereto agree that there shall be a single neutral Mediator who shall be selected in the following manner:

   b. In the event that none of the names submitted by Contractor are acceptable to Agency, or if for any reason the Mediator selected
Step (a) is unable to serve, Agency shall submit to Contractor a list of five (5) names of persons acceptable to Agency for appointment as Mediator. Contractor shall, in turn, have seven (7) calendar days in which to determine if one such person is acceptable.

4. **Joinder in Mediation/Arbitration:** Agency may join Contractor in mediation or arbitration commenced by an agreement mediator on the Project pursuant to Public Contract Code Sections 20104 et seq. Such joinder shall be initiated by written notice from Agency's representative to Contractor.

11. **OWNERSHIP OF MATERIALS AND DOCUMENTS / CONFIDENTIALITY:** Agency retains ownership of any and all partial or complete reports, drawings, plans, notes, computations, lists, and/or other materials, documents, information, or data prepared by Contractor and/or the Contractor's subcontractor(s) pertaining to this Contract. Said materials and documents are confidential and shall be available to Agency from the moment of their preparation, and Contractor shall deliver same to Agency whenever requested to do so by the Construction Manager and/or Agency. Contractor agrees that same shall not be made available to any individual or organization, private or public, without the prior written consent of Agency. Any reuse of such documents for other than the specific purpose, intended as stated herein, shall be at the sole risk of the user, and without liability or legal exposure to Contractor.

Notwithstanding any provision to the contrary contained in this Contract, Contractor shall retain sole ownership to its preexisting information including but not limited to computer programs, software, standard details, figures, templates and specifications.

When transferring data in electronic media format, Contractor makes no representation as to long term compatibility, usability, or readability of documents resulting from the use of software application packages, operating systems, or computer hardware differing from those used by Contractor at the beginning of the Project.

Because data stored in electronic media format can deteriorate or be modified inadvertently or otherwise without authorization of the data's creator, the party receiving electronic files agrees that it shall perform acceptance tests or procedures within sixty (60) days of receipt, after which Agency shall have deemed to have accepted the data transferred. Any errors detected within the sixty (60) days shall be corrected by Contractor at no additional cost to Agency. Contractor shall not be responsible to maintain documents stored in electronic media format after acceptance by Agency. The original hard copy of the documents containing the professional engineer's seal shall take precedence over the electronic documents.

12. **PUBLIC RECORDS POLICY:** Information made available to Agency may be subject to the California Public Records Act ("CPRA") Government Code Section 6250 et seq. Agency's use and disclosure of its records are governed by this Act. Agency shall use its best efforts to notify Contractor of any requests for disclosure of any documents pertaining to Contractor.
In the event of litigation concerning disclosure of information Contractor considers exempt from disclosure; (e.g., Trade Secret, Confidential, or Proprietary) Agency shall act as a stakeholder only, holding the information until otherwise ordered by a court or other legal process. If Agency is required to defend an action arising out of a CPRA request for any of the information Contractor has marked “Confidential,” “Proprietary,” or “Trade Secret,” Contractor shall defend and indemnify Agency from all liability, damages, costs, and expenses, including attorneys’ fees, in any action or proceeding arising under the CPRA.

13. TITLE AND RISK OF LOSS:
   
A. Documentation: Title to the Documentation shall pass to Agency when prepared; however, a copy may be retained by Contractor for its records and internal use. B. Material: Title to all Material, field or research equipment, and laboratory models, procured or fabricated under the Contract shall pass to Agency when procured or fabricated, and such title shall be free and clear of any and all encumbrances. Contractor shall have risk of loss of any Material or Agency-owned equipment of which it has custody.

1. Proprietary Rights conceived, developed, or reduced to practice by Contractor in the performance of the Work shall be the property of Agency, and Contractor shall cooperate with all appropriate requests to assign and transfer same to Agency.

2. If Proprietary Rights conceived, developed, or reduced to practice by Contractor prior to the performance of the Work are used in and become integral with the Work or Documentation, or are necessary for Agency to have complete enjoyment of the Work or Documentation, Contractor shall grant to Agency a non-exclusive, irrevocable, royalty-free license, as may be required by Agency for the complete enjoyment of the Work and Documentation, including the right to reproduce, correct, repair, replace, maintain, translate, publish, use, modify, copy or dispose of any or all of the Work and Documentation and grant sublicenses to others with respect to the Work and Documentation.

3. If the Work or Documentation includes the Proprietary Rights of others, Contractor shall procure, at no additional cost to Agency, all necessary
licenses regarding such Proprietary Rights so as to allow Agency the complete enjoyment of the Work and Documentation, including the right to reproduce, correct, repair, replace, maintain, translate, publish, use, modify, copy or dispose of any or all of the Work and Documentation and grant sublicenses to others with respect to the Work and Documentation. All such licenses shall be in writing and shall be irrevocable and royalty-free to Agency.

B. No Additional Compensation: Nothing Set forth in this Contract shall be deemed to require payment by Agency to Contractor of any compensation specifically for the assignments and assurances required hereby, other than the payment of expenses as may be actually incurred by Contractor in complying with this Contract.

15. INFRINGEMENT: Contractor represents and warrants that the Work and Documentation shall be free of any claim of trade secret, trade mark, trade name, copyright, or patent infringement or other violations of any Proprietary Rights of any person.

Contractor shall defend, indemnify and hold harmless, Agency, its officers, directors, agents, employees, successors, assigns, servants, and volunteers free and harmless from any and all liability, damages, losses, claims, demands, actions, causes of action, and costs including reasonable attorney's fees and expenses arising out of any claim that use of the Work or Documentation infringes upon any trade secret, trade mark, trade name, copyright, patent, or other Proprietary Rights.

Contractor shall, at its expense and at Agency’s option, refund any amount paid by Agency under the Contract, or exert its best efforts to procure for Agency the right to use the Work and Documentation, to replace or modify the Work and Documentation as approved by Agency so as to obviate any such claim of infringement, or to put up a satisfactory bond to permit Agency’s continued use of the Work and Documentation.

Contractor shall provide all labor, materials, tools, machinery, equipment, and other items and services necessary to properly perform the work (hereinafter referred to as the “Work”) as set for in each individual Task Order agreed to and released under this Master Services Contract, including exhibits and amendments hereto. The Work shall be carried out in accordance with the Contract Documents in a diligent and workman-like manner, utilizing qualified personnel and good and sufficient materials and equipment. Further, Contractor shall perform only those work assignments authorized by Task Orders issued in conjunction with this Contract.

   A. Ordering Provisions and Understandings:

      1. Negotiation of Task Orders: Agency and Contractor each reserve and retain the right to negotiate the Work, price, and term of any specific Task Order. This proposal will be reviewed and, if selected by the Agency, negotiated (if required) to develop mutually-agreed-upon Task Order content and price. Each Task Order will designate a specific scope of work, schedule, firm-fixed or not-to-exceed compensation, and other specifications and terms particular to the Work. Upon agreement and execution by both parties, the Task Order will be released, a written notice-to-proceed order will be issued, and the Contractor may then begin performance of the Work provided for under the executed Task Order. There is neither a maximum nor minimum number of Task Orders that may be issued under this Contract. Further, there is no guarantee that any Task Orders will be released against this Contract. Conversely, multiple Task Orders may be issued requiring work in support of concurrent projects.

6. **Completion Timeframe:** Any Task Order executed during the term of this Contract, and not completed within the term of this Contract, shall nevertheless be completed within the time specified in the Task Order. This Contract shall govern the rights and obligations of the parties with respect to that Task Order to the same extent as if it were being completed within the Contract’s term.

7. **Execution:** Each Task Order executed hereunder, including any changes to or terminations of such Task Orders, shall be automatically incorporated into this Contract, and therefore shall be subject to the terms and conditions of this Contract.

3. **METHOD OF INSPECTION:** Work performed under this Contract may be required to undergo monthly, weekly, or daily inspections. The Project Manager will be responsible for performance of the inspections. If Contractor fails an inspection, the Project Manager will be responsible for providing a written notice to the Contractor explaining the error and a determination of the urgency for the correction of the error (herein referred to as a “Cure Notice”).
A. Cure Procedure:

1. For a Cure Notice deemed by the Agency to be **urgent**, Contractor shall correct any error of the Work within **three (03)** calendar days after Contractor’s receipt of a Cure Notice, as directed by the Project Manager.

However, such changes shall only be made via written amendment to this Contract. The Contract compensation and Schedule of Work and Services shall be equitably adjusted, if required, to account for such changes and shall be set forth within the mutually approved Contract Amendment.

4. **TERM:** The term of this Contract shall extend from the date of the contract execution and terminate on December 31, 2023, unless agreed to by both parties, reduced to writing, and formally incorporated as an amendment to this Contract. Agency hereby reserves the right to exercise two (2) one-year optional extensions to the Contract term. In the event the Agency desires to exercise the Contract extension option provided for in this Section, the Agency shall provide written notice to the Contractor, prior to the expiration of the original Contract term. If such option is exercised, the rates established within the fee schedule shall cease to be effective as of the first day of the “option” term.

5. **SCHEDULE:** Contractor shall complete the Work specified by each Task Order in accordance with the schedule established within said Task Order. All Work shall be fully finished no later than the date specified in said Task Order, unless terminated sooner or extended as provided for herein.
6. **COMPENSATION AND CHANGES:** For the term of this Contract, all labor and expense rates used to develop each Task Order's price shall be consistent with those specified within Consultant's Proposal Schedule of Fees and Rates submitted in response to herein-referenced Request for Qualifications and attached as Exhibit B. Subject Schedule of Fees and Rates shall constitute the firm-fixed fees and rates established for time-and-material Task Order proposals for the entirety of this Contract. Agency may, at any time, make changes to any Task Order Scope of Work, including additions, reductions, and changes to any or all of the Work, as directed in writing via a Task Order Amendment issued by Agency and executed by both Parties. The Task Order Amendment shall, if warranted, convey any associated change to the established Task Order price and/or schedule.

As compensation for the Work satisfactorily performed against Task Order releases under this Contract, Agency shall pay Contractor in accordance with Contractor’s approved rate schedule for task orders or, alternately, the established lump-sum or fixed price milestones in the case of firm, fixed price Task Orders. Any additional services/costs must be approved in advance by the Agency’s Contract Administrator and a subsequent Task Order, or Task Order Change Order, for the additional work must be issued and bi-laterally executed. Throughout the term of this Contract, Contractor’s invoices issued in conjunction with Task Orders may be submitted monthly and shall be calculated in accordance with the labor and expense rates specified within Contractor’s Schedule of Rates. Unless a given Task Order establishes its own milestone payment schedule, invoices in conjunction with “firm fixed price” Task Orders shall be submitted upon completion of all Task Order scope requirements as one-time, “lump sum” invoices valued at the total price established for that Task Order.

Agency shall pay the full/approved invoice amount within thirty (30) days following receipt of the invoice. Payment shall be withheld for any service which does not meet the requirements of this Contract or the associated Task Order, until such service is revised, the invoice resubmitted, and accepted by the Project Manager. Contractor’s invoices shall include reference to “Contract Number 4600003198” and the associated Task Order Number. The Regional Water Recycling Plant No. 4 (RP-4) continues to treat wastewater; however, several components of the treatment process require repair, modifications, and new installations. The purpose of the RP-4 Process Improvements Phase II is to correct previously identified deficiencies not able to be addressed during the Phase I project and miscellaneous defects identified by the Operations and Maintenance staff. Some of the major items consist of reconfiguring the influent pump station, replacing the aeration air control valves, installing a redundant return activated sludge (RAS) pump, among numerous other improvements.

On September 15, 2022, Inland Empire Utilities Agency (IEUA) issued a request for proposals to design consultants listed on PlanetBids. On November 14, 2022, IEUA received two proposals. A selection committee determined that the most qualified consultant was Carollo Engineers Inc., with a design fee of $1,084,943.

Staff's Recommendation:

1. Award a consultant contract for the RP-4 Process Improvements Phase II, Project No. EN20057, to Carollo Engineers Inc., for the not-to-exceed amount of $1,084,943; and

2. Authorize the General Manager to execute the contract, subject to non-substantive changes.
Prior Board Action:
None.

Environmental Determination:
Not Applicable
CEQA determination will be prepared prior to the completion of the final design.

Business Goal:
The RP-4 Process Improvements Phase II Project is consistent with IEUA’s Business Goal of Wastewater Management, specifically the Asset Management and Water Quality objectives that IEUA will ensure that systems are well maintained, upgraded to meet evolving requirements, sustainability managed, and can accommodate changes in regional water use to protect public health, the environment, and meet anticipated regulatory requirements.

Subject: NSNT Sewer Siphon Replacement Construction Contract Award

Executive Summary:

Due to maintenance issues, the existing siphon located in the North System North Trunk Sewer (NSNT) was experiencing a build-up of solids and odors. The project was launched to relocate the sewer and associated siphon to Hellman Avenue in order to provide a long-term solution to the odor-related issues. The project scope includes installing approximately 3,369 linear feet of 12" sewer pipeline along Hellman Avenue between 5th Street and 8th Street in Rancho Cucamonga. The project will also abandon the siphon while filling it with grout.

On December 1, 2022, Inland Empire Utilities Agency (IEUA) received four bids from pre-qualified general contractors. Ferreira Construction Co. was the lowest, responsive, responsible bidder with a bid of $2,686,640. The bid was above the Engineer's estimate of $2,000,000.

During design, a conflict with an existing 2" gas line was identified on Hellman Avenue. To facilitate construction, IEUA decided to relocate the gas line which increased overall project costs. A budget increase in the amount of $1,387,853 is being requested to account for the total estimated project cost.

Staff's Recommendation:

1. Award a construction contract for the NSNT Sewer Siphon Replacement, Project No. EN20064, to Ferreira Construction Co., for the amount of $2,686,640;

2. Approve a total project budget augmentation in the amount of $1,387,853 to the NSNT Sewer Siphon Replacement, Project No. EN20064, increasing the budget from $3,112,147 to $4,500,000 in the Non-Reclaimable Wastewater (10500) Fund; and

3. Authorize the General Manager to execute the construction contract and budget augmentation, subject to non-substantive changes.

Budget Impact  Budgeted (Y/N): Y  Amendment (Y/N): Y  Amount for Requested Approval: $1,387,853

Account/Project Name:
EN20064/NSNT Sewer Siphon Replacement

Fiscal Impact (explain if not budgeted):

If approved, a total project budget augmentation the amount of $1,387,853 will increase the NSNT Sewer Siphon Replacement budget, Project No. EN20064, from $3,112,147 to $4,500,000 in the Non-Reclaimable Wastewater (10500) Fund.
Prior Board Action:
On October 21, 2020, the Board of Directors approved the consulting engineering services contract for NSNT Sewer Siphon Replacement, Project No. EN20064, to Michael Baker International in the not-to-exceed amount of $241,130; and

On October 20, 2021, the Board of Directors approved the collectible work agreement with the So. Cal. Gas Company to relocate an existing 2" gas line in the amount of $390,156.10.

Environmental Determination:
Statutory Exemption
CEQA exempts a variety of projects from compliance with the statute. This project qualifies for the Common Sense Exemption as defined in Section 15061(b)(3) of the State CEQA Guidelines.

Business Goal:
The NSNT Sewer Siphon Replacement Project is consistent with IEUA’s Business Goal of Environmental Stewardship, specifically safeguarding public health and the environment. Staff will control odors at all Agency facilities for the purpose of improving the environment and being a good neighbor to the local community.

Executive Summary:
Annually, the Inland Empire Utilities Agency (IEUA) prepares a comprehensive regional Water Use Efficiency (WUE) programs report that captures all activities over the previous fiscal year. This report tracks program activity over FY 2021/22 and the progress achieved toward meeting the goals and objectives outlined in IEUA’s Urban Water Management Plan (FYs 2020-2025). Customer Agencies receive a regional WUE summary, service-area-specific data, and activity that provides the foundation for regulatory compliance with the State WUE Regulatory Framework. Moreover, the report serves as a benchmark for assessing and evaluating overall program performances for planning existing and future programs. IEUA currently offers a portfolio of regional WUE programs for its Customer Agencies designed to impact long-term, water-wise behaviors and practices. Over the last fiscal year, approximately 4,593 water-saving technologies/services were deployed throughout the service area, representing an estimated annual water savings of 451 acre-feet with a lifetime savings of 3,488 acre-feet.

Staff's Recommendation:
This is an informational item for the Board of Directors to receive and file.
