

FREE EDUCATION PROGRAMS

2023-2024 School Year

Join us for the exciting return of the

Inland Empire Utilities Agency's in-person Education programs!

Water Discovery Field Trip Program

Our Water Discovery Field Trip Program is catered to students K-12th grade! Join us for a guided nature walk through the Chino Creek Wetlands and Educational Park. The park is filled with exciting wildlife, educational elements and a variety of California native plants. In addition to fun filled activities that align with Science, Technology, Engineering, Art, Mathematics (STEAM) and Common Core standards, students will learn how they can be an environmental steward and help to preserve one of the Earth's most valuable resources—water! Busing grants may be available.

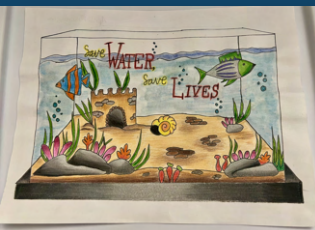

Earth Day 2024

Earth Day 2023 was a huge success! Join us in April 2024 for the Agency's annual Earth Day celebration hosted in partnership with the City of Chino. Students and families will have the opportunity to participate in educational activities, animal encounters, giveaways, and more!

Student Day and Community Day dates to be announced.

Annual Student Art Poster Contest

Using the theme "Being waterwise is...", students K-12 are invited to create an art poster depicting various water uses, ways to use water more efficiently or water conservation topics. 2024 poster submission deadline to be announced. Entries accepted via Dropbox or drop-offs.
