## Regional Sewerage Program Policy Committee Meeting

### MINUTES OF THE APRIL 3, 2025 MEETING

#### **CALL TO ORDER**

A meeting of the Inland Empire Utilities Agency (IEUA)/Regional Sewerage Program (RSP) Policy Committee was held on Thursday, April 3, 2025, at 6075 Kimball Avenue, Building A, Chino, California.

Chair Peter Rogers/City of Chino Hills called the meeting to order at 3:31 p.m. Recording Secretary Yvonne Taylor established a quorum was present. Chair Rogers led the Pledge of Allegiance.

#### **Committee Members Present:**

Curtis Burton	City of Chino
Peter Rogers	City of Chino Hills
Phillip Cothran	City of Fontana
John Dutrey	City of Montclair
Paul Leon (Alternate)	City of Ontario
Bill Velto	City of Upland
Randall Reed	Cucamonga Valley Water District (CVWD)
Steven J. Elie	Inland Empire Utilities Agency (IEUA)

#### **Others Present:**

Greg Baird	Black & Veatch
Ann Bui	Black & Veatch
Hye Jin Lee	City of Chino
Ben Orosco	City of Chino
Courtney Jones	City of Ontario
Nicole deMoet	City of Upland
Amanda Coker	CVWD
Chris Robles	Fair Ontario

Alyson Piguee	IEUA
Travis Sprague	IEUA
Yvonne Taylor	IEUA
Marco Tule	IEUA
Justin Scott-Coe	Monte Vista Water District
Todd Priest	Consultant
Ray Smith	Unknown

**PUBLIC COMMENTS**

Chris Robles, Fair Ontario addressed the Policy Committee expressing concerns about the level of questioning by the City of Ontario regarding the transparency of the rate increase process and the lack of public workshops in Ontario. He suggested that customer agencies go into communities to explain rate increases.

Carlos Rodriguez, Building Industry Association of Southern California addressed the Policy Committee expressing gratitude to IEUA and the customer agencies for their continued collaboration with the construction industry.

**ADDITIONS TO THE AGENDA**

General Manager (GM) Shivaji Deshmukh suggested that the Committee consider reordering the agenda to hear Information Item 3B, the Ten-Year Sewer Capital Forecast presentation, prior to consideration of Action Item 2B.

The Committee discussed and approved the change to the agenda.

**1. TECHNICAL COMMITTEE REPORT**

Hye Jin Lee/City of Chino provided an update on the March 27 Technical Committee meeting, noting the various updates the Committee heard and indicated that the Committee did not take action on the Proposed Rates.

**2. ACTION ITEM****A. APPROVE MINUTES OF THE MARCH 6, 2025 POLICY COMMITTEE MEETING**

**Motion:** By Committee member John Dutrey/City of Montclair and seconded by Committee member Bill Velto/City of Upland, the Committee approved the meeting minutes of the March 6, 2025 Regional Policy Committee Meeting by the following vote:

Ayes: Burton, Cothran, Dutrey, Leon, Reed, Rogers, Velto

Noes: None  
Absent: None  
Abstain: None

The motion passed by a vote of 7 ayes, 0 noes, and 0 absent.

### **3. INFORMATION ITEM**

#### **B. TEN-YEAR SEWER CAPITAL FORECAST FISCAL YEAR 2025/26 – FISCAL YEAR 2026/27 (POWERPOINT)**

Travis Sprague/IEUA provided the presentation.

Committee member Randall Reed/CVWD inquired how much would be spent at each facility. He stated that RP-1's thickening building and acid phase digester represents changing conditions and service growth.

Committee member Dutrey inquired if the ten-year plan included all of the improvements needed at Agency facilities or if there were additional improvements needed within the next ten years that were not included. Mr. Sprague confirmed that all known improvements have been included.

### **2. ACTION ITEM**

#### **B. RECOMMEND THE IEUA BOARD OF DIRECTORS APPROVE THE PROPOSED RATES AND FEES FOR THE REGIONAL WASTEWATER PROGRAM**

Randy Lee/IEUA and Ann Bui/Black & Veatch provided the presentation.

Committee member Velto inquired if the Agency could determine how much tax revenue is being contributed by each city or agency.

Discussion ensued regarding the allocation of property tax revenue. Committee member Velto inquired about why the Agency was not billing residents directly. GM Deshmukh responded that the equivalent dwelling unit (EDU) rates are applied through the Agency's sewer collection and then incorporated into the EDU rate.

Discussion ensued regarding the rate study, and that their staff have not had adequate time to fully review the study.

Committee member Velto inquired about the original date the rate study was to be received. GM Deshmukh replied that two years ago, the same schedule for the rate increase recommendations was conducted, and the process is currently the same now.

Committee member Elie/IEUA commented on the rate setting process and the role of the IEUA Board.

Committee member Cothran/City of Fontana noted that the City of Fontana needs to receive the approved rates by May 1, 2025, to place the rate increase on the property tax bills. However, he would like the process to be fully vetted before a decision is made.

**Motion:** By Committee member Dutrey/City of Montclair, to recommend to the IEUA Board of Directors to approve the proposed fiscal years 2025/26 and 2026/27 rates and fees for the Regional Wastewater Program.

The motion failed for the lack of a second.

As requested at the May 1, 2025 Policy Committee meeting, Committee member Debra Dorst-Porada/City of Ontario asked for the following to be included in the minutes:

*The meeting minutes do not capture material points of discussion on the rate increase. For example, concerns regarding the Chino Basin Program, multiple agency requests for adequate time to review the rate study, request related to direct billing by IEUA, questions and answers on why there was not a five-year rate study as planned, and the Mayor of Ontario's response to Director Elie's take on the role of the IEUA Board and the Policy Committee.*

At the same meeting, Committee member Velto requested that the minutes reflect his request for IEUA direct billing.

### **3. INFORMATION ITEM**

#### **A. GRANTS SEMI-ANNUAL UPDATE (WRITTEN)**

Alyson Piguee/IEUA provided the update.

### **4. RECEIVE AND FILE ITEM**

*Item 4A was received and filed by the Committee.*

#### **A. BUILDING ACTIVITY REPORT**

### **5. OTHER BUSINESS**

#### **A. IEUA GENERAL MANAGER'S UPDATE**

GM Deshmukh reiterated IEUA's commitment to supporting the customer agency's through their Proposition 218 process and offered to attend their Council and Board meetings to speak about IEUA.

GM Deshmukh noted that IEUA staff has been notified that several committee members will not be available for the next regularly scheduled meeting on May 1. He asked others to confirm their attendance and suggested that the Committee discuss rescheduling the meeting.

#### **B. COMMITTEE MEMBER REQUESTED AGENDA ITEMS FOR NEXT MEETING**

Committee member Velto noted that the Agency was reviewing the possibility of switching to direct customer billing and requested an update on the review.

GM Deshmukh responded that the presentation addressing the concepts of direct billing or adding charges directly to the property tax bills could be presented again to the Policy committee. Committee member Elie requested an update on this item within the next six months.

**C. COMMITTEE MEMBER COMMENTS**

Committee member Cothran asked to adjourn the meeting in honor of Deputy Hector Cuevas Jr. who was a resident of the region.

Committee member Burton/City of Chino thanked GM Deshmukh and Committee member Elie for taking the time to meet with him and City staff on the proposed rates.

Committee member Dutrey expressed his gratitude to GM Deshmukh and IEUA Board President Marco Tule for taking the time to meet with him and the City Manager.

**D. NEXT MEETING – MAY 1, 2025**

**ADJOURNMENT**

Chair Rogers adjourned the meeting at 5:29 p.m. in memory of San Bernardino County Sheriff Deputy Hector Cuevas Jr.

## Regional Sewerage Program Policy Committee Meeting

### MINUTES OF THE MAY 1, 2025 MEETING

#### **CALL TO ORDER**

A meeting of the Inland Empire Utilities Agency (IEUA)/Regional Sewerage Program (RSP) Policy Committee was held on Thursday, May 1, 2025, at 6075 Kimball Avenue, Building A, Chino, California.

Vice Chair Curtis Burton of the City of Chino called the meeting to order at 3:33 p.m. Recording Secretary Yvonne Taylor confirmed that a quorum was present. Committee member Randall Reed/Cucamonga Valley Water District (CVWD) led the Pledge of Allegiance.

#### **Committee Members Present:**

Curtis Burton	City of Chino
Peter Rogers	City of Chino Hills
Phillip Cothran	City of Fontana
Xavier Mendez	City of Montclair
Debra Porada	City of Ontario
Bill Velto	City of Upland
Randall Reed	Cucamonga Valley Water District (CVWD)
Marco Tule	Inland Empire Utilities Agency (IEUA)

#### **Others Present:**

Hye Jin Lee	City of Chino
Ben Orosco	City of Chino
Ron Craig	City of Chino Hills
Chad Nishida	City of Ontario

**PUBLIC COMMENTS**

There were no public comments.

**ADDITIONS TO THE AGENDA**

There were no additions to the agenda.

**1. TECHNICAL COMMITTEE REPORT**

Ron Craig/City of Chino Hills stated that at the April 24 Technical Committee meeting, the Committee discussed RP-1 concerns, received a presentation on the proposed biennial budget for Fiscal Years 2025/26 and 2026/27, heard the monthly report from the BAR Subcommittee, and a request for a future agenda item was received from the City of Ontario regarding a sewer connection application. IEUA staff responded by providing a written outline of the requirements.

**2. ACTION ITEM****A. APPROVE MINUTES OF THE APRIL 3, 2025 POLICY COMMITTEE MEETING**

Committee member Debra Porada/City of Ontario stated her concerns regarding the minutes and provided topics that she requested to be included in the minutes.

General Manager Shivaji Deshmukh stated staff would review the record and requested to determine the committee's direction.

**Motion:** No motion was made.

The Committee members requested changes be made to the April 3, 2025 meeting minutes and the item brought back for approval at the next meeting.

**3. INFORMATION ITEM****A. TEN-YEAR SEWER CAPITAL FORECAST FISCAL YEAR 2025/26 – FISCAL YEAR 2026/27 (WRITTEN)**

Travis Sprague/IEUA provided the presentation.

Discussion ensued regarding the project list in the capital forecast and identifying the project driver that determines the percentage. Mr. Sprague defined the difference between capital and operations. Capital projects include any improvement, construction, or acquisition of any asset, whereas an operational project is made towards day-to-day operations.

**B. REVIEW OF PROPOSED BIENNIAL BUDGET FOR FISCAL YEARS 2025/26 AND 2026/27 FOR REGIONAL WASTEWATER PROGRAMS (WRITTEN/POWERPOINT)**

Paula Hooven/IEUA and Randy Lee/IEUA provided the presentation.

Discussion ensued regarding expenses, projected expenses, debt recovery, proposed debt, and debt service.

Committee member Porada asked how much total debt IEUA currently has. Ms. Hooven stated she would provide a follow-up. General Manager Deshmukh suggested bringing a presentation back to the Policy Committee that provides information regarding IEUA's debt profile and wastewater program considerations.

Committee member Xavier Mendez/City of Montclair added his concerns and addressed the reasons for the City of Montclair's inability to support the proposed rates at the April Policy Committee meeting. Committee member Mendez stated that a joint letter from the City of Chino, City of Ontario, Monte Vista Water District, and the City of Montclair was sent on March 28, 2025 that included questions related to the rate increases.

**4. RECEIVE AND FILE ITEM**

*Item 4A was received and filed by the Committee.*

**A. BUILDING ACTIVITY REPORT**

**5. OTHER BUSINESS**

**A. IEUA GENERAL MANAGER'S UPDATE**

There were no GM comments.

**B. COMMITTEE MEMBER REQUESTED AGENDA ITEMS FOR NEXT MEETING**

Committee member Porada requested a presentation on the updates to the Chino Basin Program.

Committee member Velto requested that staff return with findings regarding the separate billing of the additional fees.

Committee member Reed inquired about the electrical cost and the fixed cost of solar. GM Deshmukh stated that staff will bring a presentation to the Policy Committee regarding the renewable and energy portfolio related to wastewater treatment plants.

**C. COMMITTEE MEMBER COMMENTS**

Vice Chair Burton requested a workshop with IEUA and all the agencies to address questions.

**D. NEXT MEETING – JUNE 5, 2025**

**ADJOURNMENT**

Vice Chair Burton adjourned the meeting at 4:32 p.m.

DRAFT

**ACTION ITEM**

**2B**

---

Date: May 29, 2025 and June 5, 2025

To: Regional Sewerage Technical and Policy Committees

From: Inland Empire Utilities Agency

Subject: Recommend the IEUA Board of Directors Adopt the Fiscal Year 2025/26 – Fiscal Year 2034/35 Ten-Year Sewer Capital Forecast

---

## **RECOMMENDATION**

Staff recommends that the Regional Technical and Policy Committees recommend the IEUA Board of Directors adopt the Fiscal Year 2025/26 through Fiscal Year 2034/35 Ten-Year Sewer Capital Forecast.

## **BACKGROUND**

Pursuant to Section 9A of the Regional Sewage Service Contract and Ordinance No. 114, IEUA will submit a subset of the Ten-Year Capital Improvement Plan, the Ten-Year Sewer Capital Forecast (TYSCF), to the Regional Technical Committee and Policy Committee (Committees) for recommendation to the IEUA Board of Directors. The TYSCF long-term financial planning document includes wastewater flow forecasts, a description of planned wastewater capital projects, plant capacities, and proposed capital project spending in the Regional Wastewater Programs; more specifically, the Regional Wastewater Capital Improvement (RC) and the Regional Wastewater Operations (RO) funds. Capital projects include the acquisition, improvement, construction, and expansion of the Regional System.

The TYSCF ensures continued operational efficiency and sustainability. The TYSCF is a tool for IEUA to anticipate and address future needs, such as aging infrastructure rehabilitation and replacement, more stringent environmental regulations, and service area growth. These primary drivers guide the decision-making process. To take advantage of a diverse array of funding and financing options, a long-term financial plan is required: options range from new debt issuance, low-interest state and federal loans, and grant programs. Additionally, the Agency leverages revenue streams such as development connection fees, property taxes, and rates to fund capital projects.

The Committees' review and recommendation authority applies to the Regional Wastewater Programs that affect future demands. The TYSCF was presented to the Committees as an informational item twice prior to today's recommendation: once at the March/April 2025 Committee Meetings and again at the April/May 2025 Committee Meetings.

The proposed TYSCF for Fiscal Year (FY) 2025/26 through FY 2034/35 is \$1.14 Billion.

From: Inland Empire Utilities Agency

Subject: Recommend the IEUA Board of Directors Adopt the Fiscal Years 2025/26 and 2026/27 Proposed Biennial Budget for Regional Wastewater Programs

---

### **RECOMMENDATION**

Staff recommends that the Regional Committees recommend the IEUA Board of Directors Adopt the proposed Biennial Budget for Fiscal Years (FYs) 2025/26 and 2026/27 for the Agency's Regional Wastewater Capital Improvement fund and the Regional Wastewater Operations and Maintenance fund.

### **BACKGROUND**

#### **Fiscal Years 2025/26 and 2026/27 Proposed Biennial Budget**

The proposed budgets for the Regional Wastewater Capital and Regional Wastewater Operations and Maintenance programs were presented to the Regional Technical Committee on April 24, 2025 and to the Regional Policy Committee on May 1, 2025, as an informational item pursuant to the Regional Sewage Service Ordinance No. 114 and the Regional Sewage Service Contract.

As of May 15, 2025, no recommendations to the proposed Biennial Budget or Ten-Year Sewer Capital Forecast (TYSCF) had been received from the Regional Technical or Regional Policy Committees.

The Agency has adopted two-year rates for the Regional Wastewater Program for FYs 2025/26 and 2026/27. This interim rate-setting approach provides the necessary time to complete the California Association of Sanitation Agencies (CASA) flow and load study, which will inform updated assumptions used to define an Equivalent Dwelling Unit (EDU). The results of the CASA study are expected to directly influence both monthly EDU rates and wastewater connection fees. During this two-year period, the Agency will also evaluate key factors such as construction costs, ongoing supply chain disruptions, evolving environmental regulations, and uncertainties surrounding federal funding each of which has a direct impact on the TYSCF.

The adopted EDU connection fee will remain at its current level for FYs 2025/26 and 2026/27, providing predictability for development planning and budgeting. However, the monthly EDU rate will be adjusted annually to account for increased operational expenses, refurbishment of essential infrastructure, cybersecurity enhancements, and other critical needs within the Regional Wastewater Operations & Maintenance fund. These adjustments ensure continued financial

sustainability of the program until the next comprehensive cost-of-service study is conducted, which will establish updated rates and fees effective FY 2027/28. Table 1 below summarizes the adopted rates and their effective dates.

**Table 1: Adopted Regional Wastewater EDU Volumetric and EDU Connection Fee Rates**

Program	Rate Description	FY 2024/25 Current	FY 2025/26 Adopted	FY 2026/27 Adopted
Effective Date		07/01/2024	07/01/2025	07/01/2026
Regional Wastewater Capital	Wastewater Connection Fee	\$8,620	\$8,620	\$8,620
Regional Wastewater Operations & Maintenance	Monthly EDU	\$24.79	\$27.02	\$29.45

### **FY 2025/26 and 2026/27 Key Budget Assumptions**

#### **Property Tax Re-Allocation**

The current property tax allocation was approved by the Board of Directors. This allocation between programs was designed with the primary objective of expanding and maintaining Agency facilities and infrastructure. A fixed percentage was allocated to the Regional Wastewater Capital Improvement (Wastewater Capital), Regional Wastewater Operations & Maintenance (Wastewater Operations), Recycled Water, Administrative Services, and Water Resources funds, as detailed in Table 2.

As summarized in Table 2, The 65% allocation for Wastewater Capital will remain unchanged, with fixed annual amounts designated for the other funds. For FY 2025/26, proposed adjustments include a property tax shift, which reduces the allocation from the Water Resources fund from 3.5% to 1.5%, while increasing the allocation to the Recycled Water program from 4% to 6%. This adjustment is intended to help keep rates low for the Recycled Water program. Any amounts received in excess of the fixed allocations will be directed to the Recycled Water fund to support project and debt service costs associated with the replacement and expansion of regional recycled water facilities.

**Table 2: Property Tax Allocation by Fund (\$ Millions)**

Fund	Purpose	Current Allocation	FY 2024/25 Projection	Proposed Re-Allocation	FY 2025/26 Proposed	FY 2026/27 Proposed
Regional Wastewater Capital Improvement	Supports debt service costs for acquisition, improvement, replacement, and expansion of regional wastewater facilities	65.00%	\$53.3	65.00%	\$60.1	\$62.2

Fund	Purpose	Current Allocation	FY 2024/25 Projection	Proposed Re-Allocation	FY 2025/26 Proposed	FY 2026/27 Proposed
<b>Regional Wastewater Operations &amp; Maintenance</b>	Supports capital replacements and rehabilitation cost and any operation costs not fully recovered by rates	23.00%	\$20.6	23.00%	\$21.3	\$22.0
<b>Administrative Services</b>	Supports agencywide costs not allocated to other Agency funds	4.50%	\$4.0	4.50%	\$4.1	\$4.3
<b>Recycled Water</b>	Supports debt service costs for acquisition, improvement, replacement, and expansion of regional recycled water facilities	4.00%	\$3.6	6.00%	\$5.5	\$5.7
<b>Water Resources</b>	Supports regional water supply strategies	3.50%	\$3.1	1.50%	\$1.4	\$1.4
<b>Total</b>		<b>100%</b>	<b>\$84.6</b>	<b>100%</b>	<b>\$92.4</b>	<b>\$95.6</b>

### Agency Workforce

The Agency has developed a long-term staffing plan to ensure it maintains the appropriate staffing levels needed to achieve the Agency objectives, serve the region, and optimize organizational development and effectiveness.

The Agencywide staffing plan proposes 375 positions (373 authorized full-time and two limited term employees) for FY 2025/26 and 387 positions (386 full time and one limited term employee) for FY 2026/27. The proposed increase in staffing levels is crucial for the Agency's continued success and ability to meet the growing demands of our operations. This increase will allow for the recruitment of positions essential in advancing Agency initiatives such as wastewater treatment and supply, planning and project management, cyber security and safety, and workforce development. The plan aligns with the Agency's strategic goals, ensuring effective resource management and delivering high-quality services to the expanding region.

### Regional Wastewater Program

In accordance with the Regional Sewage Service Ordinance No. 114 and the Regional Sewage Service Contract, the Regional Wastewater Program consists of two funds; the Wastewater Capital fund and the Wastewater Operations fund, components of each fund are shown below in Table 3.

**Table 3: Regional Wastewater Program Components**

Description	Wastewater Capital	Wastewater Operations
The Agency's regional wastewater system purpose	Acquisitions, construction, improvement, and expansion.	Collection, treatment, and disposal of domestic sewage treatment, capital replacement and rehabilitation costs, and organics management.
Primary Revenues & Other Funding Sources	New EDU* connection fees, property taxes, debt proceeds, and grant receipts.	Monthly EDU* sewer rate, property taxes, debt proceeds, and contract reimbursements.
Primary Expenses and Other Uses of Funds	Capital project costs, debt service, and program support.	O&M costs include employment, chemicals, utilities, materials & supplies, and Replacement & Rehabilitation project costs.

\*EDU = Equivalent dwelling unit is the estimated discharge from a single-family residence.

### **Regional Wastewater Capital Improvement Fund (Wastewater Capital Fund)**

Total revenues and other funding sources in the Wastewater Capital fund are projected to be \$165.8 million for FY 2025/26 and \$137.2 million for FY 2026/27. For FY 2025/26, debt proceeds include \$17.0 million of State Revolving Fund (SRF) loan proceeds and \$53.5 million in Water Infrastructure Finance and Innovation Act (WIFIA) loan proceeds will be used to support the construction of the RP-1 Solids Thickening Building & Acid Phase Digester, RP-5 Expansion, and Carbon Canyon Water Recycling Facility Improvements. WIFIA proceeds for FY 2026/27 are \$35.0 million. Table 4 summarizes the major funding sources for the Regional Wastewater Capital Improvement Fund.

New EDU connections are projected to be 3,200 for FY 2025/26 and 3,100 for FY 2026/27. These projections are lower than the sewage customer agencies forecast of 9,046 and 8,349 units for FY 2025/26 and FY 2026/27, respectively. While the Agency applies to sewage customer agencies growth forecasts to plan for future expansion of its facilities, a lower growth forecast is applied to revenue forecasts. This conservative approach ensures facilities are ready to meet the increased service demands from future growth and provides flexibility in financing options. Revenues from wastewater connection fees are estimated at \$27.6 million in FY 2025/26, and \$26.7 million in FY 2026/27. Projected connections and rates are shown in Appendix Table A2.

Property tax receipts allocated to the Wastewater Capital fund help to support annual debt service costs and capital project expenditures. Property tax revenue projections for the biennial budget years assume an annual increase of 3.0 percent each fiscal year based on prior year actual receipts. Revenues are estimated at \$60.1 million in FY 2025/26, and \$62.1 million in FY 2026/27.

**Table 4: Wastewater Capital Fund Major Funding Sources**

Major Funding Sources (\$Millions)	FY 2025/26 Proposed	FY 2026/27 Proposed	Key Assumptions
Wastewater Connection Fees	\$27.6	\$26.7	No change to the EDU connection fee of \$8,620 for FYs 2025/26 and 2026/27. Projected new EDU connections are 3,200 and 3,100, respectively.
Property Tax	60.1	62.1	No change to the 65% annual allocation of total property taxes to the Wastewater Capital fund for both fiscal years.
Debt and Grant Proceeds	70.5	35.0	SRF and WIFIA loan proceeds for the RP-1 Solids Thickening Building, RP-5 Expansion, and various other projects.
Inter-Fund Transfers and Other	7.6	13.4	Interfund loan repayment from the Recharge Water fund, inter-fund transfers from the Wastewater Operations & Maintenance fund for its share of the RP-5 Expansion, RP-1 Solids Treatment Rehabilitation, and the CCWRF* Asset Management Improvement projects, and interest revenues.
<b>Total</b>	<b>\$165.8</b>	<b>\$137.2</b>	

\*CCWRF- Carbon Canyon Water Recycling Facility

Total expenses and other uses of funds are \$331.3 and \$139.6 for FY 2025/26 and FY 2026/27, respectively. Capital projects in the Ten-Year Capital Improvement Plan represent approximately 70 percent of the proposed budget for each fiscal year (the \$196.4 of 2020B Revenue Note debt service in FY 2025/26 is excluded from the total for this calculation), with \$94.0 million in capital project costs budgeted in FY 2025/26 and \$92.5 million in FY 2026/27. Table 5 summarizes the major uses of funds for both fiscal years.

### ***Wastewater Capital Fund Balance***

The Wastewater Capital Fund ending fund balance for FY 2025/26 is estimated at \$333.4 million, and \$331.1 million for FY 2026/27 as shown in Figure 1. The estimated increase for FY 2025/26 is due to anticipated debt proceeds to support the construction of the RP-5 Expansion and the RP-1 Solids Thickening Building & Acid Phase Digester projects. The estimated decrease in FY 2026/27 can be attributed to increased debt service as payments for the WIFIA loans begin.

**Figure 1: Wastewater Capital Fund Reserve by Type**

### Regional Wastewater Operations & Maintenance Fund

Total revenues and other funding sources in the Wastewater Operations & Maintenance fund are estimated to be \$131.2 million and \$229.5 million for FYs 2025/26 and 2026/27, respectively. FY 2026/27 includes \$89.2 million of anticipated debt proceeds. The proposed new debt will fund major capital projects such as the RP-1 Primary Clarifier Rehabilitation, RP-1 Headworks Influent Channel Rehabilitation, and the RSS Collection System Pipe Rehabilitation projects.

There is no change to the property tax allocation of 23 percent in the biennial budget period. Property tax receipts will support replacement and rehabilitation (R&R) projects not covered by current rates. Due to inflationary cost increases, primarily for utilities and chemicals, a rate increase of nine percent is necessary for FY 2025/26 and FY 2026/27. The proposed monthly sewer rates are shown in Appendix Table A3. Table 7 summarizes the Wastewater Operations & Maintenance fund proposed major revenues and other funding sources.

**Table 7: Wastewater Operations Fund Major Revenues and Other Funding Sources**

Major Funding Sources (\$Millions)	FY 2025/26 Proposed	FY 2026/27 Proposed	Key Assumptions
Monthly EDU	\$98.1	\$107.4	Based on adopted EDU rate of \$27.02 in FY 2025/26 and \$29.45 in FY 2026/27.
Property Tax	21.3	22.0	Annual allocation of property taxes of 23% of total property tax receipts for both fiscal years.

<b>Debt Proceeds</b>	0.0	89.2	Debt proceeds for the RP-1 Primary Clarifier Rehabilitation, RP-4 Process Improvements Phase II, SCADA Enterprise System, and various other projects.
<b>Cost Reimbursement from IERCA*</b>	5.0	5.3	Reimbursement of IERCA* labor costs.
<b>Other</b>	6.8	5.6	Includes interfund transfers from wastewater connection fees to support capital projects; interest revenue, contract cost reimbursement, and lease revenue.
<b>Total</b>	<b>\$131.2</b>	<b>\$229.5</b>	

*\*Inland Empire Regional Composting Authority*

Total expenses and other uses of funds are \$138.9 million in FY 2025/26 and \$163.6 million in FY 2026/27. Major expenses in the Wastewater Operations fund include operating and maintenance (O&M) expenses, capital Replacement & Rehabilitation (R&R) project costs, organic management activities, and debt service costs.

O&M expenses include employment costs based on the proposed staffing plan, inflation-driven increases for chemicals, and anticipated increases in electricity costs due to the new membrane bioreactor process at Regional Plant 5. Table 8 displays the proposed expenses and uses of funds for FYs 2025/26 and 2026/27.

<b>Total</b>	<b>\$138.9</b>	<b>\$163.6</b>	

A total of \$27.7 million in capital project costs is budgeted for FY 2025/26 and \$34.4 million is projected for FY 2026/27. Major capital projects are listed below in Table 9.

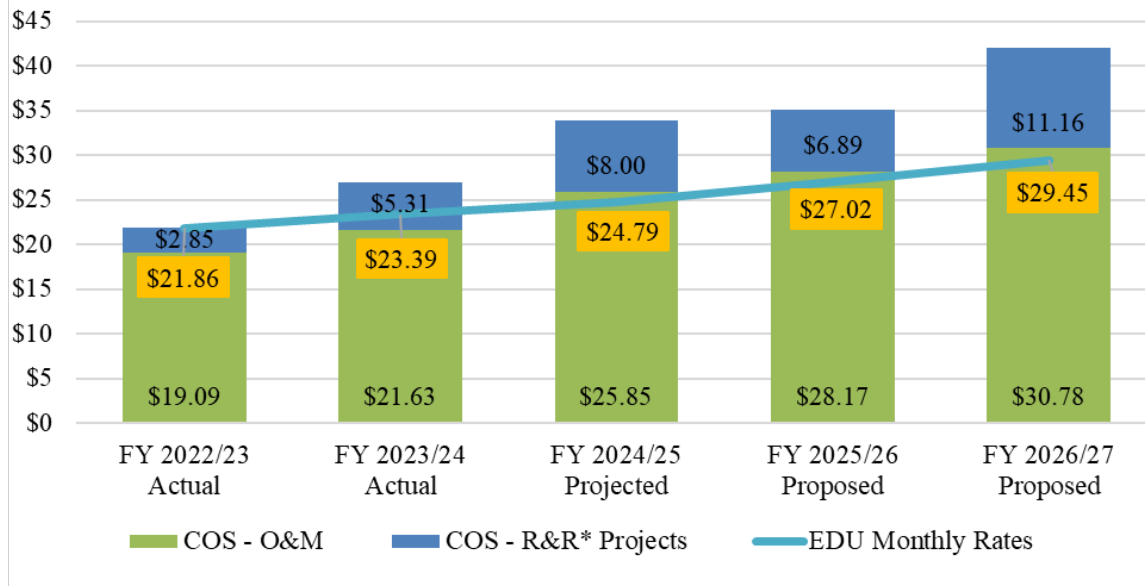

**Table 9: Wastewater Operations Fund Major Capital Projects**

### Cost of Service

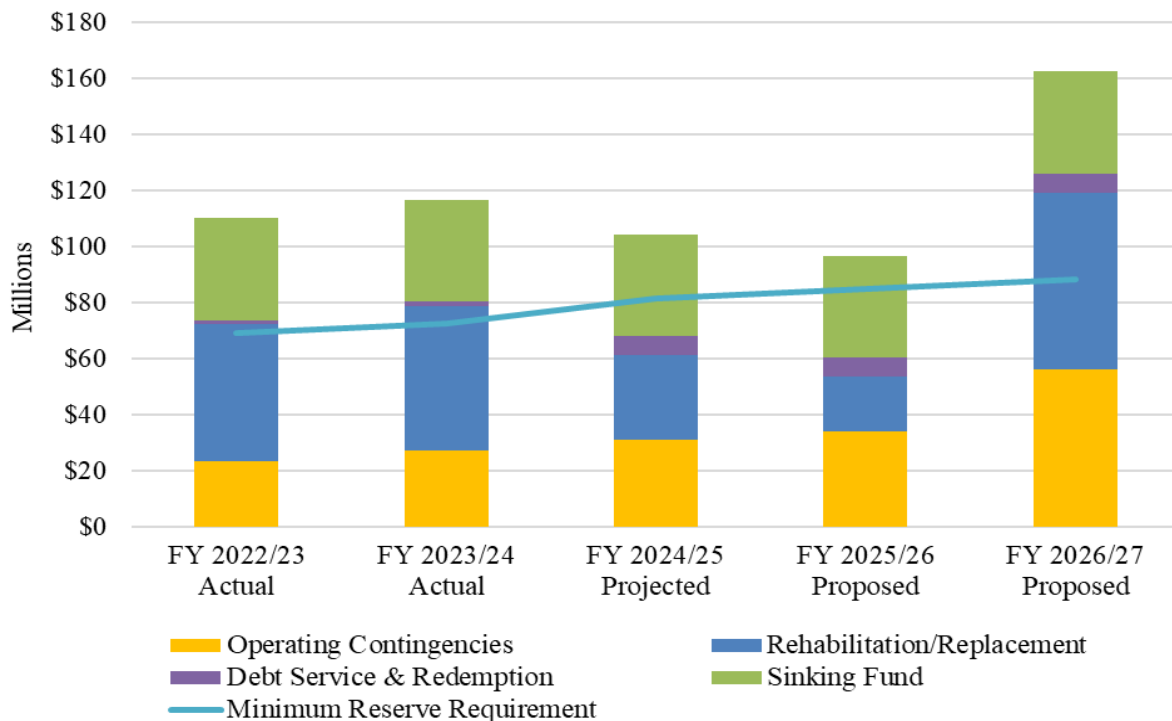

A key objective of the IEUA Board of Directors is to establish rates that fully recover the cost of providing service. Pursuant to the Regional Sewage Service Contract and Ordinance 114, the monthly EDU rate is to support O&M costs, repair and replacement of assets, and fund reserves.

Figure 2 shows the cost of service for the Wastewater Operations fund. Cost-of-service components include operations & maintenance, R&R projects, and debt service expenses. Any cost of service not covered by the monthly EDU rate will be supported by property taxes and the utilization of reserves.

**Figure 2: Monthly EDU Sewage Cost of Service**

### Wastewater Operations Fund Balance

The projected ending fund balance for the Wastewater Operations fund is estimated to be \$96.7 million for FY 2025/26 and \$162.6 million for FY 2026/27. The significant increase in fund balance for FY 2026/27 is primarily attributed to the proposed new debt issuance for major capital projects. Figure 3 illustrates the trend in reserves for the Wastewater Operations Fund.

**Figure 3: Wastewater Operations Fund Reserves by Type**

## **Conclusion**

The proposed biennial budget for FY 2025/26 and FY 2026/27 Regional Wastewater program is in alignment with IEUA's Strategic Plan, which prioritizes Fiscal Responsibility, Water Supply Reliability, Public and Environmental Health, and a commitment to fostering a Culture of Excellence. The biennial budget for the Regional Wastewater programs has been developed to reflect the Agency's strategic goals, focusing on the prudent management of financial resources and ensuring the reliability and sustainability of water and wastewater services. This budget also addresses inflation-driven increases in operating expenses, particularly for utilities and chemicals, while supporting regional growth, asset management, and regulatory compliance.

Throughout the biennial budget period, the Agency will continue to work towards the completion of the RP-5 Expansion and other major projects. The proposed budget also focuses on strengthening human capital to support the achievement of the Agency's strategic goals and enhance organizational effectiveness. By achieving these objectives, the Agency will maintain its commitment to delivering essential high-quality services in a cost-effective manner, support the region's economic development, and preserve its fiscal health. Additionally, the Agency will focus on financing the Ten-Year Capital Improvement Plan through low-interest debt while actively pursuing grant opportunities.

**Appendix Table A1: Key Assumptions for FYs 2025/26 and 2026/27 Budget**

Revenues and Other Funding Sources	Expenses and Other Uses of Funds
Propose a 9% increase in EDU monthly rate in FY 2025/26 and FY 2026/27, applied over 3.6 million annual EDU at 0.50% annual growth.	Supports Replacement and Rehabilitation projects costs, operating costs, and debt service.
No change to the Wastewater Connections fee rate of \$8,620 in FY 2025/26 and FY 2026/27. Revenues based on 3,200 and 3,100 new EDU connections, respectively.	Supports construction of new capital projects and debt service costs.
Capital Improvement Plan (CIP) is partially dependent upon Federal Loans, low interest State Revolving Fund Loans and proposed new debt.	Debt, loan, and grants to support major construction projects such as the construction of RP-1 Thickening and completion of RP-5 Expansion projects.
3% average growth in property tax receipts for FY 2025/26 and 2026/27.  Maintaining allocation among funds for: Regional Wastewater Capital 65%, Regional Wastewater O&M 23%, Administrative Services Fund 4.5%.  A proposed change in allocation to: Recycled Water Fund from 4% to 6% Water Resources Fund from 3.5% to 1.5%.	Proposed staffing allows for the recruitment of critical positions to support wastewater treatment facility expansion, operational efficiency, long term planning and project management efforts, cyber security, emergency preparedness and safety, and workforce development aimed at maintaining sustainable and reliable services to our communities.

**Appendix Table A2: Wastewater Connection Fees**

Rate Description	FY 2024/25 Adopted	FY 2025/26 Adopted	FY 2026/27 Adopted

# Recommend the IEUA Board of Directors Adopt the Fiscal Years 2025/26 and 2026/27 Proposed Biennial Budget for Regional Wastewater Programs

---

Alexander Lopez  
Treasurer  
May/June 2025

## 2 Key Assumptions

---

- **Operating cost increases** for operating expenses, particularly for utilities and chemicals
- **Capital projects** based on the Proposed Ten-Year Capital Improvement Plan (TYCIP) and Ten-Year Sewer Capital Forecast (TYSCF) for Fiscal Years (FYs) 2026-2035
- **Staffing needs** to support TYCIP, expansion efforts, succession planning, cybersecurity, growth, asset management, and regulatory compliance
- **Financing approach** includes proposed new debt issuance, low-interest federal and state loans, and actively pursuing grant opportunities
- **Adopted rate increase** for Regional Wastewater monthly Equivalent Dwelling Unit (EDU)
- **Proposed change** in Property Tax allocation impacting the Recycled Water and Water Resources Funds

### 3 Proposed Rates and Fees

---

- Regional Wastewater EDU Connection Fee, no change to current rate
- Inflation driven increases for operating expenses

Program	Rate Description	FY 2024/25 Current	FY 2025/26 Adopted	FY 2026/27 Adopted
Effective Date		07/01/2024	07/01/2025	07/01/2026
Regional Wastewater Capital	Wastewater Connection Fee	\$8,620	\$8,620	\$8,620
Regional Wastewater Operations & Maintenance	Wastewater Monthly EDU	\$24.79	\$27.02	\$29.45

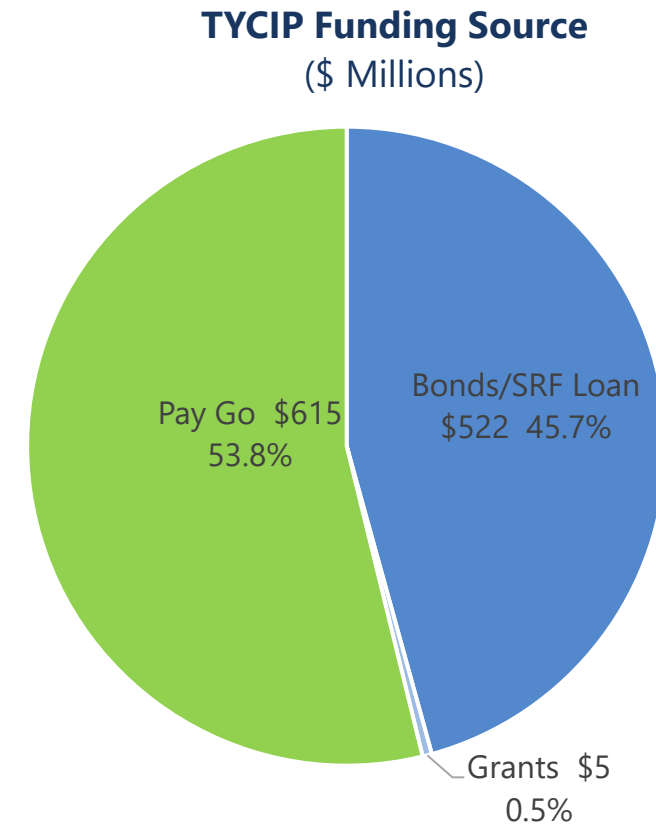

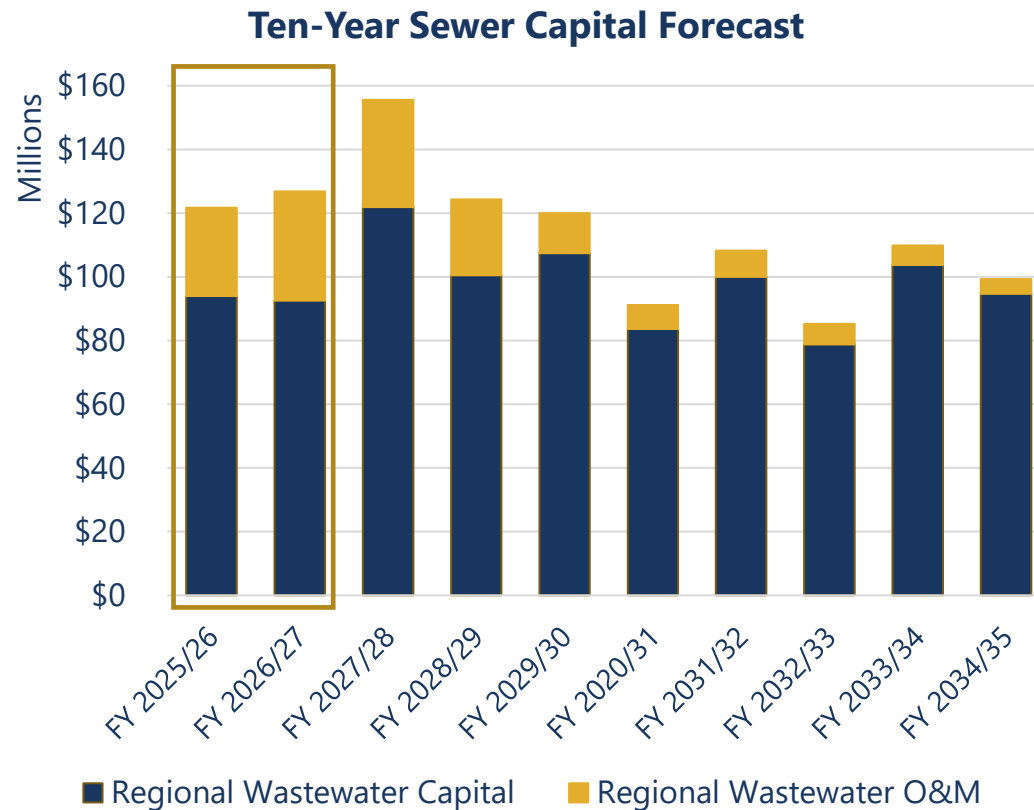

## 4 Property Tax Allocation

- Proposed increased allocation to Recycled Water program to support TYCIP objectives
- Amounts over fixed percentages to be allocated to the Recycled Water fund

Fund (\$in Millions)	Current Allocation	FY 2024/25 Projected	Proposed Allocation	FY 2025/26 Proposed	FY 2026/27 Proposed
Regional Wastewater Capital	65.0%	\$53.3	65.0%	\$60.1	\$62.2
Regional Wastewater Operations	23.0%	20.6	23.0%	21.3	22.0
Administrative Services	4.5%	4.0	4.5%	4.1	4.3
Recycled Water	4.0%	3.6	6.0%	5.5	5.7
Water Resources	3.5%	3.1	1.5%	1.4	1.4
<b>Total</b>	<b>100%</b>	<b>\$84.6</b>	<b>100%</b>	<b>\$92.4</b>	<b>\$95.6</b>

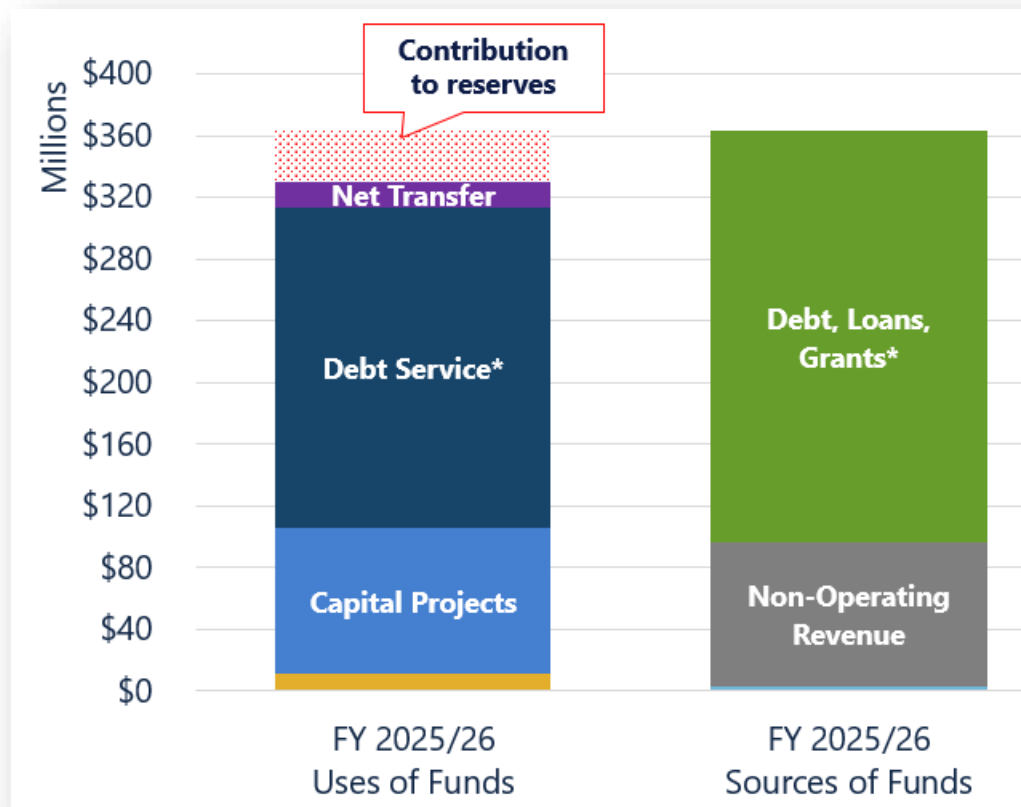

## 5 Ten-Year Sewer Capital Forecast

- \$1.1 billion Ten-Year Sewer Capital Forecast with \$121.6M and \$126.9M for the biennial budget years
- Funded by state and federal loans, property taxes, connection fees, grants, and proposed new debt

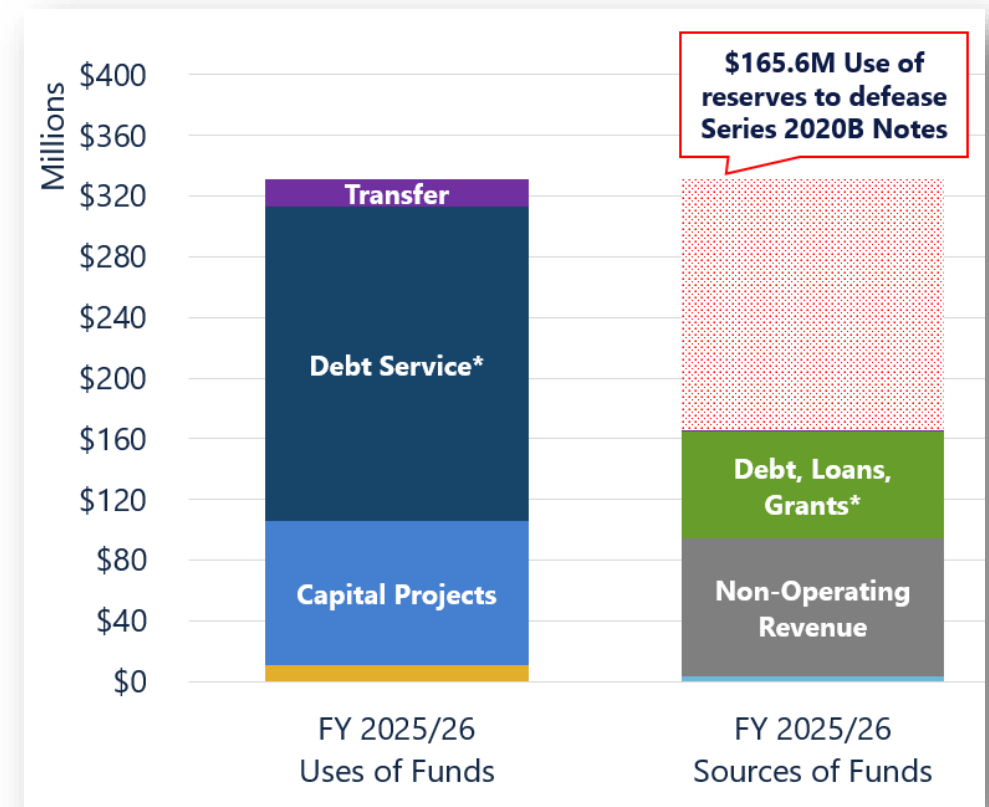

## 6 FY 2025/26 Wastewater Capital Improvement Fund Total Sources and Uses of Funds

FY 2026/27 Proposed Budget

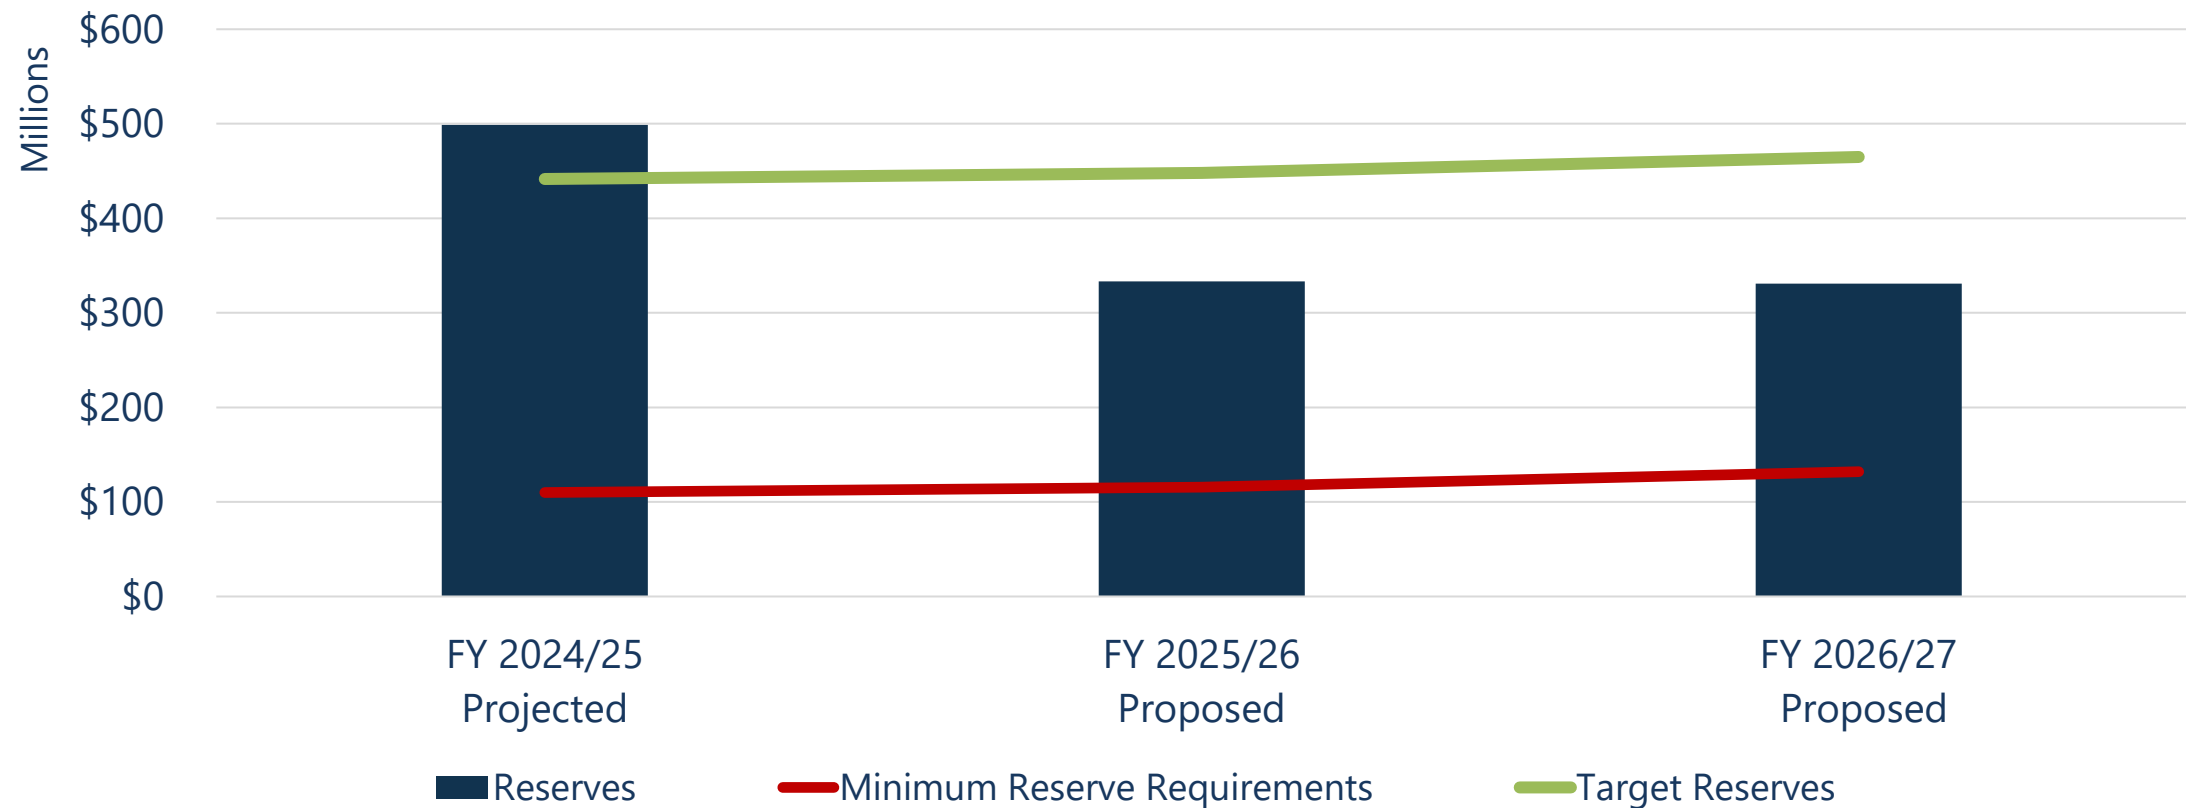

■ Operating Expenses      ■ Capital Projects      ■ Debt Service      ■ Operating Revenue  
■ Non-Operating Revenue      ■ Debt/Grant Proceeds      ■ Transfer      ■ Reserves

\* Includes a \$196.4 million draw from the WIFIA loan and pay down of the 2020B Revenue Notes

## 8 Wastewater Capital Improvement Fund Reserves

### Stable reserves for planned capital project expenditures:

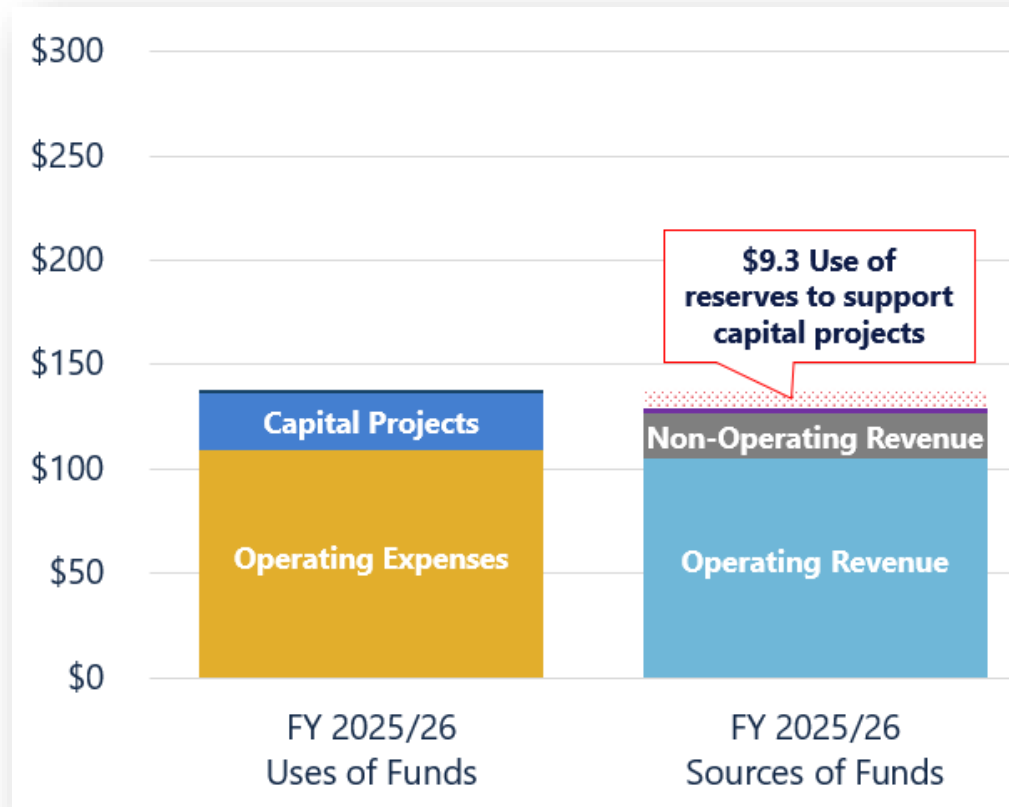

- Use of connection fees
- Use of property tax
- State and federal loans and grants

## 9 FY 2025/26 Wastewater Operations & Maintenance Fund Total Sources and Uses of Funds

FY 2025/26 Preliminary Budget  
Presented in April/May as Informational Item

■ Operating Expenses      ■ Capital Projects  
■ Reserves                      ■ Operating Revenue

FY 2025/26 Proposed Budget

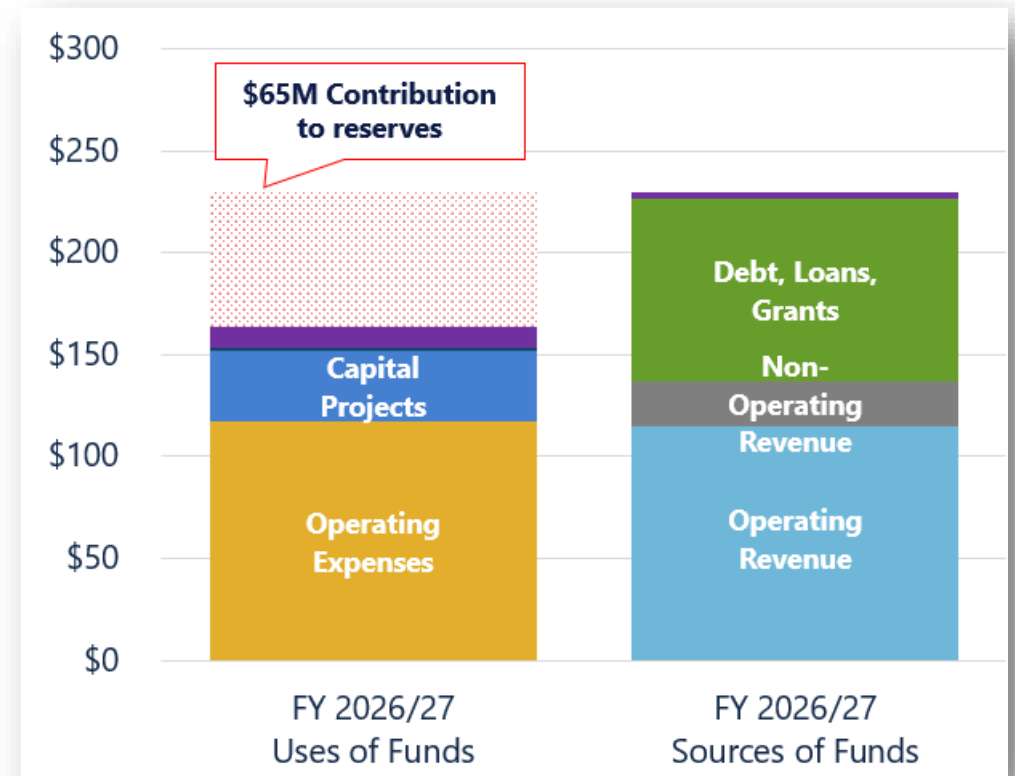

■ Debt Service                      ■ Net Transfer  
■ Non-Operating Revenue      ■ Debt/Grant Proceeds

## 10 FY 2026/27 Wastewater Operations & Maintenance Fund Total Sources and Uses of Funds

FY 2026/27 Preliminary Budget

FY 2026/27 Proposed Budget

■ Operating Expenses  
■ Reserves

■ Capital Projects  
■ Operating Revenue

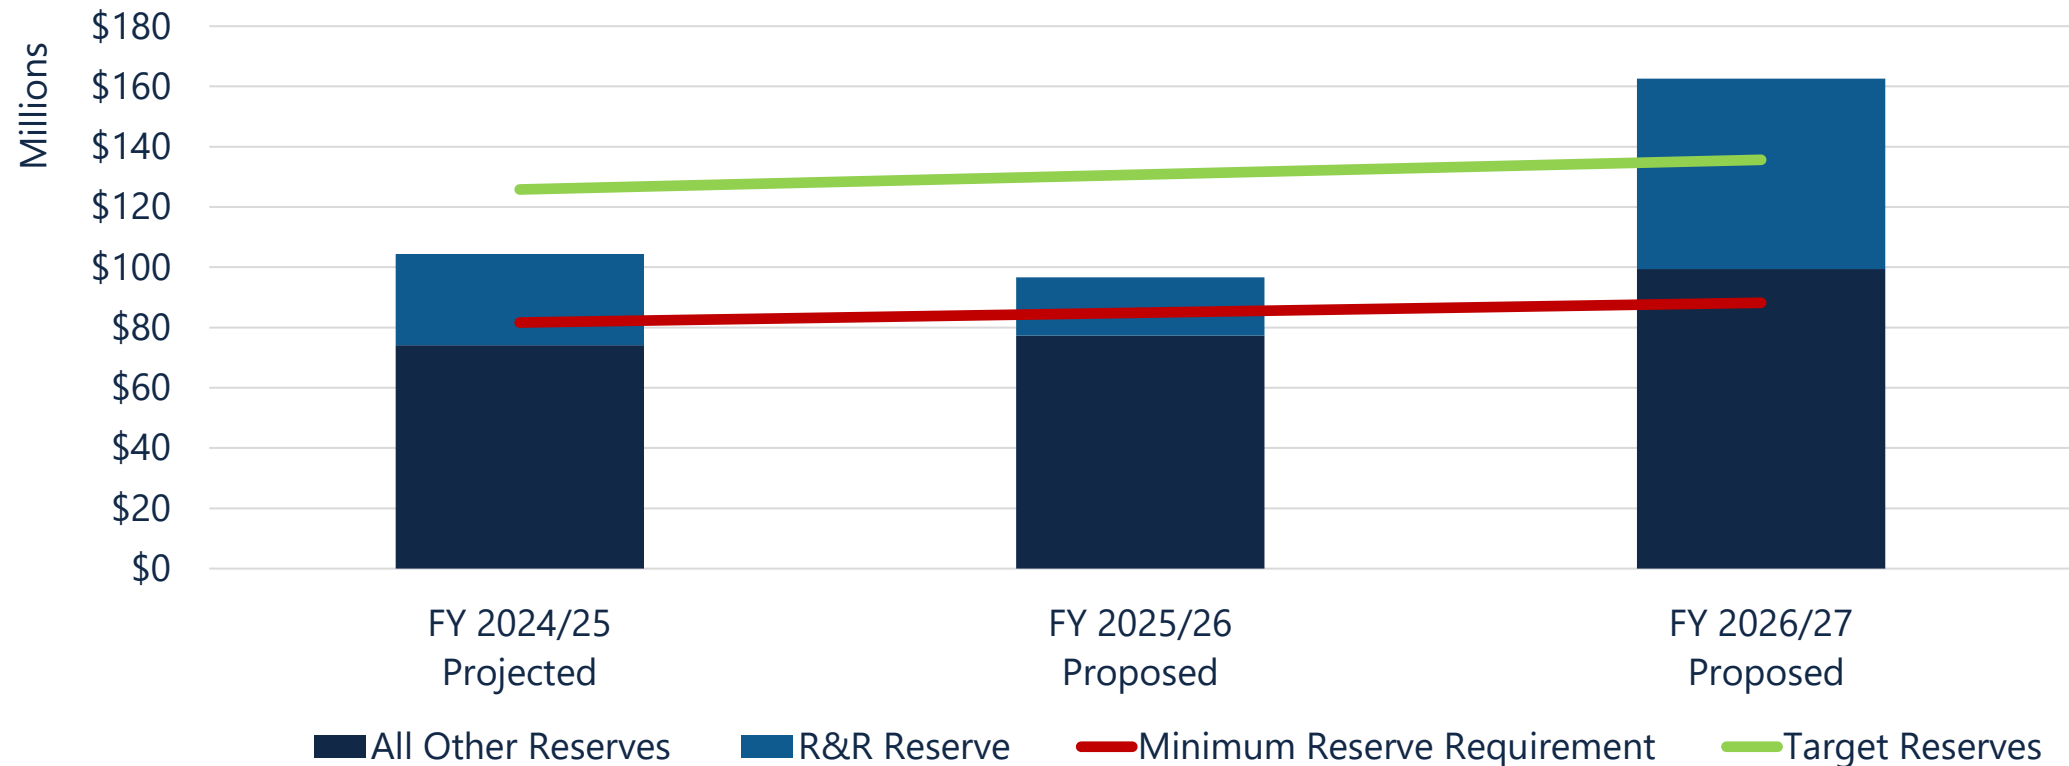

■ Debt Service  
■ Non-Operating Revenue

■ Net Transfer  
■ Debt/Grant Proceeds

## 11 Proposed - Wastewater Operations & Maintenance Fund Reserves

### For planned R&R capital project expenditures:

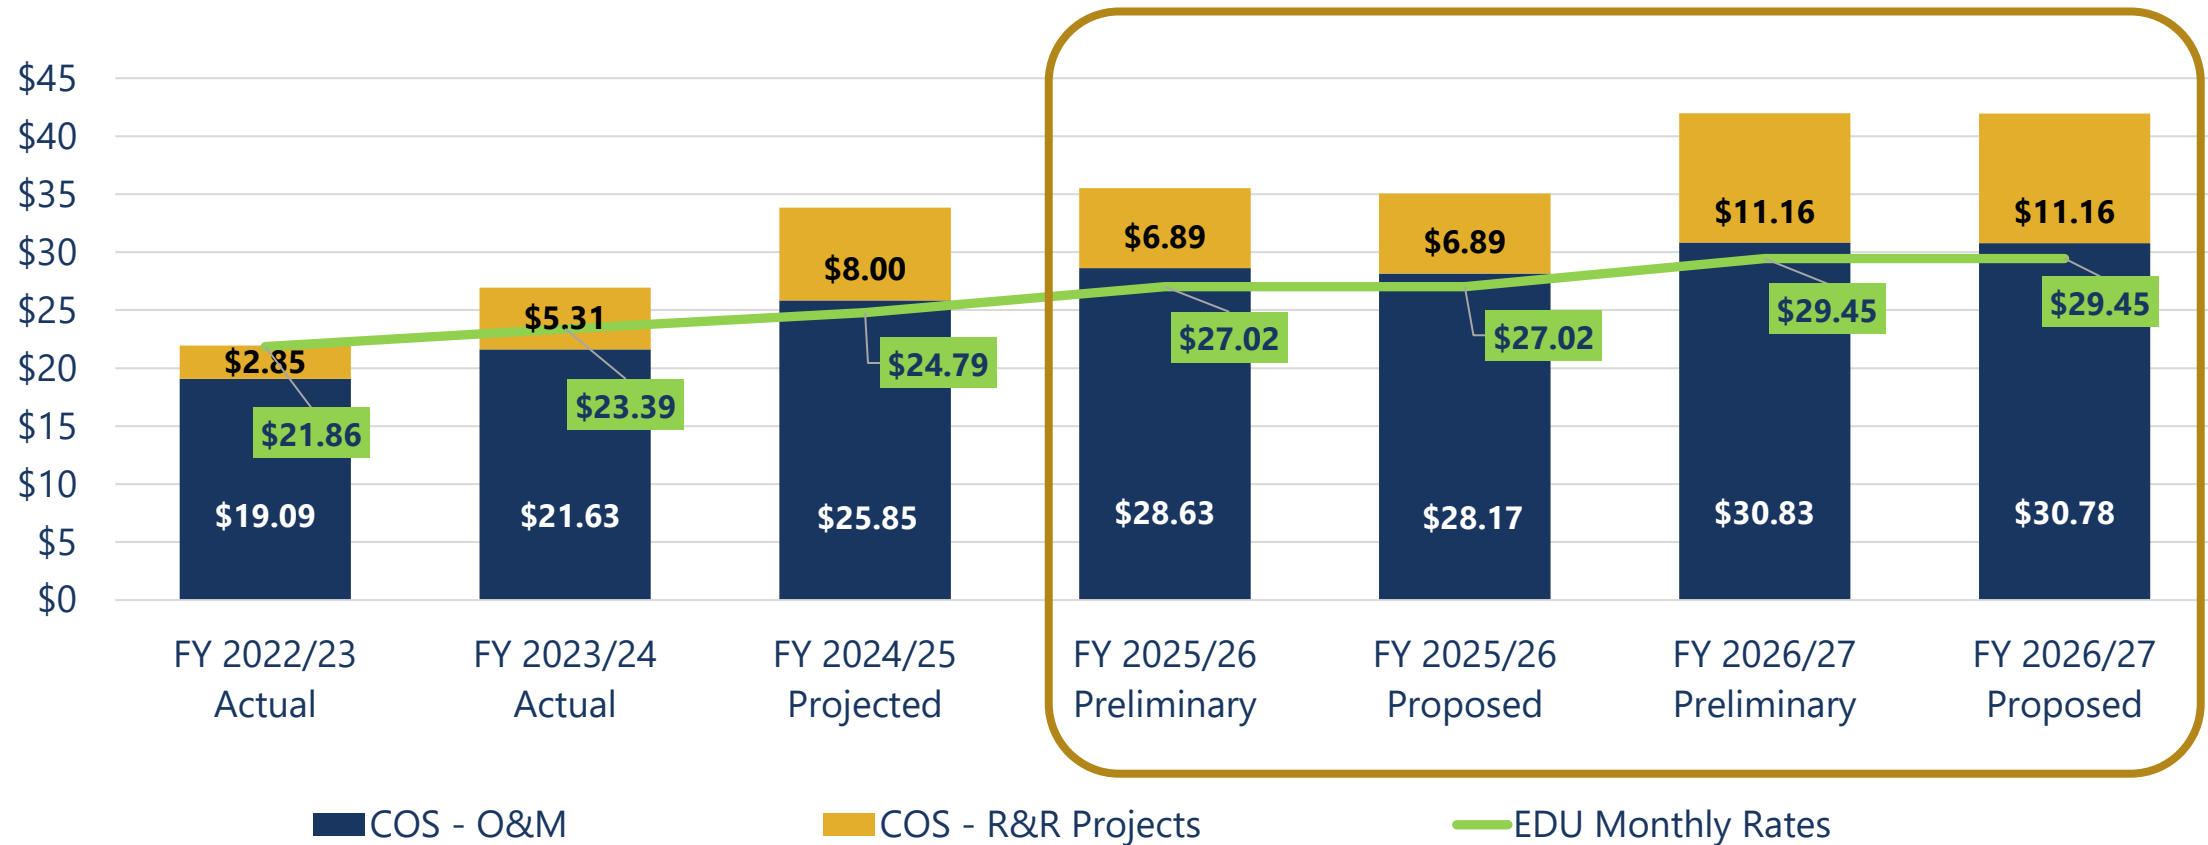

- Use of property tax and reserves
- Propose new debt
- FY 2026/27 increase in reserves due to proposed debt proceeds

## 12 Wastewater Operations & Maintenance (O&M) Fund Cost of Service (COS)/EDU

- COS components include O&M, replacement and rehabilitation (R&R) projects, and debt service
- R&R project costs not recovered by rates will be supported by property tax and reserves

# Chino Basin Program Update

Liz Hurst, Chino Basin Program Manager

May 2025

# Agenda

- Background | Vision
- Overview of Chino Basin Program
- Chino Basin Program Facilities
- Implementation Milestones

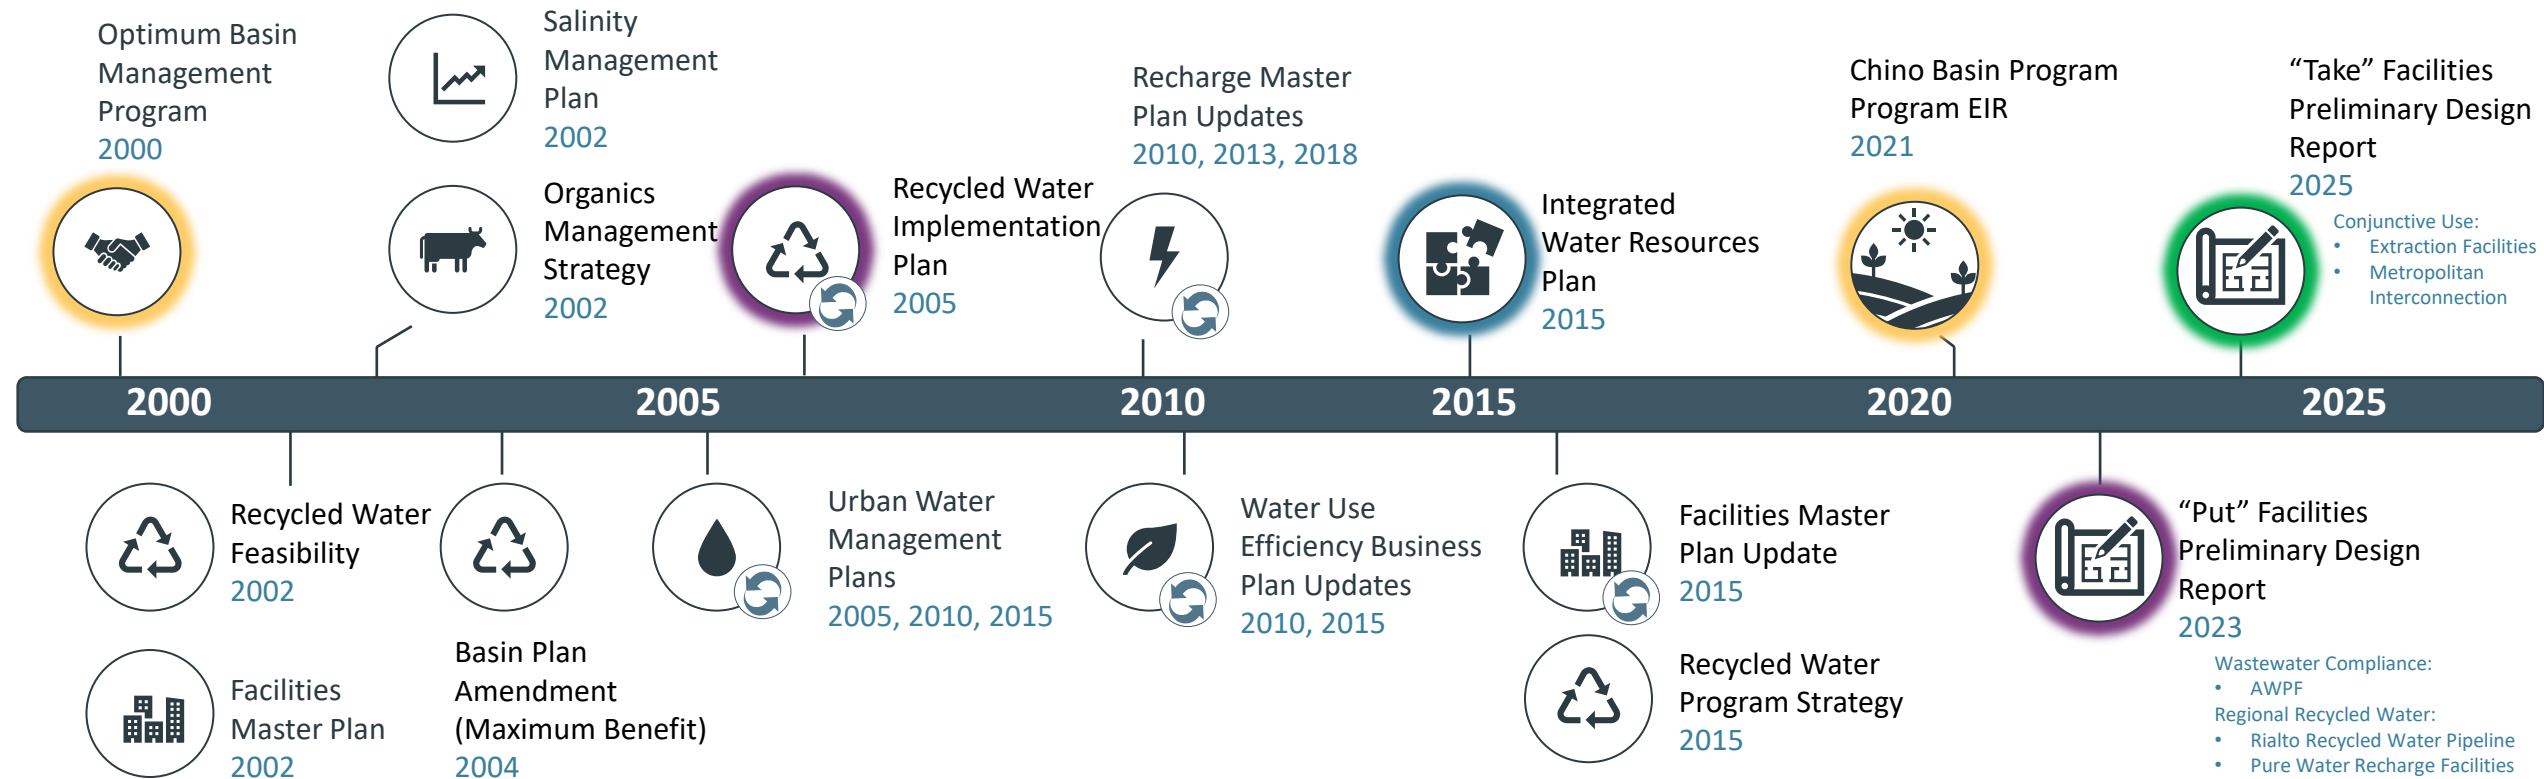

# Background | Vision

- Make sound investments that address the needs of the region today, tomorrow, and into the future
- Maximize reliability to IEUA ratepayers
- Protect, maintain, and meet recycled water and wastewater permit requirements
- Identify solutions through partnerships and collaboration
- Seek outside funding from State and Federal grants to support local programs
- Develop resilient water supplies and make every drop of water count

# Proactive Regional Planning

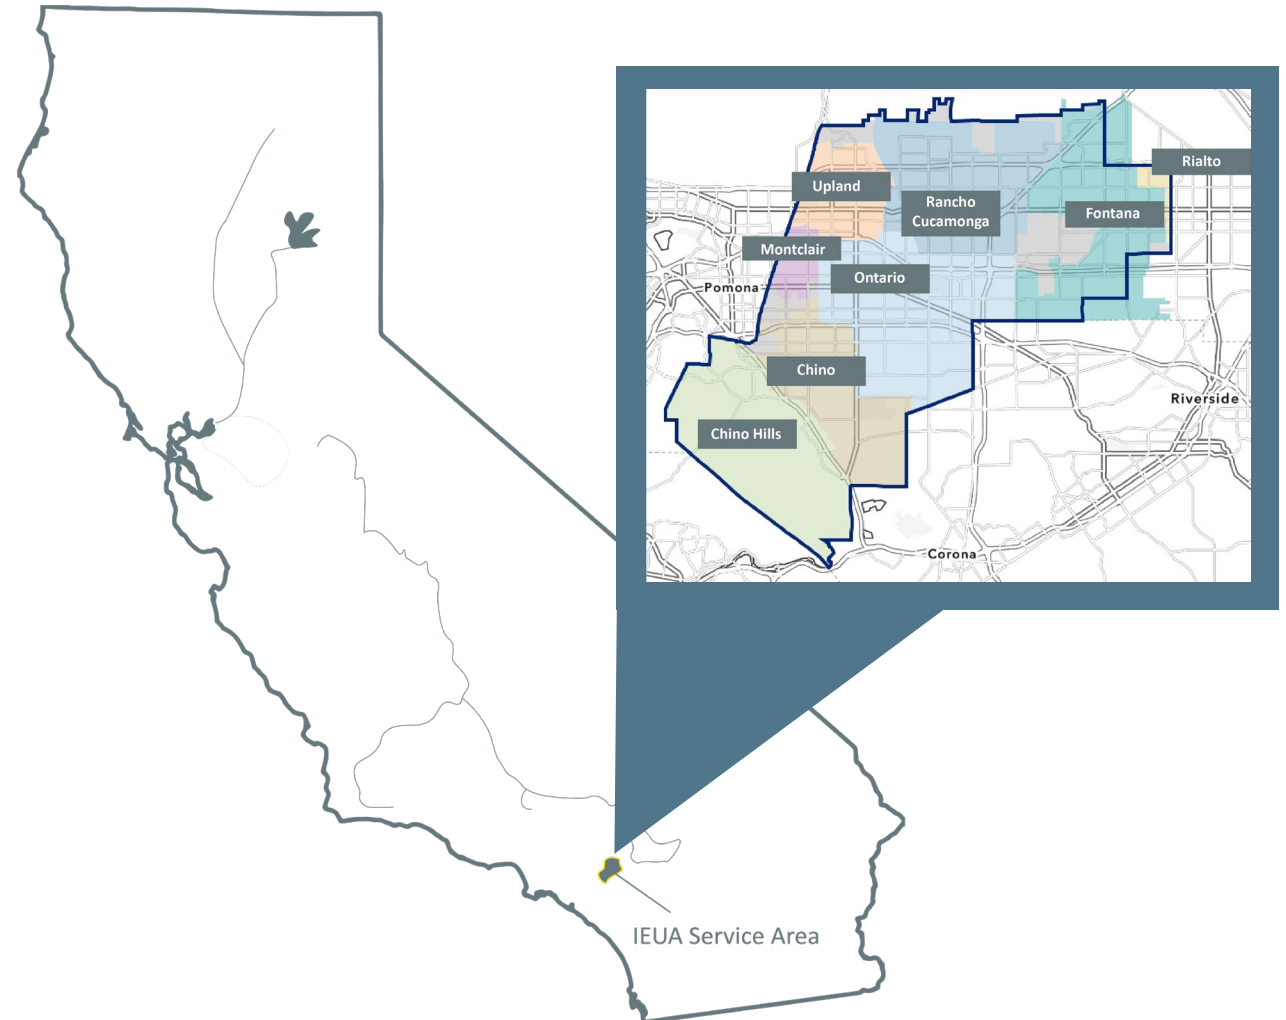

# Chino Basin Program Overview

Chino Basin Program (CBP) develops local infrastructure to improve water supply reliability:

- CBP is a series of local water treatment and storage projects
- Exchange agreements provide north of Delta pulse flow for ecosystem benefits
- Designed to modernize storage and delivery systems of regional water supplies

# Chino Basin Program Operations

## Southern California

- Advanced treatment of recycled water supplies
- Store treated water in the Chino Groundwater Basin
- Pump stored groundwater to customers to offset State Water Project Supplies when a pulse flow occurs

## Northern California

- Release water from Lake Oroville reservoir as a pulse flow to the Feather River to improve survival of migrating salmon
- Water flows downstream through the Bay Delta, to the ocean

# Chino Basin Program Overview

## Wastewater Compliance Facilities

1

### Water Purification

15,000 AF/year

2

### Groundwater Storage

15,000 AF/year

## Regional Recycled Water Program Facilities

3

### New Wells

Constructs new production wells

4

### Pipeline Interconnection

Interconnection to Metropolitan

## Groundwater Conjunctive Use (CBP WSIP Funds)

### Facility

### Purpose

Advanced Water Purification Facility (15mgd)

- Advance treat recycled water for storage in groundwater basin
- Remove salts, CECs

Rialto Recycled Water Pipeline

- Supplemental water to provide steady flow for Advanced Water Purification Facility

Pure Water Recharge Facilities (aquifer replenishing wells, conveyance, GWR facilities)

- Store purified water in Chino Basin aquifer for future use.
- 15,000 AF of water to be stored each year

Extraction Facilities (wells, conveyance)

- Production wells with a total production capacity of 40,000 AF

MWD Interconnection

- Pump-in connection to move 10,000 AF pumped groundwater to Metropolitan's Rialto Pipeline.

# Chino Basin Program Overview

## FY 2025/26 and FY 2026/27 Funding

- Continuing Planning and Implement Early Design Phase for the Three Components of CBP:

Advanced Water Purification Facility

Regional Recycled Groundwater Replenishment

Production and Conveyance Facilities associated with  
Prop 1 - Water Storage Investment Program (WSIP)

- CBP not included in FY 2025/26 and FY 2026/27 Rates and Charges:

Proposed Funding Source	Amount (\$ M)
Water Resources Fund Property Tax Reserve - One Time Transfer	\$24.0
Wastewater Capital Property Tax Reserve	\$12.9
USBR Large Scale Water Recycling Program Grant	<u>\$10.8</u>
<b>Total =</b>	<b>\$47.7</b>

Long-term Funding and Cost Allocation to be Addressed Through Five-Year Rate Study

# Southern California Actions

## Every year:

*Treat and store water in the Chino Groundwater Basin*

## When Pulse flow occurs:

*Produce and serve stored water*

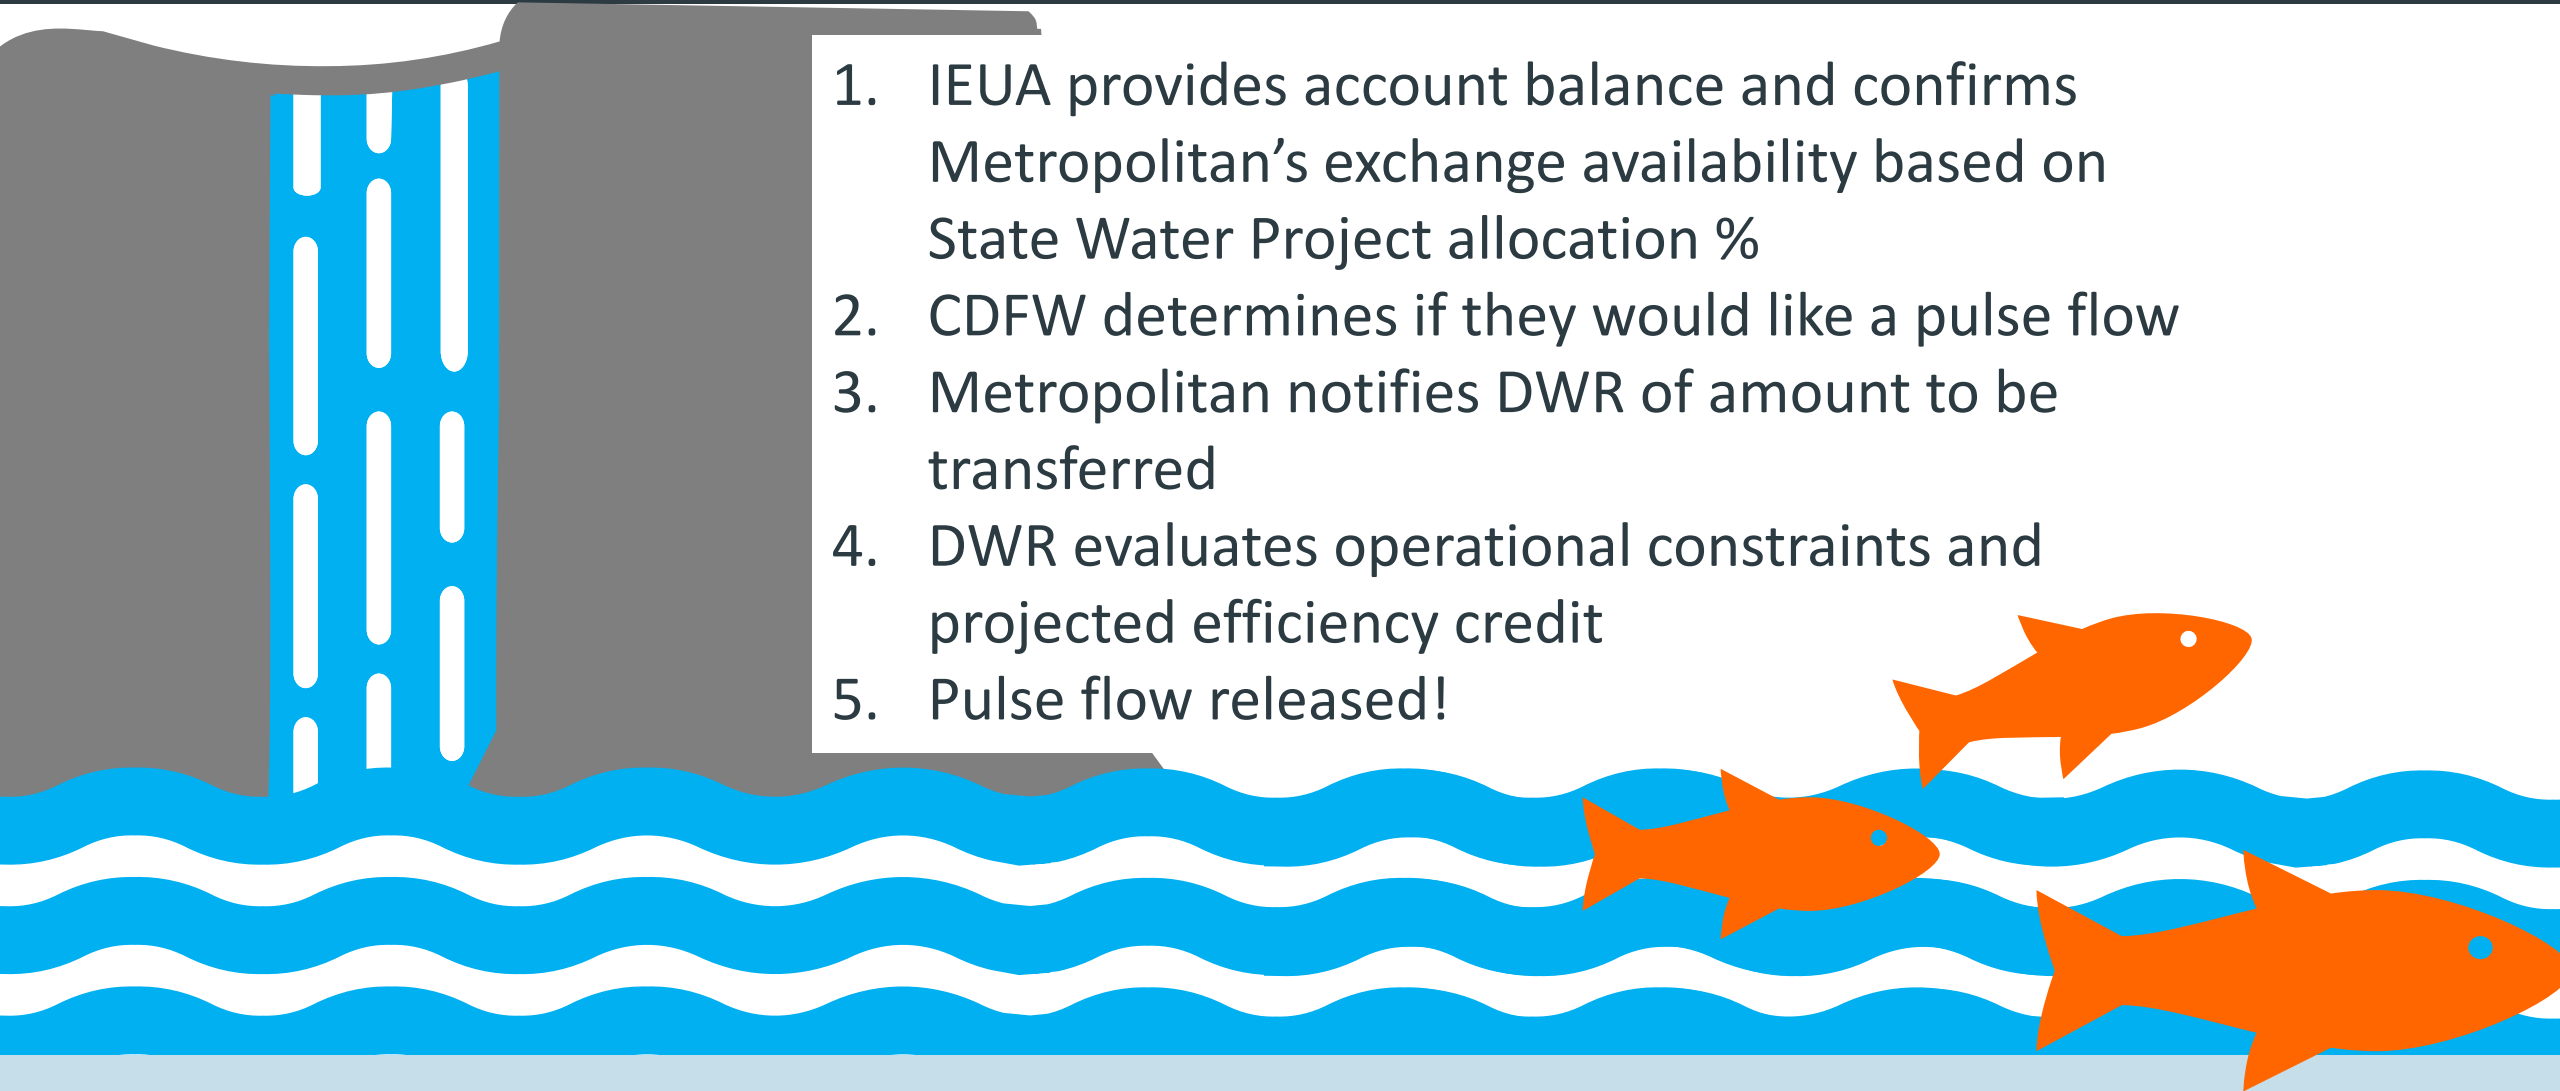

# Northern California Actions

*(Pulse Flow Release)*

1. IEUA provides account balance and confirms Metropolitan's exchange availability based on State Water Project allocation %
2. CDFW determines if they would like a pulse flow
3. Metropolitan notifies DWR of amount to be transferred
4. DWR evaluates operational constraints and projected efficiency credit
5. Pulse flow released!

# Implementation Milestones

- ☒ Complete Treatment and Storage Facilities PDR Work
  - AWPf (2023)
  - City of Rialto RW Interconnection (2024)
  - Replenishing Wells (2023)
  - Permitting and Regulatory Strategy (2023)
  - Updated cost estimates
- ☒ Complete CBP CEQA Certification (2022)
- ☒ Award Program Manager/Owner's Engineer Contract (2023)
- ☒ Exploratory Boreholes (2024)
- ☒ Execute Rialto RW Purchase Agreement (2024)
- ☒ Execute IEUA-MWD CBP Agreement (2024)
- ☐ Award Progressive Design Build Contract for AWPf and City of Rialto RW (summer 2025)
- ☐ Staff Draft State Public Benefit Contracts for WSIP Funds (fall 2025)
  - CDFW | DWR | SWRCB
- ☐ Wastewater Change of Use Permit submittal (fall 2025)
- ☐ Carriage/Efficiency Credit and SWP O&M resolution (Dec 2025)
  - DWR | USBR | IEUA
- ☐ Complete Extraction Facilities PDR Work (winter 2025/26)
  - Updated cost estimates
- ☐ Final Local Performance Agreements (spring 2026)
- ☐ Environmental finding of consistency (winter 2026/27)
- ☐ Final State Public Benefit Contracts (winter 2026)
- ☐ WSIP Final Funding Hearing (fall 2027)
- ☐ Complete construction
  - Rialto RW Interconnection (2027-2031)
  - AWPf (2027-2031)
  - Replenishing Wells (2027-2030)
  - MWD interconnection (2028-2031)
  - Extraction Wells (2028-2031)
- ☐ Facilities start-up commissioning, operations begin (2031-2032)
